A NEW MOVE TODAY IN THE MAULEY CASE

Detective Goes to Truro to Bring "The Mulatto" Here on Suspicion.

Detective Biddiscombe will leave this evening for Truro to bring back to the city John Paris, a mulatto, suspected in connection with the murder of little Sadie McAuley. Paris was arrested a short time ago at the instance of the Truro police and taken to Truro. It will be remembered that a short time ago Walter Humphrey, residing in the West End, said that on the day of the murder he rowed a mulatto across the river below the falls at eleven o'clock in the morning and that at six in the evening the mulatto returned much excited and said he had murdered a girl and wanted help in burying the body. Humphrey later claimed that while passing along a dark section of the West End he was attacked about 9.30 in the evening and had to flee for his life. He said that his assailant was a negro and that he attacked him with a razor or like sharp instrument inflicting several gashes in his face and completely severing his necktie. It was said at the time which firm he is a member, received \$379, making a grand total of \$881.83 for the combination.

BUY FOR PRESENT IN OPEN MARKET

Government Accepts No Tender for Bread for Provincial Hospital—Other N. B. Matters.

On account of the falling flour market, the provincial government, at its meeting yesterday, declined to accept any of the tenders received for bread supply for the provincial hospital, Lancaster, and will buy in the open market for the present at least. The tender for coal supply was awarded to J. S. Gibbon. Yesterday the government approved a co-operative scheme for the marketing of poultry, much along the same lines as the dairy scheme now in force. The new idea includes the extension of credits to the extent of about \$10,000, with the establishment of a killing station at Moncton. The railway city was chosen on account of its being in the centre of the area of distribution. Premier Foster and his secretary, E. S. Carter, returned to the city last evening. The premier said that no action had as yet been taken regarding the proposal that the provincial government should stop construction of the new Canadian Pacific Railway bridge across the reversing falls. Nothing will likely be done, he said, until there is a report from the attorney-general on the province's jurisdiction in the matter.

CITY WORKS

The city public works department today issued a call for tenders for the laying of a two-inch asphalt concrete surface, extending twelve and one-half feet on either side of the street car line in the Marsh road. The tenders will close on September 22. Commissioner Prink said this morning that the telephone company had decided not to extend its conduits in this section this fall, but at any rate they could be laid along the side of the road without disturbing the proposed pavement. Two concrete mixers with complete crews will be put to work next week in Prince Edward street in an effort to rush along the foundation work for the pavement on the southern side of the street. It is expected that the excavation for the new retaining wall in Burpee avenue will be commenced on Tuesday. The street department today started on the asphalt surfacing of Germain street between Queen and St. James street.
