In every city of Canada, the cries of the oppressed are heard. The robed producers are in dire slavery. The masters ride at ease. They know that Borden and Laurier and Whitsey and Sifton and Murray and Gouis and Fleming, and the other premiers are on their side. They know they have but to speak and their political puppets will pass the laws wanted. They know they have but to speak and their political puppets will pass the laws wanted. They know they have the courts and the police and the soldiery to protect them and to keep the slaves in subjection. Wherefore wave the old flag to the integer. Give us patriotic speeches. Praise the politician, the judge, the soldier. Tell them what a glorious career is theirs. Fools, you, our rulers! Do you think that the slaves are not thinking! In every -ity of Canada the slaves think. Your imperial army, your courts of injustice, your stolen wealth cannot prevail against the awakened millions of slaves throughout the British dominions.

Jack Place, M.P.P.. has been arrested for rioting, and a charge of theft has been placed against him, because the resolver taken from a bull was found in his room. Jack Place, on trial in the courts of Vancouver for taking his stand with his allow miners is a nobler figure than R. L. Borden, seated in power at Ottawa and hoarsely shouting for more battleships so the plunderbund at London may blow to smithereens such sections of the human race as dare protest against their world thievery.

What the Strikers Did

A comrade of Cumberland County, N.S., writes us as follows regarding the Springhill, N.S., strike of miners a couple of years ago.

"Things are getting worse at Springhill Mines. Canadians, (as Britons that never, never will be slaves) are being driven out and foreigners are brought in to fill their places. Canadian miners are asked to teach the foreigners how to mine and then the Canadians are told to take their happy home on their back and move on. The result is recant houses and a dilapidated town.

The next strike at Springhill will show something doing. The masters will find the foreigners will stick together better than the Canadians did, and are not quite so docile. Solowers is all his resident in the consideration of the strike together better than the Canadians did, and are not quite so docile. Helen Keller, in a letter to me, says: "I too feel the turmoil, injustice and unrest of modern life, and I am all the more determined to carry into the world the message of true light which has come to me in the dark. We are all deaf and blind until our eyes are opened to our fellowinen, until our ears hear the woice of others crying for help. What we need is clear, understanding light, a bright normal day-light upon common human happenings and the conditions of our daily life. . . . It encourages me to know that out of my darkness there may arise a light unto those who are blind in their perceptions."

What an inspiration to have the understanding of a noble spirit with the problems of Labor! What a pity that so many who have eyes, will not see, and having ears will mot hear!

When I am asked what I think of the efficacy of prayer, I think of the chaplans of the opposing armies praying for victory. Then I am re-minded of the cat who asked Provi-dence for her food supply, while poor mousie prayed for escape from the dreadful cat.

"Whenever the weak and weary are ridden down by the strong, Whenever the voice of Honor is drowned by the howling throng, Whenever the right pleads clearly while the Lords of life are dumb, The times of forbearance are over and the time to strike has come." (Geo. D. Herron)

Socialist Notes from Toronto

We are going ahead in this city for sure. We are getting better crowds than ever. A new local has been formed in ward one, and at the time of writing we are arranging for a local in ward seven. Already about a dozen men have given their names for the new ward seven local, and with this in operation, we shall have no fear but that we shall make a great showing at the next election. The free speech fight has given us a lot of symp ort!

Our organ. It is under a ban for a while, and it is amusing to see the detectives and police watching him around. Still we shall wim all along the line, and we hope that every live Socialist will rally round the rebels and increase the membership in startling proportions.

Comrade Armstrong has been very active. He kept a large crowd interested for over an hour at the corner of Keele and Dundas streets last Sunday, Aug. 31. The police did not interfere. Comrades Turabull and Edgar also helped. They are new men, who are showing good possibilities.

Our Jewish and Finnish locals are reporting good progress. We cannot do much without the help of these comrades and are glad to see them growing. We leave their task to them, and know that they will keep up their end well. We wish that the English speaking locals would do likewise.

A committee has been appointed to draw up a plan of action for the mext municipal campaign. We hope to have a full straight slate on January the first. We have the men, we have the grit; we want the electors to know that, and we shall stop the continual discrimination against us.

As Sir James Whitney says, "When the people want a thing they can have it." We are educating the people to their interests and, if it is a hard job, the results are at present, very gratifying.—M. Wayman.

