ITALIANS IN ATTACK ON TWO STATIONS

Villach, in Carinthia, and Lienz, in Tyrol, are Bombed.

ROME, SEPT. 8.—The war office communication issued today follows:

There has been effective activity on the part of our artillery in the Carnic Alps and along the Piave River, and frequent artillery duels in Valcaro and on the Asiago Plateau. We have dropped two tons of bombs on hangars and machines in the aviation camp near Belluno. Our aviators also have dropped bombs with great accuracy on the Villach, Carinthia, and Lienz (Tyrol) railway stations. The official communication from headquarters yesterday says: "South of Asiago, French troops after a short and violent artillery fire yesterday morning raided enemy positions on Slesamol, inflicting very heavy losses on the garrison and de-

stroying the defense works. They returned with 47 prisoners.

"In the Soncel and Antico valleys, enemy patrols were driven back by our outposts. In Frenzela Valley our reconnoitering parties captured arms and material. In the Grappa region the enemy's assault detachments attempted three times to attack our lines on Solarola. They were repulsed and punished by our artillery fire. "In Albania on Sept. 5-6, Italian naval machines and British airplanes carried out several bombardments, inflicting losses and damage on the enemy."

Airman at Queenston, However, Suffered No Injury, to Himself or Machine.

Niagara, Camp, Sept. 8.—One officer and 100 other ranks taken from the three infantry battalions here left camp for the east this evening, going by boat to Toronto. An airman who was with a small squadron of airplanes which passed over camp here this morning while the 9-30 religious service was on had trouble with his engine when over Queenston and made a sudden descent. A lady observed the accident and telephoned in the camp for a doctor to go to the scene. Two camp doctors were at once despatched with the ambulance, but the aeronaut and his machine had both escaped injury.

PROMOTER FACES LARCENY CHARGES

Boston Police Find Alleged Tractor Factory Empty Stable.

Boston, Sept. 8.—John B. Kobs, treasurer of the Jeweler Tractor and Trunk Company, claiming to manufacture "the farm tractor of the hour," was arrested last night on an indictment warrant charging eleven counts of larceny and fraudulent advertising. At the address of the company's "factory," the police said they found an empty stable, with a negro engaged in whitewashing the interior. They declared that the widely advertised "equipment" of the concern consisted of four automobile wheels, the frame of a truck and the skeleton of a motor, while the company's motor expert was found to be a waiter in a restaurant, and the mechanical expert a shipping clerk. In the few months that the tractor company has maintained offices in a

large down-town office building, it has engaged representatives, the police said, in England, Porto Rico, South Africa, Egypt, Brazil, Tripoli, Mexico and Canada, besides establishing agencies in various sections of this country. The company was capitalized at \$1,000,000 according to the police, with nothing paid in, and 5000 shares had been sold at from \$2 to \$5 a share. Nothing was known of Kobs' career by the police except that he had told them he was a machinist for four years.

Galt, Sept. 8.—While the mother was transferring clothes from a boiler to a tub on the floor, Leslie Alexander McIntosh, a year and seven-months-old son of Pte. John McIntosh, over-seas, threw a potato he was playing with into the tub, and in trying to recover it had his arm badly scalded. Death followed from the shock.

One enemy balloon was destroyed. Five of our machines are missing. "Observation for the artillery was continued both by airplanes and balloons. Some valuable reconnaissances were carried out by our machines and large numbers of photographs were taken, while our balloons reported much useful tactical information. "During the day and the following night 32 tons of bombs were dropped by our airmen, the railway connections at Armentieres, Lille, Douai, Denain, Cambrai and St. Quentin being heavily attacked. All our night flying machines have returned."
