BUT SCHEME OPPOSED**

Trustee Houston Would Teach
Elementary Science, Algebra
and Geometry in Schools.

Trustee Houston made a vigorous
plea at the meeting of the board of
education last night in favor of the
teaching in the commercial classes of
the public schools of elementary
science, algebra and geometry.

The proposal was opposed by sev-
eral trustees as duplicating high
school work. It was sent to the man-
agement committee with a request by
Trustee Houston for a report upon it
from the board of inspectors.

A protest was received from the
Baldwin Exchange against the clause
in the tender forms which call for a
surety company bond, as this causes
a loss of 35 cents to every unsuc-
cessful tender.

The fuel contracts were awarded at
\$5.85 to \$6.60 per ton for soft coal and
\$5.50 to \$6 for hard.

General Assembly Received
Reports From Foreign Mis-
sion Fields.

Special to The Toronto World.

KINGSTON, Ont., June 4.—That
the work of the Sunday school was
one of the most important branches
of the education of the youth was
for paying more attention to it, was
the outstanding topic before the Pres-
byterian assembly this afternoon, when
the truth of the statement was shown
in the report of the Sabbath schools
presented by Rev. J. C. Robertson.
Other reports read and adopted were
those of the Young Peoples' Society,
and publications committee.

Rev. H. X. Leitch (Kindersley,
Sask.), who seconded the adoption of
the Sunday School report, said that
everywhere, even in the States, should
be gathered into the Sunday school. Rev.
Dr. McLeod, Barris, said young people
were not serving God when they
were in the public schools, and that
the public schools would there be a
proper religious training of the chil-
dren.

"Teachers are born and not made,"
remarked John Fleming, Winnipeg,
who added that too much stress was
placed on the mechanical. The pri-
mary reason was to protect Christ-
ianity. There was much training that
should be given in the home and not in
the Sunday school.

James Weir, Toronto, said many of
the teachers did not know their les-
sons themselves, and that this was the
cause of the trouble. "I am speaking
from 30 years' experience, experience
in the Sunday school," he added.

Judge Farrell had an amendment to
keep to the Bible numbers of the
psalms and this was opposed by
Principal Springer.

If the general session of the com-
mittee to have the hymns' numbers
to follow those of the psalms so that
there would not be two sets. All sug-
gestions made will be sent on to the
committee for further consideration.

Foreign Mission Reports.

The report of the committee of the assembly
was given over to the hearing of ad-
dresses on foreign missionary work.
At the morning session the assembly
passed a resolution on the war and
called upon every member of the
church to take his part in the con-
flict.

The committee on foreign missions
reported that the expenditures for the
year reached \$245,970, of which \$222,
\$75 was contributed and the balance
drawn from the reserve fund.

The reports from the foreign fields
were regarded as encouraging.

Evangelizing Korea.

Reports from Korea show 24 mis-
sionaries, 19 wives, five ordained
ministers, 150 unordained native
workers, eight medical assistants and
70 teachers in the field. There were
47 churches, 14,652 treatments, 193
pupils, 193 high school pupils, 15
students in theological college and two
hospitals giving 14,652 treatments.
Native contributions totaled \$408.
Canadian funds expended totaled \$38,
566.

Encouraged by Government.

North Formosa reports that the
mission has received the heartiest
sympathy and co-operation of the
Chinese Government. A number of the
congregations are becoming self-sus-
taining, two notable examples during
the year were the congregations at
Sankkang and Tialih. A church was
opened at Bawoo, the newest out-sta-
tion, which cost \$500 yen, the whole
amount of which was paid by the
natives themselves. The total native
contributions to assist in the work of
the church were 13,112 yen. Some ad-
ditional missionaries are needed.

It is reported from Shanghai that
the anti-opium committee has suc-
ceeded in inducing the authorities to
close the whole traffic in Shanghai
within two years. "This means,"
states the report, "that no more opium
will be consumed in Shanghai."
A new Bible dictionary is being
prepared, the translation of which
is nearly completed. The report
states that the European war has
compelled the Christian Literature
Society to curtail much of its work.

Afraid of Robbers.

South China reports a shortage of
workers, and states that the evange-
listic work is being hampered by the
very much hampered by the unsettled
state of the country. In many towns
and villages where chapels are sit-
uated, the people are in constant fear
of attacks by armed robbers, making
it impossible to hold evening meetings
for preaching or the study of the
Scriptures. The total number of mem-
bers received by baptism during the
year was 107.

The report from Central India urges
that more missionaries be sent there.
There are now 13 organized congrega-
tions, three of which have Indian
pastors, no part of whose support is
from the mission funds. The medical
report shows attention having been
given to 1400 in-patients, 62,000 out-
patients, and 194,000 treatments. It is

ROME, June 4.—I had today an inter-
view with Count Euduardo Soderini, one
of the leaders of the Catholic party in
the Italian Parliament. He declared
that the relations of the Italian Govern-
ment and the Vatican were satisfactory.
The diplomatic representatives of
Germany and Austria to the Vatican
have left Rome the Italian Government

Pope will thus be able to keep himself
informed as to the state of public opin-

to exercise an influence when the right
moment arrives. The fact that the
Austrian and Bavarian ministers have
established themselves in Lugano is, in
the opinion of Soderini, only a fresh
proof of the tactlessness which is char-

FOR LITTLE ONES.**

Thousands of mothers say Baby's
Own Tablets are the only medicine
they would give their little ones. Knows
them is Mrs. Howard Hodgkins,

a user of Baby's Own Tablets and
think them the best medicine in the
world for little ones." Once a mother

other medicine because she feels the
Tablets are absolutely safe and knows
the benefits of little ones. They are sold
by medicine dealers or by mail at 25
