News Summary.

DOMINION.—Further crop reports from the North-West are of a most satisfactory character.

Go and do likewise. If your whisks are grizzly and unbecoming, use Buckingham's Dye and they will look as when you were younger.

Mr. Alfred Marshall, of Clarence, is the owner of a Pekin duck, which though only eleven months old, laid her one hundredth egg on Friday last.

A blower to be run by motor power to supply the Amherst blacksmith shops with air blasts is the latest thing contemplated by the Canada Electric Company.

McGill University is to erect a new observatory for meteorological purposes on top of Mount Royal, for which Sir William Dawson and Prof. McLeod have obtained a site from the city.

Good results are expected from the placing of fry of the Restigouche salmon in the river, as this season larvae of the Restigouche species have already been caught in the pools of Camp Adams.

It is said by practical business men that the present time table is one of the best ever compiled by the L. C. R. authorities since its inauguration. All trains have made good time all over the road.

Two thousand four hundred tons of coal were shipped at the Sydney and Louisbourg pier at Sydney July 1st. This is the largest shipment from one pier in one day in the history of Nova Scotia's coal trade.

The collections at the Moncton custom house for June, 1899, amounted to \$23,184.50, the total collections for the year ending 30th June being \$305,658.25. The exports for June were \$48,787, and for the year \$345,007.

About forty horses from the Springhill coal pits are being pastured at Parridge Island, Parrsboro. Many of them have not been out of the mine for years, but they look as if they had been well cared for, being sleek and fat.

A sight never before seen in the history of the port of Shuie might have been witnessed there last week, when 12 ships were being loaded with lumber. Several were the appearance of some large steamers.

In a tree near the residence of Mrs. Harris Oakes, New Albany, a robin built her nest and reared a family of four, among the number being one fully white. The young bird still remains in the vicinity of its birthplace, and is watched with much interest by the neighbors.

The new steamer Weymouth will at once replace the Alameda on the route between Yarmouth and Weymouth and St. John. The Yarmouth Times congratulates the managers and the traveling public on having such a safe, speedy and comfortable steamer for the route.

Rhodes, Curry & Co. have received an order for interior hardwood fittings for a hotel being built at Jamaica by the American Hotel Co. The order is accompanied by complimentary references to the quality of R. C. & Co.'s work in the Bank of N. S. at Jamaica.—Amherst Recorder.

If you have a home which is maintained by your skill and energies, your family continue to enjoy their present comforts should your powers suddenly cease to death. If not, it is not your duty to protect them by a policy in the Dominion Safety Fund Life Association, St. John, N. B.?

As an instance of the value of fishing rights on the Restigouche, it may be mentioned that Mr. Samuel Wilnot and his brother sold the other day to Mr. Brown of Boston, three of their pools, below the Metapedia, reserving for themselves the right to fish each season for a fortnight during their lives, for \$36,000.

It is stated that, notwithstanding reports to the contrary, the lobster fishing on the eastern shore of Westminister Co. was not equal to last year, owing principally to the wind having almost blown in shore this season. For the same reason, the fishing in the Prince Edward Island shore, opposite, was unusually good.

President Parker, of the Nova Scotia Cotton Co., informs us that the Halifax factory will only be in operation three days a week—from the middle of June to the middle of September, which is not a very bright outlook for the operatives. The "Book of the Week" says: "The strike at Springhill still continues without any probability of a speedy settlement of the matter in dispute. About 1,000 men are out, and business in that town is paralyzed. There are also nine trains which carry coal from Springhill to Moncton lying idle. The injurious effect of the strike if long continued will be widespread. Public sympathy is chiefly with the men."

It is stated that Captain Dowling, of H. M. S. Canada, has under instructions from the admiralty, made soundings in St. John's harbor, which prove that the admiralty chart of 1844 was entirely wrong in representing a dangerous rock in the channel. The chart had been in the meantime amended in accordance with the request of our Board of Trade, which has rendered an important service to the port in the matter.—Telegraph.

The best yet. Peter's Liniment has proved itself a positive cure for Coughs and Colds. Don't suffer further, but try this invaluable compound. \$5. bottle.

The cable between Halifax and Bermuda has been successfully laid and communication established.

The People's Bank, Fredericton, has declared a dividend of 4 per cent. for the half year ending July 2nd.

The soap factory about to be erected at St. Mary's, York Co., will be exempt from taxation for a term of years.

In Ontario and Quebec a good deal of damage was done to the crops of grain on the low lands, but a good harvest is expected.

In the Maritime Provinces the harvest will be from two to three weeks later and promises good. The hay crop will be poor.

The shipments by steamer from Summerside to Point-du-Chene for the week ending July 2nd, included 55 horses and 1,767 cases goods.

At a recent meeting of the Amherst town council a by-law was recommended prohibiting the beating of drums at certain hours on Sunday.

The month of June, 1899, reports a smaller amount of sunshine than any previous June observed at the Sydney station. The observations extend over seven years.

George Grant, a leading merchant of Trinidad, interviewed Hon. Mr. Foster Saturday relative to the West Indian trade with Canada. Mr. Grant believes a great trade can be worked up.—Sun.

London, Ont., has now telephone connection with all its public school buildings, so that it can secure the prompt giving of alarm in case of fire. The plan is being warmly recommended to other cities.

