CHICAGO, March 12 .- Altho wheat times today made a show of rength, the market ultimately fell nder bearish control. Crop damage poorts were denied, and there was a reports were denied, and there was a continued lack of export call. The ciose was steady, but 1-4c to 3-8c net lower. Corn suffered a setback of 1-8c to 3-8c and cats of 1-4c to 3-8c. Provisions varied from the same as last night to a loss of \$1.2c.

Estimates that the wheat yield in Kansas alone would run up to the extraordinary total of 150.000,000 bushels made damage advices seem rela-

els made damage advices seem rela-tively inconsequential even if true. The reports of harm were more specific than heretofore, but new instances appeared to be confined almost wholly to Marshall and Nemaha Counties in Kansas and to Randolph County in Il-Marshall and Nemana. Countries in Kansas and to Randolph Country in Illinois. As far as the winter crop as a whole the trade leaned decidedly to the opinion that nothing could now prove an important detriment except hot winds late in the season.

Cable bids for wheat were further out of line today than for some time. It was explained that Argentine cargoes were turning out to be of better quality, and that offerings from Russia were becoming more free.

Selling of Corn.

In corn a good deal of selling pressure developed near the end of the session. Early reports of big sales at Kansas City could not be verified, and there were assertions that eastern purchasing here must have been under special conditions. Receipts, tho, in Chicago dropped off, and Illinois country roads were said to be virtually im-

passable.
Oats sagged from the start. Seeding for the new crop was reported as about complete in Oklahoma and well under way in Kansas.
Realizing by holders wiped out a fair advance in provisions. The temperature hulge came about as a result of porary bulge came about as a result of higher prices for hogs.
