

What Will the Winter do to Your Roads?

IF your roads are marred and scarred from summer traffic, prompt patching with "Tarvia-KP" will heal the breaks and make them proof against the destructive winter frosts.

"Tarvia-KP" used now means time, labor and money saved in the Spring. It prepares your roads to withstand winter's hard usage and enables you to get an early start with your "Good Roads Program" of surfacing and new construction.

"Tarvia - KP" is known as the

road-maker's "Cure-All." It is wonderfully effective for every type of road—quick-acting, always ready; requires no heating and is extremely easy to handle.

Batches of the mix can be made up in spare moments and used whenever the roads are free from snow. Freezing does not injure it.

If you have a road problem, put it up to our Special Service Department. Illustrated

booklet showing each step in patching a road with "Tarvia-KP" free upon request to nearest office.
