Notes by H. Asplwall Howe, Esq., T.C.D., M.A., L.L.D.

- (a) Better to have played the Bishop to Q B 4. (b) If White won't make an onset, Black will. In this game Black is the first to make the two most attacking moves on the chess board, viz: P to Q 4 and P to K B 4. But instead of bringing his Knight round, equal to White to the King's side, he loses time by the 12th, 14th and 21st moves. (c) Cramps his pieces. Black could effectually stop the travels of this Knight by playing P to K B 4. (d) He should first play P to K B 4. (e) Losing time. (f) Unnecessary. (g) With what object? (h) Better bring round the King's Knight. (i) One bite of the cherry. (j) The Bishop would be in a better position at Q Kt 2. (k) Apprehensive that White would play Q to Q 3 and follow with a raid of the King's Rook somewhere. But for all that, Black should have played the Knight's Pawn two squares up. (l) The other bite of the cherry. White should have declined the offered draw and played, Bishop takes Pawn, with a good game.

MR. MAPESON says that the safety of the London and Paris theatres from fire is the eternal vigilance over them. Two firemen of the department are stationed on each side of the stage and watch for fires as a cat watches a mouse. Little fire-pumps throw a small stream a long distance and put out the slightest spark, generally without anybody's knowing it. One night a prima donna came in after singing her part, remarking that if the roof was to leak like that she would have to sing in overshoes. But it was not the leak, but the dripping of the water from above where a spark had caught in the flies and was instantly flooded. She did not know of any fire. In Paris there is a squad of firemen on the stage during the whole of a performance.

Cadbury's COCOA ESSENCE. PURE, SOLUBLE, REFRESHING. It is often asked, "Why does my doctor recommend Cadbury's Cocoa Essence?" The reason is that being absolutely genuine, and concentrated by the removal of the superfluous fat, it contains FOUR TIMES the AMOUNT OF NITROGENOUS or FLESH-FORMING CONSTITUENTS of the average of other Cocos which are mixed with sugar and starch. Beware of imitations, which are often pushed by Shopkeepers for the extra profit.
