Industrial Home Must Be Enlarged -Yonge Street Farms Sold-County News Notes.

Yesterday's meeting of the York 'ounty Council was unmarked by any pectacular feature and the members lodded along pretty much in routine nes, advancing general business a

stage.

The report of Dr. R. W. Bruce Smith idealing with the conditions at the House of Refuge at Newmarket was a comprehensive one, and while in the main complimentary, dealt with a free hand with the matter in general. Over-crowding was the principal ground of attack on the part of Dr. Bruce Smith and summing up he said in short: It is a shame that an old and wealthy municipality like York County should have such a condition of overcrowding." The attendants were reported as being satisfactory and the sanitary and other conditions, as regards food and cleanliness, very fair.

other conditions, as regards food and cleanliness, very fair.

Radical changes are suggested along the line of fire escapes, and this matter the council, thru the commissioners, will doubtless remedy this year.

A number of interesting notes were appended to the inspector's report, the following among the rest:

The amount of land owned by the county is 70 acres, of which 66 is under cultivation. The assessed value is \$6700. The financial receipts for the vear from all sources was \$9117.69, of which the county contributed \$7105, other sources \$1731.80, and from the sale of farm products, \$291.71. The net cost to the county for the Industrial Home was \$7105. There are 60 males and 21 females in the institution, a total of \$4, with all but 3 on the free list. The superintendent gets \$400, the matron \$300, the cook \$15 a month and three maids \$15 a month each. The local inspector gets \$125 a year and Dr. Wesley \$200, while the net cost to the county per week per patient is placed at \$1.61.

Gibson of North Toronto, and two or three of those favorable to the passage of the Artesian Water Co.'s, Ltd., project were around the council chamber yesterday, and, incidentally, supported the passage of the measure. That a number of the members of the county council will support the project seems assured, but they are mostly from the villages and towns and largely in the minority. That the representatives from the rural municipalities will ever permit a company to tap the llving springs at Whitchurch, diverting them out of their course, is unthinkable. TYTHEN you stop to think-why should Furniture be cheap this February? Timber, especially the fine furniture woods, is getting scarcer all the time. The conservators of our Natural Resources will have to take due note of the vanishing oaks and walnuts. And the demand of the newly opened-up parts of Canada—New Ontario and the Northwest—taxes the resources of the factories to supply. Labor is no cheaper than it has been. Why should Furniture be selling below standard prices?

The answer may not be logical, but it carries weight nevertheless. The reason is because we want to sell it below standard prices. February is the month we concentrate upon Furniture. It is the time we advertise our Furniture department in a very-practical way. It is the time we choose for making inroads into our stock so as to keep it from "settling down." We want life, move-ment, change, variety, in every part of our stock. Febru-ary we devote our chief attention to furniture, and the February Furniture Sale is the result.
