These babies of Antwerp were lost by their mothers in the wild flight from Antwerp into Holland when the Germans bombarded that city. Arriving at the Dutch border, the Holland soldiers took the little ones in charge and cared for them until homes were found for the little ones.

The sight presented on Thursday when the steamer Tremorville bound for Antwerp left Halifax with an enormous cargo of relief supplies, sailed from the people there. \$100 Reward, \$100
The readers of this paper will be pleased to learn that there is at least one dreaded disease that has been able to cure in all stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical profession. It is a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thus destroying the foundation of the disease, and giving the patient strength by building up the system. It is a cure in nature in doing its work. The proprietors have much to say in its curative powers that they will send free to any sufferer who will send them One Hundred Dollars for any case that it fails to cure. Send for particulars. REASON FOR A GROUCH

Man Builts Outdoor Living Cabin Only to Find He Had Regained Health and Does Not Need It
A middle-aged resident of Fairmount tells a story which, he declares, shows how one's labor is so often lost and good intentions go astray. Incidentally the narrator is now a traveling salesman who weighs nearly 200 pounds and is as strong as a rail mauler. This is his tale.

REASON FOR A GROUCH

While doing service for Uncle Sam as a soldier in the Philippines about fifteen years ago I contracted tuberculosis, which grew worse so rapidly that I was discharged with the warning to go immediately home to Fairmount to die. The army surgeon was kind enough to tell me that if I should take good care of myself I might live several months and at least would linger long enough to settle up my earthly affairs. So, discouraged and disheartened, I sailed on the first ship for home. I first suspected that perhaps I was not entirely "in" when I had to defend myself on a shipboard from a drunk sailor armed with an iron bar. I took his weapon away from him and beat him—which was not bad for a consumptive.

"Arriving in Indiana I consulted a physician in my home town, a man whom I had known from boyhood. He told me that the army physician had told the truth, and as he fondly embraced me, bidding me a fond farewell, tears stood in his honest old gray eyes. Instead of being deeply affected in an emotional way, however, the sight of him emotion made me angry, and I went to Indianapolis to consult a specialist. It didn't do me any good. I found out that the Indiana physician said I might live the outside only a few months, and that if I should absolutely live out in the open I would prolong my life a while. He said the end would not come immediately.

"So, downcast, I went home to Fairmount. I was penniless and had no money with which to take the outdoor treatment, but through the influence of friends in Washington I obtained a pension of \$12 a month. The first \$12 I invested in logs and began the construction of a one-room log cabin on the rear of my father's lot. I intended to make it a model outdoor living cabin. Well, I bought an ax and waded into those logs, swinging the ax and hammer and guiding the saw from daylight in dark every day. Now here is where the hard luck comes in. Do you know after I had spent four months building that one-room cabin in order that I might prolong my life, I found out that I was well and didn't need it?"—Indianapolis News.

BODY OF MISSING NEW GLASGOW MAN FOUND

The body of John R. Douglas was found on Thursday in the river at New Glasgow. He disappeared from his home on Oct. 17. He leaves his wife and one daughter. An inquest was held and adjourned until a brother arrives from St. Andrews, N. B. The evidence indicated that Mr. Douglas had accidentally fallen over the wharf. He is a foreman in the Maritime Bridge Works yard.

A CONSERVATIVE OPINION

(Chatham World, Conservative). Everybody is asking, and has been asking for many weeks, "What about the report of the Royal Commission on the Dugal charges?" The report was handed to the lieutenant-governor some days ago. Acting Premier Clarke stated on Tuesday that it had not been presented to the government. Why the delay? If the commission whitewashes Mr. Fleming, he ought to have the benefit of it at once. If it reports that the so-called campaign fund was collected by his authority or consent, and handed over to a treasurer of his selection, then he should be dismissed at once.

THE WHEAT MARKET

Chicago, Oct. 31.—European readiness in accepting offers at higher prices had a strengthening effect today on the wheat market here. Attention continued to centre on the uncertainties brought about by Turkey in the war situation. Traders were made cautious, however, by the outlook for a big increase of the domestic visible supply total on Monday. After opening 1-4 to 3-4 up, the market reacted a little and then advanced slightly higher than before.

CANADA IN THE WAR

A new pension act is to be introduced by the government next session to provide for pensions to Canadians in the present war. It is reported that the scale will be that of half pay.
