"To provide for the establishment, regulation and government of School Libraries, and the is."

selection of books to be used therein; but no works of a licentious, visious or immoral tendency, or hostic to the Christian religion or works on controversial theology, shall be When works on controversial theology are classed with obsesse, vile and infidel publications, are deemed equally unfit for

publications, are deemed equally unfit for use in the Library, how can it be said that they may be taught in the School Room? Prohibited from use under the eye of the parent, shall they be taught by the teacher? Shall the Library be shut against them, and shall the School door be open to them? And does not the exclusion from the Library of works on controversial or distinctive dogmatic theology, clearly show that in contemplation of the Acts the Schools were to be Schools of the public and not of any sect, and that the Legislature expressly sought to gnard against the introduction of School affairs?

that this is denominational teaching? Can this be "the fulness of distinctive religious teaching?" and can it be said that the principles of Christianity which the law required to be impressed upon the minds of the pupils are the principles of Christianity "after a denominational fashion," when works on controversial theology and the Church's interpretation of the Bible were expressly excluded?
