

Order Paper Questions

3. Since 1976, by year, what was the percentage of employer-employee contributions and payments for public Service Superannuation Act benefits and their indexing that were financed by the Government as the employer?

Mr. Doug Lewis (Parliamentary Secretary to President of the Privy Council): I am informed by the Department of Insurance and the Treasury Board Secretariat as follows:

1. (a) Fifty-four per cent of pension plan members in the private sector are covered by non-contributory pension plans. There were 7,350 non-contributory private sector pension plans covering 1,378,258 members as at January 1, 1984. This is the latest date for which the information exists.

(b) No data available for plans in which employers finance more than 50 per cent of required employee and employer contributions.

2. Approximately 75 per cent of total annual contributions to private sector pension plans are made by employers.

Source of Information: Parts 1 & 2 Statistics Canada data bank used for publication Pension Plans in Canada.

3. The percentage of employer-employee contributions and payments for Public Service Superannuation Act benefits and their indexing that were financed by the Government as the employer.

Year	Per cent of total expenditures
1975-76	64.6
1976-77	61.7
1977-78	60.4
1978-79	61.9
1979-80	59.9
1980-81	61.6
1981-82	66.6
1982-83	61.7
1983-84	61.6
1984-85	62.3

SUPERANNUATION ACCOUNTS AND OTHER BENEFITS

Question No. 582—Mr. Gauthier:

1. As of March 31, 1985, what was the estimated balance of the (a) Canadian Forces Superannuation Account (CFSA) (b) Public Service Superannuation Account (PSSA) (c) Royal Canadian Mounted Police Superannuation Account (RCMPSA) (d) Supplementary Retirement Benefits Account (SRBA)?

2. As of March 31 (a) 1990 (b) 1995 (c) 2000 (d) 2010 (e) 2020, on the basis of existing actuarial assumptions, what is the estimated balance projected for the (i) CFSA (ii) PSSA (iii) RCMPSA (iv) (SRBA)?

3. What was the (a) total amount of the disability, survivor and retirement pensions that have been paid from the Canadian Forces Superannuation Account (CFSA), the Public Service Superannuation Account (PSSA) and the Royal Canadian Mounted Police Superannuation Account (RCMPSA) together with the amount of the special payments that have been made from the Consolidated Revenue Fund for the indexing of these payments (b) total amount of interest earned by the CFSA, the PSSA, the RCMPSA, and the SRB Account for each fiscal year since the SRBA has been in effect?

4. Did annual Royal Canadian Mounted Police Superannuation Account (RCMPSA) disability, survivor and retirement pension payments ever exceed annual RCMPSA interest earnings in the past and, if so, in which years did this occur?

5. Is it expected that annual RCMPSA disability, survivor and retirement pension payments will exceed annual RCMPSA interest earnings (a) in the past (i) 5 (ii) 10 (iii) 20 (iv) 30 (v) 40 (vi) 50 years (b) ever and, if so, what is the year in which it is projected that this will first occur?

6. Did annual RCMPSA disability, survivor and retirement pension payments plus the special payments from the Consolidated Revenue Fund (CRF) for the indexing of these RCMPSA payments ever exceed the combined annual interest earnings of the RCMPSA and the SRB Account with respect to RCMPSA participants in the past and, if so, in which years did this occur?

7. Is it expected that the annual RCMPSA disability, survivor and retirement pension payments plus the annual special payments from the Consolidated Revenue Fund (CRF) to fully index these RCMPSA payments will exceed the combined annual interest earnings of the RCMPSA and the SRB Account with respect to RCMPSA participants (a) in the next (i) 5 (ii) 10 (iii) 20 (iv) 30 (v) 40 (vi) 50 years (b) ever and, if so, what is the year in which it is projected that this will first occur?

8. Would the answers to parts 2 and 4 be different and, if so, how would they differ, if the RCMP's Act were amended to provide that RCMPSA disability, survivor and retirement pension payments made on and after January 1, 1986 be recalculated and determined on the basis of a RCMPSA contributor's best consecutive three-year average annual salary?

9. Did annual Canadian Forces Superannuation Account (CFSA) disability, survivor and retirement pension payments ever exceed annual CFSA interest earnings in the past and, if so, in which years did this occur?

10. Is it expected that annual CFSA disability, survivor and retirement pension payments will exceed annual CFSA interest earnings (a) in the next (i) 5 (ii) 10 (iii) 20 (iv) 30 (v) 40 (vi) 50 years (b) ever and, if so, what is the year in which it is projected that this will first occur?

11. Did annual CFSA disability, survivor and retirement pension payments plus the special payments from the Consolidated Revenue Fund (CRF) for the indexing of these CFSA payments ever exceed the combined annual interest earnings of the CFSA and the SRB Account with respect to CFSA participants in the past and, if so, in which years did this occur?

12. Is it expected that the annual CFSA disability, survivor and retirement pension payments plus the annual special payments from the Consolidated Revenue Fund (CRF) to fully index these CFSA payments will exceed the combined annual interest earnings of the CFSA and the SRB Account with respect to CFSA participants (a) in the next (i) 5 (ii) 10 (iii) 20 (iv) 30 (v) 40 (vi) 50 years (b) ever and, if so, what is the year in which it is projected that this will first occur?

13. Would the answers to parts 2 and 4 be different and, if so, how would they differ, if the CFS Act were amended to provide that CFSA disability, survivor and retirement pension payments made on and after January 1, 1986 be recalculated and determined on the basis of a CFSA contributor's best consecutive three-year average annual salary?

14. Did annual Public Service Superannuation Account (PSSA) disability, survivor and retirement pension payments ever exceed annual PSSA interest earnings in the past and, if so, in which years did this occur?

15. Is it expected that annual PSSA disability, survivor and retirement pension payments will exceed annual PSSA interest earnings (a) in the next (i) 5 (ii) 10 (iii) 20 (iv) 30 (v) 40 (vi) 50 years (b) ever and, if so, what is the year in which it is projected that this will first occur?

16. Did annual PSSA disability, survivor and retirement pension payments plus the special payments from the Consolidated Revenue Fund (CRF) for the indexing of these PSSA payments ever exceed the combined annual interest earnings of the PSSA and the SRB Account with respect to PSSA participants in the past and, if so, in which years did this occur?

17. Is it expected that the annual PSSA disability, survivor and retirement pension payments plus the annual special payments from the Consolidated Revenue Fund (CRF) to fully index these PSSA payments will exceed the combined annual interest earnings of the PSSA and the SRB Account with respect to PSSA participants (a) in the next (i) 5 (ii) 10 (iii) 20 (iv) 30 (v) 40 (vi) 50 years (b) ever and, if so, what is the year in which it is projected that this will first occur?

18. Would the answers to parts 2 and 4 be different and, if so, how would they differ, if the PSS Act were amended to provide that PSSA disability, survivor and retirement pension payments made on and after January 1, 1986 be recalculated and determined on the basis of a PSSA contributor's best consecutive three-year average annual salary?
