ROENTGEN'S RAYS.

Astonishing Developments Made
by Professors of Surgical
Science.

Second Instance of Locating and
Extracting a Bullet From
the Hand.

Philadelphia, Feb. 14.—A novel and
wonderful experiment with the Roentgen
rays have been made by Arthur W.
Godspeed, professor of physics in the
University of Pennsylvania, Henry W.
Cattell, demonstrator of anatomy in the
same institution, and W. F. Magie, pro-
fessor of physics in Princeton College.

Chicago, Feb. 14.—Louis Burkart, a
young Frenchman is grateful for the
discovery of the cathode rays. Burkart,
who came to America two years ago,
carried in the tissues of his hand a ball
which he had received in a street fight
in the Mercy Hospital last night was
not the first time that Burkart had
subjected himself to surgeons,
but each attempt to locate the bullet
had been unsuccessful. A photograph
of the hand, however, taken yesterday
by means of the cathode rays, located
the leaden ball with wonderful accu-
racy, and with a print as a guide a sur-
geon made an incision in the palm of
the hand, and after a few minutes'
probing, extracted the little missile from
its two years' resting place. This is the
second instance within two days in
which the Roentgen discovery has been
put to practical service.

A TALE OF SUFFERING.

Awful Experience of a Party of Florida
Fishermen.

Carrabel, Fla., Feb. 14.—A boat con-
taining five corpses and six men barely
alive drifted ashore on Dog Island to-
day. When discovered by two fisher-
men the survivors were lying uncon-
scious on the decomposing corpses of
their companions. Gilbert Holmes, who
was the strongest, related a story of aw-
ful suffering. Last week eleven men
left Key West on a smack to fish on
the west coast. When two days out
the smack was wrecked, but the men
escaped in the boats without food, water
or clothing. Three days after the wreck
a man died, and one after another four
others succumbed. The survivors were
too weak to throw their dead comrades
into the sea and the corpses remained
in the boat. For the last two days
Holmes was the only one of the living
who remained conscious, but he does not
remember all that happened. The scene
at the boat was horrible, the living and
dead, without a rag of clothes, were
tumbled together. The corpses seemed
to be gnawed in places, and the fisher-
men suggest that in desperation the sur-
vivors tried to sustain life by eating the
flesh of their dead companions.

VICTIMS OF THE TURKS.

Distressing Narrative of the Doings in
an Armenian Village.

Milwaukee, Feb. 14.—Ciragos Tomau-
an is a young Armenian of this city
who has just received sad news from
home. The young man is almost pro-
strated by a letter which he received
from his uncle, Khiafjian Tomauan,
written on Dec. 21, 1895, in the village
of Ounonaha, Palau, province of Daira-
behir, Armenia. The letter says: "I
write of horrible happenings, which are
unequaled in the history of our village.
Brother, they have struck our quiet vil-
lages, burned our churches and our
homes and robbed us of everything. They
have killed nearly everyone. Those
left have changed their religion and
have become Mohammedans. But this
is not all. Let me relate about your
home. Your brother and your sister and
the boy were killed. Your wife and
another threw themselves into the Eu-
phrates in order to save themselves from
Turkish outrages. Your sister is living,
but I wish she had been killed with
the rest, for they have taken her,
married her to a Kurd, and have changed
her religion to Mohammedanism. The
massacre continued three days. Very
few of us are now left in the village."

Andre's Trip.

London, Feb. 15.—The British consul
at Archangel, capital of the Russian
government of that name, telegraphs
confirming the report that Dr. Nansen
is safe, and is returning from the north
pole.

The news of Dr. Nansen's success has
created intense interest in this city.
The report received from Irkutsk, Si-
beria, was generally discredited at first,
although more faith is placed in it than
in the previous rumors which reached
London during the past twelve months.
The dispatch from the British consul
at Archangel is regarded as conclusively
showing that the Norwegian explorer is
homebound, even if he has not
discovered the pole.

But the Archangel dispatch refers to
the north pole, and the hope is still en-
tertained that Dr. Nansen's journey
may have been crowned with the high-
est success.

The dispatches received from the dif-
ferent parts of the continent indicate
that the same interest in the news from
the north is manifested throughout Eu-
rope, and it is also generally credited at
Greenwich. The United States yacht
commander has noted the exceptional
fatigue of long marches like a young-
ster. He was struck by a Mauser bul-
let, which passed through his right leg
from the front. Although causing no
fracture of the bone, the wound is pain-
ful. He has personally directed his
forces in their daily marches and al-
most daily skirmishes. In answer to
the question, "How will the substitution
of General Weyler for General Campos
affect the Cuban chances, General
Gomez said:

"I regard these good soldiers as being
in the same state in which the grand
army of France was found, or rather
left itself upon the departure of Napol-
eon I. I regard General Weyler as an
honorable but cruel soldier. In his mili-
tary ability, however, I do not think he
can for a moment be compared with
Campos. In the last movements of his
campaign he was noted for his un-
relenting cruelty towards defenseless
non-combatants, which action he now
claims was in obedience to superior au-
thority.