B. C. Executive Meeting

Dear Comrade :- Herewith is the report of British Columbia Executive eting held Aug. 17. Please insert in Cotton's. Yours fraternally, the

we cannot expect to do effective pro-paganda work. Please notify the ex-ecutive when you have done your share of the arrangements. Our Glorious Army Soldiers at Work

Local 30 S.D.P. of C., South Wellington, B.C., wish to tell all the readers of Cotton's Weekly and let them know what brave soldiers there are at South Wellington. On the morning of August 30th two elimy things that some people call special police wanted to make arrests of three men, and they had to have 14 of Sam Hughes' tin soldiers to protect them, and a small boy of eleven years, the son of a farmer, to show them where the men lived, and they chose the ungodly hour of 4.30 a.m. to pull off the brave stunt. Of course some of the comrades got among these brave things at every opportunity, and the result is that when some of them get home they will always wear clothes they have themselves bought instead of the glorious uniform of a human butcher.

We wish to tell all comrades that McBride, Bowser et al are doing more for the making of Socialists than the Socialists ever knew how. There is a saying that if you give a call rope enough it will hang itself. They have had all the rope they wanted and the boys will be in at the pulling of it in ext elections, and they will pull as they never pulled before. Comrades, let us see how quick we can run the red flag to the top of the mast.

CHASE THE GLOOMS

This is the gloom corner.

The glooms have been in possession for the past five weeks. During these time there has been a steady tall a circulation.

For three weeks in succession the new subscriptions were under the 400 mark.

How the glooms did riot in the office here. They played hide and seek all over the books, glooming joyfully over the small income and large outgo at Cotton's.

They are still in possession.

We want to chase them over into the plute camp. We want to see them skurrying around Mackenzie and Man kand Bowser and McBride. We want to see the glooms perching on the dome of Sir James Whitney and playing hide and seek in the hair of every old party politician.

Every sub you land, comrades, chases a gloom away. Every expiry that does not renew brings a gloom.

Why not start chasing the glooms away from your paper for good? Send in your subs and let the joys have a chance. The joys are just aching to come over to Socialism. They are tired of being caged by the fat plutes.

We want every READER of this

are tired of being caged by the fat plutes.

We want every READER of this to feel a personal interest in the paper and persuade those he knows to subscribe. This paper is published to help YOU and when you help spreadit you help yourself.

Ben. Wilson at Niagara

Ben Wilson, Socialist representative of the Kansas legialature, addressed two large and appreciative audiences in Niagara Falls, Ont., Aug. 20 and 27.

in Niagara Falls, Ont., Aug. 20 and 27.

Our local had decided for the present with the need of our support to Cotton's, etc., that we were unable to undertake the expense of a meeting, when we were notified by Comrade Martin to prepare for a Wilson lecture on Aug. 20. So we got busy with only about four days to advertise. Wilson was at his best, and over 400 listened very attentively while he showed up the capitalist system and its utter inability to right the wrongs of society, and presented Socialism as inevitable and the only remedy.

So intense was the interest that an unanimous request was made for another lecture, and arrangement.

So intense was the interest that an unanimous request was made for lanother lecture, and arrangements were at once made for another date on his return from the north on Aug. 27.

The second lecture was equally successful, though Comrade Wilson was literally worn out from his lecture tour. A large quantity of literature was sold, and several subs to Cotton's taken. It has been by far the greatest impetus the movement here greatest impetus the movement here has received since our organization a

has received since our organization a year ago.

As a result several new members have joined the local, and the old ones fired with new zeal for the cause and it also revealed the fact that this city is full of Socialists.

Comrade Wilson has surely won the confidence of all who heard him, and has paved the way for a great work for Socialism in Niagara Falls.

There was only one interruption during the first lecture. A frunken man, evidently a stand-pat Liberal or Conservative, began to interrupt the speaker, when the police officer told him if he didn' shut up he would run him in.

Let me give just one suggestion to other locals for boosting Cotton's. Some time ago our local voted \$3.00 for sub cards. These were sold, and another dozen ordered, and we have turned the money over several times already. Depend on Local Niagara Falls No. 60 to do our share in making Cotton's a success. Yours for Socialism, Fred E. Neff, See'y.

The Cobalt mines have in a few years of their operation paid over to their shareholders and owners over \$50,000,000. With pick and shovel and drill and dynamite the miners of Cobalt have braved death hourly in order to pile up this wealth for their masters. Many of them have been brought to the surface shattered and broken, some maimed for life, some stark and dead. still the work went on night and day, Sunday and Monday, that the parasite class in a far away town or city might rest and loll in idleness and luxury.
