Hard Times and Health.

Medical experts, who claim that more people are ill from overeating than from any other cause, seem, according to some To Make a Dollar any other cause, seem, according to some recent investigations, to have rather the best side of the argument. The business Go as far as possible o o o o o o o o o o o o o fthe druggist and the calls at the dispensaries have both fallen off in a remarkable degree. Those who have kept the run of events say that this state of things always exists during times of great financial depression. They account for it by the fact that when They account for it by the fact that when work is scarce or maney difficult to get the masses of people buy plainer food and less of it, and are, as a consequence, on a somewhat low diet. This invariably brings about better conditions of health and of course fewer drugs and health, and, of course, fewer drugs and doctors are needed. When there is extreme poverty, disease increases especially among children, as their bodies are not properly nourished, and, having less resistive power, they fall an easy prey to maladies of various sorts. From which we are led to believe that hard times bring about much better health, whatever may be said of pleasures and

Only Too True.

A minister wished to ascertain what WINNIPEG - - - MAN influence the hard times had upon his his sermon: "I would ask every one who still is able to pay his debts to rise from his seat." The whole congregation arose, with the exception of one man. The parson then asked that all those who were unable to meet their bills should rise. Thereupon the afore men-tioned solitary individual got up, a hungry-looking, poorly-clad man whose features revealed the terrible struggle features revealed the terrible struggle one fighting hopelessly against the vicinstitudes of this world. The minister regarded him attentively; yet kindly. "How is it, my friend," he said, "that you are the only one among all these people who cannot pay his debts?" "Sir," answered the man, hesitatingly, "sir," I publish a newspaper, and these my brothers who rose just now ere all subscribers, and—" But the minister interrupted him hastily. "Let us pray," he said.

"Annie Laurie" was written by William Douglas, of England. Annie was the Daughter of Sir Robert Laurie, of Maxwelltown, not the town opposite Dunfries, but an estate some miles away; she married James Ferguson, of Craigdarrock in 1709.

DEAR STRE—Your 'Dr. Morse's Indian Root Pills' are the best regulator for the system that humanity can use. Life is as the time-piece: frail and delicate are many of its works. A tiny particle of foreign substance adheres to the smallest wheelin the works and what is theresalth!—at first, only a slight difference is perceptible in its time-keeping, but wait you at the obstruction grows, the irregularity becomes greater, until at last; what could have been rectified with little trouble, in the beginning, will now requirmuch ca e in thoroughly cleaning the entire works. So it is in human life—a slight derangement is new lecased, it grows and increases, imperceptibly at first, then rapidly, until what could, in the beginning fatal. To prevent this, I advise at the purify the system frequently, by the use of Morse's Pille, and so greserve v.gor and vitality.