The government of the republic of
Cuba has been loath to order me to de-
stroy the cane of American estates. I

"Are Cubans still willing to purchase
their independence?"
After some thought Gen. Gomez an-
swered: "Of course owing to the rapid
increase of the growth of the rebellion
this course would not be so easily ap-
proved by the Cubans as at first. More-
over, it is a question for our govern-
ment to decide, but I think I am war-
ranted in answering 'yes' to the ques-
tion. The Cubans will now offer for
their freedom \$100,000,000 or perhaps
more, to be paid within one year from
this time. To secure the loan I believe
the government of the republic would
go as far as to allow the government of
the United States, should the loan be
placed there, to administer the finances
and retain the revenues of Cuba until
such time as the full amount should
have been repaid."

New York, Feb. 14.—A special to the

received January 14, has not proved ser-
ious. In spite of his hurt and of his
72 years of age, and thirteen years of

WILHELM GETS THE NEWS.
But It is Conveyed in a Rude Way—
Germany's Policy.

Berlin, Feb. 14.—A gross insult was
offered his majesty, Emperor William,
this afternoon as he was riding in an
open carriage through Brandenburg
gate. The sidewalks were crowded at
that time. Some miscreant, who evi-
dently had knowledge that the Emperor
was out for a drive and would pass
through the gate, threw a package of
newspapers at the Kaiser. It struck
his majesty on the left shoulder. Be-
yond causing the Emperor to suddenly
grow pale and give a quick order to
drive faster, no harm was done. De-
spite the fact that special officers rode
as a body guard behind the Kaiser's car-
riage and that several policemen were
near the gate, the thrower of the pack-
age was not detected. When the pack-
age was taken to the police head-
quarters and opened it was found to
contain a number of copies of a recent
edition of the Vorwaerts, which was
brimful of attacks on the government.
It had a lengthy editorial, containing
radical suggestions aimed at the big tail-
ors' strike now in progress, another one
on the unprovoked persecutions of so-
cialists, the suppression of socialist
newspapers and unwarranted imprison-
ment of their editors, besides a con-
glomeration of evil anticipations result-
ing from a continuance of the auto-
cratic policy of the present ruler of
Germany.

TO TRANSFER THE LEPROSERS.
An Effort to Have One Lazaretto for the
Dominion.

New York, Feb. 15.—A special from Otta-
wa says: An effort is being made to in-
duce the Dominion government to transfer
the nine lepers now held in restraint in
British Columbia to the new lazaretto re-
cently erected at a cost of \$20,000. In this
institution there are nine male and sixteen
female patients. Three died during the
past year. For many years Dr. P. C.
Smith has had charge of this institution.
Regarding the result of his experience with
leprosy patients he says:

"No real cure for leprosy has yet been
discovered. My predecessor, Dr. Nichol-
son, and after him myself, have treated
several of the lepers with colored water to
see if the influence of the colored water
body would cause a change, and in every
instance it did so. For a time all symp-
toms of the disease were in abeyance, and
there was a decided improvement, but of
course, only for a time, and it seemed to
me that the disease made up for lost time
afterwards."

FIENDS INCARNATE.

Scott, Jackson and Walling Still
Refuse to Reveal Pearl
Bryan's Head.

Although They Have Freely Shown
Where All Her Clothing
Was Hidden.

The Crime is One of Unparalleled
Brutality, and Causes
Much Horror.

Cincinnati, O., Feb. 15.—The identifi-
cation of the hat found near the place
where Pearl Bryan was found is re-
garded as one of the most conclusive
proofs that the murder took place in
that locality, and not in Cincinnati.
Further corroboration of this theory is
seen in the finding of black beads, such
as were on the hat of the murdered
girl, very near where the body was left.
This would indicate a struggle of
some violence, and that this is the hat
worn by the victim at the time and
place. When found the hat was some
distance away, weighted down by a
boulder, tied with a handkerchief which
belonged to Jackson.

A search in other places for the miss-
ing head was unsuccessful to-day, but
the head is no longer needed to prove
the crime or point out the criminal.
Public pity for the friends of the mur-
dered girl is so strong that rewards
amounting to nearly \$1000 have been
offered for information which will lead
to the finding of the head. The fact
that Jackson and Walling, who have
freely talked about the girl's clothing,
still refuse the friends of the victim
any information which would enable
them to give Pearl Bryan's whole body
decent interment intensifies, if possible,
the loathing that the unparalleled
brutality of this murder has created.

Louisville, Ky., Feb. 15.—A special to
the Commercial from Frankfort, Ky.,
says that Sheriff Plummer, Newport,
Ky., has secured from Governor Brad-
ley requisition papers for Scott Jack-
son and Alonzo Walling, the prisoners
held in Cincinnati for the murder of
Pearl Bryan, and has started for Col-
umbus to present them to Governor
Bushnell.

WASHINGTON COMMISSION.
Work Done at the Weekly Gathering of its
Members.

Washington, Feb. 14.—The Venezuelan
commission is hard at work to-day, with
only the members present at the weekly
meeting. The geological survey, through
Mr. Baker, reported that the physical map
of the country in despite of almost
finished. He exhibited the map already
done. It is proposed to have this map di-
vided into sections which will be enlarged,
then a number of lithographic copies
struck off. These will be made up and
on these enlargements notes may be made.
In this way each member of the commis-
sion may make independent studies of the
situation, from every standpoint. By com-
parison of these studies in turn valuable
results will be attained. The commission
is highly gratified at the position taken by
Great Britain in responding favorably to
its request to be supplied with informa-
tion relative to the location of the bound-
ary line. The commission today ratified
the appointment of Percy Allen, late pri-
vate secretary to Justice Harlan, to be
assistant secretary.
