

"Navoiazot" (Navoi Nitrogen) Association. This action was the result of a joint agreement between the financiers and ecologists of the Republic and stems from the fact that the plans for the new unit conflicted with expert opinion regarding the absence of damage to the environment. Similar arrangements have been concluded between environmentalists and Zhilsotsbank and Agroprombank. From now on, any ecologically harmful initiative will be able to be stopped, not only during the construction stage but also when it is being planned. The bank will have the right to levy punitive fines on both the customer and the contractor.
