SMALL POX.—A case of Small Pox having been discovered on board the brig Acadian, since her arrival, she has been ordered to quarantine.—*Journal.*

TORONTO, Feb. 11.—*Mister* George Dawson, late, Editor of the *Rochester Democrat*, who came over to Chippawa as a *Patriot* spy, under the protection of the renowned General Scott's bearer of Despatches to Colonel Macnab, has been appointed State Printer in Michigan—rather a better berth, we should suppose, than pigging with his brother caitiffs on Navy Island. We hope he will take Dr. Theller into partnership and that the "free, sovereign and independent State" will provide them hereafter with a a sufficiency of pork and beans, so as to place them above the necessity of stealing pigs, and robbing barns and hen-roosts, as was their wont. —*Patriot.*

The *Toronto Examiner* says—It is now beyond doubt that Robert Baldwin, Esq. will be Solicitor General.

The Colonial Minister will soon find that Lord Durham's Report, and Lord John Russell's Circular are beginning to produce their natural effects in the British North American Provinces. He will have to displace his Governor, require him to put himself under the tutelage of a new Executive Council, selected according to the wishes of the leaders in the Assembly, and accept a new batch, whenever it may please that body; or "appeal to the sense of the people," by a dissolution and a general election.

If the Minister adopts the first mentioned course, we do not see how he can punish the Provinces of Upper Canada and Lower Canada with the loss of their Constitution, for difficulties which had their origin in complaints similar to those of the Nova Scotia Assembly, and which he may be sure will be *frequently* repeated by every Representative Assembly in the North American possessions of the Crown.

For our part, we have repeatedly expressed our desire to live under the British Government, and we should be sorry to see it exchanged for the Government of a Provincial faction, or a party supporting itself by corruption and popular deception.—*Quebec Gazette.*

FREDERICTON, Feb. 26.—On Saturday evening last as Mr. SIMON ESTEY of Kingsclear, accompanied by Margaret, daughter of Mr. John Barker of Prince William, aged 15 years, were crossing the River for the purpose of attending Singing School; they unfortunately missed their way, fell thro' an air-hole and were drowned. The hat and mittins of the unfortunate man were discovered on the ice near the spot, and his body was subsequently found; but that of his fellow sufferer has not yet been recovered.—*Sentinel.*

On Monday Mr. Street, chairman of the committee appointed to take into consideration the propriety of establishing a Board of Audit, made the following Report, and brought in a Bill in accordance therewith.

"The Select Committee appointed to take into consideration the expediency of establishing a Provincial Board of Audit by Legislative enactment, having had the matter under consideration, Report, that inasmuch as the present Auditor General of this Province is an officer appointed by Government under the provisions of no Legislative enactment upon the subject, his duties are confined merely to the auditing of the expences of the receipts and collections of the casual and territorial revenues, and of the expenditure of that part thereof granted for the support of the civil government of the Province.

The Committee therefore are of opinion that it is highly necessary and desirable that a good and sufficient Auditor should be appointed by Law, by whom all the accounts of the receipts and expenditures of the public revenues of the Province, should be audited prior to the same being laid before the House of Assembly: and have therefore prepared a Bill under the title of 'A Bill to establish and regulate the auditing of the receipts and expenditures of the Provincial Revenues:' which they now respectfully submit with this Report."

The House afterwards resolved itself into a committee of Supply, when various sums were voted for the ordinary services of government. A vote for £105 to the Secretary of the Province for the purpose of Stationary and Blanks, was upon motion of Mr. Woodward transferred from the Bill providing for the ordinary expences of government, to that providing for the extraordinary; the vote having been hitherto opposed by a large majority; and it appearing that that officer in addition to the large salary of fifteen or sixteen hundred pounds which he receives, obtains upwards of £100 annually in the shape of fees,—the paper and blanks used for the services for which they were charged, the Province being called upon to pay, Mr. Woodward stated that it was his intention to move an Address to His Excellency, praying for a statement of the amount of fees received by Mr. Odell, and a particular account of the services for which they are charged.

The vote of £350 to Dr. Gesner, Provincial Geologist, caused some remark; but it was ultimately voted, making with £250 allowed for expenses, £600. The question will be again discussed, when the Resolution comes up for continuing the important exploration which is now making by that gentleman, the debate on which we shall report.

Two Resolutions were brought in and passed; the one granting to L. A. Wilmot, Esq., one of the Delegates to England in 1836 and 37, the sum of £200 in addition to £288, the balance still remaining in his hands, for his services during the first of these delegations; and the second voting £300 for his services during the second; thus making the net sum about £500; it appearing that £250 had been paid during his absence, by his partner as counsel fees to other legal gentlemen, on suits for the conducting of which he had been retained: and it being admitted on all hands that his absence was attended with much professional loss and inconvenience, and that a pledge had been given at the time of his departure, that the House would remunerate him therefor.

The House afterwards resolved itself into a Committee of Supply, and voted £122 to the two companies of Charlotte County Militia, who did permanent duty last winter, under the command of Captains Boyd and Mitchell, in lieu of caps and coats which were not served out to them, as was the case in other parts of the Province.

The Army of the United States should number, all told, 12,539 officers and men. It is thus computed:—

2 Regiments of Dragoons,	1500
4 Regiments of Artillery,	3000
8 Regiments of Infantry,	7500
Ordnance Department,	320
Engineer Corps,	36
Topographical,	43
General Staff,	57
Medical Department,	83

But at the latest return, accompanying the Report of the Secretary of War, the total effective rank and file present for duty was less than half the nominal force, viz: 6,220.

