# The Collapse of the "Boot Scandal"

Liberal Campaign of falsehood  
a total failure

---

But it has robbed the Canadian  
Workingman of Millions  
of Dollars

"I have not the slightest doubt that statements which have been made in the press, even before this matter could be thoroughly investigated, have led to the detriment of business conditions in Canada and have deprived this country of contracts which it otherwise would have obtained, and in that way have taken the bread out of the mouths of Canadian workmen. That is a very poor kind of business for any man in Canada to be engaged in, whether he is a member of this House or not."

SIR ROBERT BORDEN.
