The first vein should be reached with-looked for when the veins are inter-sected at the 425 foot level. The Ophir and People's properties mey be considered amongst the best of partly explored mines in the camp. The known veins are proven to be well defined, continuous, strong and well mineralized with base metals that al-denth, close to the diabase sill. The main vein which has been traced part-ly across both properties is over 15 inches wide in places, well mineralized with cobalt and niccolite. This vein should be reached at the 425 foot level. de the property is being rushed with a full force of men in three eight-hour shifts. The Lake Superior Corporation Sub-sidiaries gave a very much better ac-count of themselves during the year ending June 30 last than in the previ-ous 12 months. Their aggregate not earnings were \$3,503,471, as compared with \$1,366,210 in the previous fiscal year. The larger income, however, did not go to the parent company, but remains in the hands of subsidiaries in the form of enlarged reserve and balances. The parent corporation's in-come consisted of interest on bonds of subsidiaries amounting to \$290,000 and other income of \$45,795, making a total of \$355,759, as against one of \$369,032 in the previous year. The disbursements out of income were somewhat less, being \$310,305, leaving a net of \$25,454. This added to the balance from last year leaves a sum of \$50,526, of which \$40,000 was ap-plied to reserve for depreciation of se-curities and the balance carried for-ward. Standard Bank Building Heron & Co report: MONTREAL, Aug. 24—The local market was heavy all round today, selling coming from tired holders who are disappointed in the action of this market. The fear of a big American railway strike is also responsible for some selling. Today's reaction should do the market good, and if the strike is averted prices should go higher. Brazil was an exception to the general weakness today, and offerings of this stock were well taken. CEMENT DIVIDEND RUMOR. sold 9 car-MONTREAL, Aug. 24.—Directors of the Canada Cement Company will meet here early next week, and it is understood that the much-debated dividend on the common shares will come up for discus-sion.
