Ancient Order of Hibernians.

A very successful meeting of Div. No. 1, A. O. H., was held in Temperance Hall on Feb. 5th, at which ten members were initiated and four applications received. Before the close of the meeting President John McGarry, on behalf of the Division, presented Bro. W. J. McLean with a short address, accommanced with a martheiged clock, on accompanied with a marbleised clock, on the occasion of him retiring from the office of Treasurer, which he held so long, and those duties he discharged so efficiently.

THE ADDRESS.

Sin. -Your Brothers, and their name is legion, cannot permit you to retire from office without a direct Expression of their esteem and regard. I am desired on their part to present you with the accompanying clock as a very slight token indeed of their appreciation of so admirable and efficient

Br. McLean, although taken by surprise, made a very suitable reply.

The colowing resolution was passed at the regular meeting of Div. No. 1, A.O. H., held on the 5th instant:

Whereas we, the members of Div. No. 1, A.O.H., having heard with sincere regret of the death of the beloved child of our esteemed brother, P. Nolan:

Be it resolved, that we render to Bro. Nolan and wife, our heartfelt sympathy in

the sad affliction that it has pleased Almighty God to visit them with, and pray that He will give them the grace to bow with humble submission to His Holy will.

Be it further resolved that a copy of this resolution be sent to the bereaved parents spread on the minute book and forwarded to THE CATHOLIC REGISTER and the Catholic Record for publication.

North American Life.

The attention of our readers is specially directed to the annual report of the North American Life Assurance Company, which appears on another page of this issue. During the past year the Company sustained (as has also indeed, the country at large) a great and almost irreparable loss in the death of the late Hon. Alexander Mackenzic, its President—a graceful tribute to whose name is paid in the report referred to. The Company's business for the year exceeded name is paid in the report referred to. The Company's business for the year exceeded that of the previous year: the cash income amounted to \$446,464 40; the accumulated funds now stand at nearly a million and a half dollars; the year's put-by amounted to \$206 421.39; while the sum paid for matured endowments, claims &c. &c., to policyholders and as surplus, was \$118,436.73. It should also be a great source of satisfaction to the Company's relievelyholders. It should also be a great source of satisfaction to the Company's policy-holders to know that during the year an excellent rate of interest was earned on their assets, thus showing the skill which must have been exorcised by the Company's executive officers in investing its funds. From the date of its organization, up to the present, the Company has been steadily growing financially, and by comparing its growth from year to year, we can cately predict a brilliant future for this successful home institution. Amongst the large number of prominent insurers holding policies in this progressive Company, for considerable amounts, is, we understand, the Most Rev. Dr. Cleary, Archbishop of Kingston.

LIVE STOCK MARKETS.

Toresto. Feb. 7.—There was a very good market at the Western cattle yards this morning, and all things considered business was fairly brisk. All told, only 21 loads came in, and the small run made prices much firmer. Several loads were bought for Montreal, a few cattle for Windsor and other cutside points. All good stuff sold readily to-day, and for any kind of cattle here there was a better demand at better here there was a better demand at better prices. Everything was sold by noon. Prime qualities of cattle were in demand, and more would have found a ready sale had it been here. The receipts for last week were 1,332 cattle, 781 sheep and lambs, and 211 hogs.

711 hogs.
CATTLE. - Prices for the best ranged from 3) to 4c per pound; a few picked lots were sold at 4½c, but this was in no sense a representative price. For second-rate stuff

from 3½ to 3½0 was about the average, and inferior brought from 2½ to 3c.

Sheep and Lames.—We had 287 here, just about enough for the demand: if anything lambs were a little weaker, but were still weaker, but were still quotable at from \$3.50 to \$5.25 each. Sheep are mostly sold just now m xed with lambs, and quotations for sheep are merely nominal.

Calves.-Less than one dozen came in, mostly very poor specimens, anything like good calves will sell at good prices, as there

Hoos.—Only 113 were here, and they were caught up at once at strong but unchanged quotations.

The first bottle showed a marked improvement and after using the second bottle and up to the present time the child is a happy and contented being. All those suffering from nervousness should seek refuge in Father Keenig's Nerve Tonic.
