A Color Symphony

Once in a long time there is produced a picture which appeals both to the romantic sense and to the critical side of the trained mind.

One of these is "The Russian Wedding Feast," by Konstantine Makoffsky, now being shown in its proper setting on the Third Floor.

It is a gorgeous scene from the semi-barbaric Russia of the early 17th century and in color, execution and conception fully warrants the valuation of \$50,000.00 set upon it by competent judges.

Make a pilgrimage to this shrine of art before its all too short stay is over.