The minister of customs at Ottawa gave no encouragement to the delegation of straw hat importers who desired to escape making amended entries on goods imported between the first and final drafts of the new tariff.

There were 45 failures in Nova Scotia for the first six months of the year, with liabilities of \$217,000. This is the smallest amount of failures in a similar time since Dun, Wilmans & Co. kept records of Nova Scotia failures.

Campan Moncton is now making good progress and getting down to real work. The weather is fine and the general health excellent, and the men are exceedingly well pleased with the location of the camp, now that the grounds have been cleared.

Says the Springhill News: A four foot sea-serpent of good quality was discovered by Mr. Hall, near Salt Spring station, on an area which has been prospecting. Mr. Hall has a number of men employed and is making further explorations.

A new industry is being developed near Brookville, Hants Co. The tidal deposit left on the banks of the Heber is found to be the finest thing yet tried for moulding purposes—superceding the ordinary sand. One hundred and seventy tons are now being handled for a Boston firm.

A pair of Holstein cattle, weighing 2,400 lbs., raised on the farm of Mr. Tracy Mills, Carleton Co., bought by John McDonald for Hardress Clark, butcher, Sydney street, St. John, was on exhibition last Wednesday and Thursday before being put in his new refrigerator. This has been the largest pair of the first of this breed of cattle ever killed here.

Cattle shippers who are endeavoring to induce the government to allow the shipment of American cattle via Montreal, have received inquiries from large cattle dealers and pasture owners in Great Britain as to the likelihood of the agitation succeeding. English drovers say that if well inspected American cattle could be sent to Great Britain via Canada it would be of great advantage, not only to English consumers of beef, but to the owners of extensive pastures. The board of trade of Dundee, Newcastle, and other places in the north of England and Scotland, are interesting in the matter, and live stock associations are waiting for a resolution to be passed before they again interview the government on the subject.

UNITED STATES.—Boston imports dropped \$1,500,000 this year as compared with last fiscal year.

There was a decrease in the public debt of the United States during the month of June of \$20,000,000.

Elaborate preparations are making for the opening of the peace congress, which will take place in London on July 14th. The deliberations of the body will be presided over by David Dudley Field, of New York.

In the United States the crops in Dakota are reported 50 per cent. better than last year. In Michigan they are better, but in other states there is not much difference. It is even worse in New York State.

The census shows that Calais, Me., has a population of 1,100 souls, \$2,000 persons in ten years. Brewer has 4,095, and it gained exactly the same number as Calais; Auburn has 11,183, a gain in ten years of 1,628.

A Wedding Present

Of practical importance would be a bottle of the only sure-pop corn cure—Fulsan's Painless Corn Extractor—which can be had at any drug store. A continuation of the honeymoon and the removal of corns both assured by its use. Beware of imitations.

Mrs. Shears—I wish my husband were here. Jeweler—"Is he an authority on diamonds?" Mrs. Shears—"Not exactly; he is an editor and knows paste whenever he sees it."

Northrop & Lyman's Vegetable Discovery has worked wonders for dyspepsia, and we don't think there is a case of dyspepsia to be found that it will not cure if the directions are followed. Mr. C. E. Williams, Druggist, says: "The Vegetable Discovery is selling well, and I know one and cases of dyspepsia that it has completely cured."

New Songs, and suited to International Lessons of 1899. "Gathered Jewels." No. 2 is having a large sale at Baptist Book Rooms. Another lot now coming. Send in four orders. Single copy mailed on receipt of 35 cents.

Since that he moved to Moncton, where he resided until taken away by death. He was only a few days sick. He died trusting in the merits of Christ.

WOOD.—At Great Village, June 15th, after a lingering and painful sickness, Evelyn M., youngest and beloved daughter of A. L. and Cecelia Wood, in the 9th year of her age. Lovely in life and peaceful in death. She was an active worker in the Mission Band, and looked forward with pleasure to the Fourth Sunday; but, before that day came God called her to walk amid the flowers of the Eden above.

BOWLEY.—At Tremont, Kings Co., N. S., May 24, Mrs. Susan Bowley, aged 81. Sister B. professed faith in Jesus 62 years ago, and was baptized by Rev. Ezekiel Masters into the fellowship of the Lower Aylesford Baptist church. She had a deep experience in the truths of God's word, and was faithful till God called her to her rest above. May the dear children of our sister be ready when the Master calls them.

MILROY.—At North Denver, June 19th, Mrs. Amanda Milroy, aged 47 years. Sister M. was led to trust the Saviour in her native home, in Wallace, N. S., under the labors of the late Rev. S. Thompson, by whom she was baptized. She moved to the United States some seven years ago, and was soon after left a widow. She honored her profession through life. Jesus was her support in her affliction, and comfort in death. Three brothers and three sisters mourn their loss.

In the obituary of Mrs. Elderkin, in speaking of her family, it should have been two sons and three daughters, not two sons and seven daughters.

It is no wonder that invalids lose faith in all specifics, when so many worthless medicines are advertised to cure various diseases, but which, when tried, are found wanting. We have yet to learn, however, of the first failure of Dr. Wistar's Balsam of Wild Cherry to cure coughs and pulmonary disease.

Mary Taylor, Hopewell, writes: I was laid up with lame back six weeks so bad that it affected my whole system to the end of my toes, so that I could not walk. I gave my back two rubbings with the British Liniment (and I could not half rub it myself) and it cured me entirely.
