### Wheat Sells Slightly Higher Despite Good Weather Reports

#### Chicago Market Apparently Anticipated Favorable Crop Advice— Sharp Advance at Opening Fairly Later.

CHICAGO, Aug. 10.—Quick grabbing at the part of wheat owners off set together to-day the bullish effect of the government crop report, and overcame in addition the results of a liberal demand for cargoes to go to Europe, and the close was steady, a shade lower to 1/2c higher than last night. Corn went up with 1/2c to 3/4c advance. Wheat of the government crop report, and provisions down 1/2c to 1/4c.

Altho there was considerable of a buying flurry in wheat at the start traders in general had been prepared before and thru reports of private experts who have been keeping sharp watch from day to day, on the fact that the official figures, it was also pointed out that notwithstanding the fact that the figures for the month, the government figures still promised a big crop—a total yield of wheat, which was the first time in the history of the country. Then, too, dread of frost in the Canadian Northwest was followed by rising temperatures and a general clearing of the skies.

But the advance would perhaps have been more decided, but for the Russian crop advice being advanced, and the general tightening of offers from all wheat exporting countries. As many as 72 boats were reported sold on the day to cross the Atlantic. During the session September varied from 10 1/2c to 11c, and closed at 10 3/4c.

There was heavy selling of corn by packers, who asserted that the government figures as to the yield of that cereal in the leading states would not bear analysis. In consequence, values showed little gain at the last, notwithstanding the sensational exhibit from Washington, September, which showed a 1/2c advance, with the close firm at 10 1/2c, a net advance of 1/2c. Cash grades were steady.

In the oats crowd the government report disappointed the bulls, as the total crop exceeded by 15,000,000 bushels the most optimistic previous forecast.

Provisions developed weakness because of a leading packer calling attention to the fact that pork loins were heavy, and when the public went to the market to meat. At the end of the day pork had dropped 1/2c to 10c; lard 1/2c to 10c; and ribs 1/2c to 10c.

**European Grain Markets.**  
The Liverpool market closed to-day 1/2c higher on wheat and 1/4c on corn. Berlin wheat was 1/2c higher and Bucharest 1/2c higher. Antwerp closed 1/2c higher.
