

THE FUTURE OF AUSTRALIA.

The U. S. Consul-General at Melbourne Thinks Confederation Will Come in the Near Future. Washington, D. C., April 19.—A report upon the political future of Australia has just been sent to the State Department by Consul-General Maratta, stationed at Melbourne, in which he says that the colonies are on the eve of federation. A resolution to be held at once to elect delegates to the convention to bring about the union of the colonies. It is proposed to have a Governor-General of the continent, to be appointed by the queen, with Lieutenant-Governors for the different colonies, to be chosen by the people of the states.

A BOY'S CONFESSION.

He Put Paris Green in Tea to be Partaken of by His Stepmother, Who Gave Him Five. Exeter, N. H., April 19.—Frank Wentworth, a 15-year-old boy who was arrested Saturday and lodged in Exeter jail on the charge of having attempted to poison his father and step-mother, Mr. and Mrs. George H. Wentworth of Newton, N. H., has made a confession, stating that he put Paris green in the tea while getting breakfast. He gives as his excuse for poisoning his mother on account of her continually "acting him fits," but says that he had no ill-feeling toward his father.

Next Bicycles Will be Prohibited.

Editor World: It is evident to an onlooker that we have in our midst a section of the population who are aiming at the introduction of a revival of the blue laws of Connecticut. Mayor Howland was a good man, but he erred greatly in building up a reputation for himself as a moral reformer. He inaugurated the system of espionage of which Mr. Archibald is the type, and now to get on in life one has to be in the morality crowd. The latest phase of all this is the attempt to do away with the bicycle. The bicycle is a moral evil, and it is the duty of the city fathers to do away with it. Why should they dictate to us that while religious and all other people are to be free to use their automobiles, we are to be prohibited from using our bicycles? The bicycle is a moral evil, and it is the duty of the city fathers to do away with it. Why should they dictate to us that while religious and all other people are to be free to use their automobiles, we are to be prohibited from using our bicycles?

Doherty of London, Ont., acknowledged the receipt of \$8.97 contributions towards the deficit from legions and individual members throughout the province.

Canning's Big Hunt.

Pateron, N. J., April 19.—Elisha Canning was arrested last night for drinking rum in church. He walked down the main aisle of Cross-st, Methodist Church during the Easter services, faced the assembled congregation, and producing a bottle from his pocket, drank his health. The sermon of the pastor, Mr. Wizer, came to a sudden stop. The deacons protested, and several stilled festive scenes were heard. Someone summoned a policeman named O'Brien, who arrested Canning.

A Holiday That Is Not Observed.

Editor World: I trust the Board of Trade and Parliament will favor the abolition of Easter Monday as a public holiday. It is neither observed nor respected, and, as a consequence, causes a lot of confusion.

BLOWN OFF A TRAIN.

J. Stanley McLean of Fort Hope Must Have Been Born Under a Lucky Star—Only a Few Scratches. It is better to be born lucky than rich. At least so thinks J. Stanley McLean, 37, of Fort Hope, who fell off the Grand Trunk mixed, which arrives in this city from Belleville at 4 p.m., while it was speeding at the rate of 30 miles an hour, and escaped with a scratched eye and nose and a bruised right arm. Mr. McLean is a young graduate of Varsity and a mathematical specialist, who is completing a teachers' course at the School of Pedagogy. He spent his Easter vacation with his father, Lieut-Col. McLean of Fort Hope, and was returning to the city on No. 13, Conductor J. Devatt, yesterday afternoon. He gave up his seat at 10:30 p.m. and was sitting in the aisle when the train was struck by another train. He had no sooner reached the tremendous wind blow him off the train, which was moving at a rapid speed. The train was stopped and he was picked up by the conductor and taken to the hospital. He is now recovering from his injuries and is expected to be home in a few days.

Canadian Horse Show.

This event has taken a prominent place in the list of Canadian enterprises, and is looked forward to with special interest by all admirers of this noble animal. Attracting, as it does, victors from all over the continent, it is only natural that gentlemen wish to wear garments in keeping with the circumstances. For this reason, the high-class young men was a little dazed and did not know where he was or what he had to do. His spectacles, which were all that he possessed, were soon dashed, and Mr. McLean's right arm, which was resting on his shoulder and arm, will be none the worse for his fall.
