

figures have been established in that Agreement, if at any time during the NATO Annual Review recommendations are put forward, the effect of which would be to increase the level of forces above the limits established in this Agreement, the acceptance by the country concerned of such recommended increases shall be subject to unanimous approval by the members of Western European Union, expressed either in the Council of Western European Union or in the North Atlantic Treaty Organization.

4. DECIDES that all forces of member nations stationed in the area of the Allied Command Europe shall be placed under the authority of the Supreme Allied Commander Europe or other appropriate NATO Command and under the direction of the NATO military authorities with the exception of those forces intended for the defence of overseas territories and other forces which the North Atlantic Treaty Organization has recognised or will recognise as suitable to remain under national command.

5. INVITES member nations to make an initial report for consideration and recognition by the Council on those forces which they plan to maintain within the area of Allied Command Europe for the common defence, but not to place under the authority of the North Atlantic Treaty Organization, taking into account the provisions of relevant NATO directives bearing on that subject; the initial report will include a broad statement of the reason for which the above forces are not so placed. Thereafter, if any changes are proposed, the North Atlantic Council action on the NATO Annual Review will constitute recognition as to the suitability and size of forces to be placed under the authority of the appropriate NATO Command and those to be retained under national command.

6. NOTES that the agreements concluded within the framework of the Organization of Western European Union on the internal defence and police forces which the members of that Organization will maintain on the mainland shall be notified to the North Atlantic Council.

(c) forces under the Supreme Allied Commander Europe and within the area of Allied Command Europe shall not be re-deployed or used operationally within that area without the consent of the

Supreme Allied Commander Europe, subject to political guidance furnished by the North Atlantic Council, when appropriate, through normal channels.

8. DECIDES THAT:

(a) integration of forces at Army Group and Tactical Air Force level shall be maintained;

(b) in view of the powerful combat support units and logistic support organization at Army level, integration at that level and associated Air Force level will be the rule, wherever formations of several nationalities are operating in the same area and on a common task, provided there are no overriding objections from the point of view of military effectiveness;

(c) wherever military efficiency permits, in light of the size, location and logistic support of forces, integration at lower levels, both in the land and air forces, shall be achieved to the maximum extent possible;

(d) proposals to the North Atlantic Council, indicating any increases in commonly financed items of expenditure, such as infrastructure which might be entailed by the adoption of such measures, should be submitted by the NATO military authorities.

9. AGREES that, in order to improve the capability of the Supreme Allied Commander Europe to discharge his responsibilities in the defence of Allied Command Europe, his responsibilities and powers for the logistic support of the forces placed under his authority shall be extended.

10. CONSIDERS that these increased responsibilities and powers should include authority:

(a) to establish, in consultation with the national authorities concerned, requirements for the provision of logistic resources*;

(b) to determine, in agreement with the national authorities concerned, their geographic distribution;

(c) to establish, in consultation with these authorities, logistic priorities for the raising, equipping and maintenance of units;

(d) to direct the utilisation, for meeting his requirements, of those portions of the logistic support systems made available to him by the appropriate authorities;

*By logistic resources should be understood all the matériel, supplies, installations and parts thereof necessary for the prolonged conduct of combat operations.