In Florida, there are six Regiments, viz.: 2 Dragoons, about 400 strong; the 3rd Artillery: and the 1st, 2nd, 6th, and 7th Infantry, which average about 200 men each.

An abstract attached to the Surgeon General's Report, giving the number of cases treated during the year, and the number of deaths, seems to us to indicate a high state of the medical department of the Army, and much more than ordinary skill.

The number of cases of all sorts treated, was 22,248, out of which there were only 214 deaths.

AWFUL EXECUTION!

On the evening of Saturday the 15th instant, the awful sentence of the law was carried into execution at Fredericton, on a most notorious criminal. The sentence was that he should be conveyed upon a hurdle from the place of confinement to that of execution, and then and there hung up. Some difficulty was found in procuring a hurdle, and the executioner was accordingly obliged to carry him on a sled. The unhappy criminal seemed perfectly insensible to his fate, and from the time of his being brought forth, to the moment of his suspension, not a muscle of his face could be seen to move.—He was splendidly dressed in a gold embroidered coat, and white dress breeches and silk stockings, with a robe of crimson velvet, trimmed with fur, thrown over him; a golden coronet being in his right hand, and in his left a scroll of paper, labelled "my new and approved Constitution.—N. B. Delegates' Report." As the body has been rendered insensible to decay, at least for a very considerable period, whoever wishes to see the suspended culprit, has only to go to the House of Assembly, where, hanging over the Speaker's chair, usurping the place of the Royal Arms, after having sold the crown, he may be beheld in all his splendour.—Many persons would admire the sight vastly, were it not, that as in the cases of Timothy Dempsey and Terence Leonard, the cost and charges have been more than the body is worth.

Fredericton, 22d Feb. 1840.

A CARD.—The Clerk of the Legislative Council respectfully returns his thanks to the Gentleman or Lady, unknown, who has been so kind as to send him for the use of Her Majesty's Council, a set of GAGS, of form and workmanship greatly superior to those which he himself had made by the fashionable milliner; and begs to intimate that if he or she will be pleased to send him his or her name and address, he will include in the Contingency Bill something for his or her benefit.

MR. FOULIS continues to keep up the interest of his Lectures at the School of Arts, by exhibiting the different manufacturing processes connected with his subject, this evening on Chlorine, he explains the application of this Gas to bleaching and the discharging of colours by actual experiment, also the spontaneous combustion of Metals in Chlorine and the manufacture of Muriatic Acid.

Just Published,

And for sale at the stores of Messrs. M'Millan, Nelson, Sears, Hubbard, and at the Circulating Library:

"Plain Discourses on Church Government:

Being the substance of Sermons on the same subject, by G. T. CHAPMAN, D. D., late Rector of Christ's Church, Lexington, U. S.

These Discourses are SEVEN in number, and will form a pamphlet of about 60 pages 12mo.

As the only object of the Compiler is to place the principal arguments in favour of Episcopacy within the reach of all who may be disposed to inform themselves upon this much debated question, this pamphlet is offered for sale at the lowest possible price.

Should it be so favourably received by the members of the Church, as to satisfy the Compiler that he may do so without a serious loss, he will be happy to take the trouble of preparing in like manner for the Press, other Sermons by the same Author, on the Worship and Doctrines of the Church, which may be printed so as to match with those which are now offered: and should the sale of the whole collection produce any thing more than will pay the expences of publication, the excess will be presented to the "Church Society."

Price of the Seven Discourses—For One copy, 1s. For a Dozen copies, 7s. 6d.; For Fifty copies, 25s; For One Hundred copies, 40s. *Dec.* 27.

JUST PUBLISHED,

AND for sale at the Booksellers and other places in St. John and its vicinity: "The Temple Rebuilt, or, Solomon's Temple spiritualised." A New Year's Gift for the children of God, composing the One true, spiritual, universal Church of all nations, and kindreds, and people, and tongues. A Poem, by GEORGE BOND, occasioned by witnessing from time to time, the building of the Commercial Banking House, in Prince William street, in the City of Saint John. *Price Six pence.*

The Poem is beautifully printed on a sheet of fine paper, inclosed with a Border 18×22 inches; it contains Two Hundred and Four Lines, with copious extracts from the Lively Oracles of Eternal Truth, explanatory of the subject matter of the poem.

☞ Should any profits arise from the sale of the Work, it will be faithfully appropriated to the use of the *Saint Point and African Sunday School*, on the Western side of the Harbor. *Feb.* 7.

Twenty Shillings Reward.

THE subscriber having obtained judgment against WILLIAM V. KELLY, for forty shillings and costs, in November, 1838, and the said Kelly having given bail to the Sheriff for the "Limits," the above reward of one pound will be given to any person giving information of his having been off the Limits for the last thirteen months, so that the demand may be collected of his bail.

Dec. 13. FRANCIS MARVIN.

To the Afflicted.

NOTWITHSTANDING the great powers the *Essence of Smoke* possesses in the preservation and smoking of Meat, Fish, &c. it has since its introduction into this Province, been found to possess other properties, which are of higher importance to the welfare of society, viz: its wonderful *Sanative* powers in the removal of *Inflammation*, allaying *Pain*, arresting the progress of *Fevers, Mortification* and *Cancers*; consequently useful in a variety of diseases.

Hundreds of respectable persons residing in St. John and in the country, can, and are ready to attest to its efficiency in the following diseases, from the effect it has had in removing their various complaints, viz: Rheumatism, Pain in the back, &c. Inflammations and swellings of every description; sprains, bruises, cramp, spasms, chilblains—Applied warm with the friction of the hand.

Chronic or acute inflamm
