

## BLOOD TRANSFUSED BY SMALL SYRINGE

New Method of Performing  
Operation at Philadelphia  
Appears Successful.

PHILADELPHIA July 26—Physicians believe that the life of Mrs. Rose Roehnd, 23 years of age, has been saved by a transfusion operation performed yesterday, when six ounces of her young husband's blood were transferred to her depleted veins.

The operation was performed by a new method. Instead of the veins of the recipient and giver of the blood being lanced directly by the tube, the blood was transfused by means of a new invented syringe. This method is said to obviate the possibility of blood clots or air bubbles during the operation, and has the advantage of measuring the exact amount of blood taken from the donor.

# "YOUR HEALTH IS— —YOUR WEALTH"

DO NOT TRIFLE WITH THE HEALTH OF YOUR FAMILY

THE BROOM NO LONGER IS GOOD FOR ANYTHING BUT FUEL. INSTEAD OF CLEANING, IT JUST STIRS DIRT UP INTO THE AIR. THE DIRT NATURALLY SETTLES BACK ON THE FLOOR OR FURNITURE, THEN YOU MUST "DUST"—A TERRIBLE, STRAINING PROCESS.

THEN, TOO, THIS DIRT YOU STIR INTO THE AIR IS VERY DANGEROUS. IT IS LADEN WITH DISEASE GERMS AND YOU AND YOUR TOTS BREATHE THEM. THINK OF THAT!

THINK WHAT IT MEANS to the housewife to have the Cleaner run over her floors once or twice a week instead of sweeping them with a broom or carpet sweeper. Realize how absolutely clean she will keep every inch of her carpets with less effort than the old efforts require, dispensing forever with house-cleaning days, keeping her home clean ALL THE TIME, just the same as it was right after house-cleaning time of yore.

## Men's Work Has Been Lightened and Systematized by Means of Labor-Saving Machinery Why Not a Woman's?

Dr. Kellog, President  
of the Battle Creek  
Sanitarium in One  
of His Lectures,  
Stated:

"Excessive loss of life of infants, aged from three months to four years, is caused mainly by the mother permitting the child to play on a carpeted floor, filled with street dirt, which contains millions of microbes that are brought in on the feet and ground into the carpet. It is criminal to let a child play on a carpet unless it has been 'vacuum' cleaned."

Prof Rodugres, United States Expert Consulting Engineer, After Thoroughly Examining Our Machine Says:

"It is the first hand-power cleaner that I have examined that pleases me. The principal is mechanically correct; the construction is based on exact scientific principles. It not only removes all dirt and dust, but, on account of the excessive air displacement and continuous suction, removes the dirt and filth from under as well as from the top of the carpet with less effort than any other vacuum cleaner I have ever examined. In fact, it is the most complete dirt eater I have ever seen. The material used and the construction are both so nearly perfect that it is practically indestructible. If you will think for a minute, you will realize that a number of diseases are caused by germs and microbes in the filth brought into the house by dogs, cats, rats, flies, and the filth off your feet. Among the diseases that can be mentioned are diphtheria, typhoid fever, smallpox, scarlet fever, measles, whooping cough, grippe, spinal meningitis, pneumonia, erysipelas, cholera, yellow fever, malarial fever, tuberculosis, tonsillitis, cholera infantum, and a number of others. Were it possible to show you by means of the magnifying glass the filth and germs that are lodged in your carpets and rugs, you should be so frightened that you would immediately order a vacuum cleaner or abandon your carpets and rugs. Do not trifle with the health of your family!"

If you have no vacuum cleaner, in justice to your family's health, have a demonstrator call to-day. It will cost you nothing, and you will have a sanitary home. It is a health saver, labor saver, and money saver. It can be used every day, and does not wear the nap off the carpet, like ordinary sweeping; nothing to get out of order, runs quietly, a child can run it, and will last for years.

J. M. Werzke, A.M.,  
M.D., the world's  
recognized authority  
on bacteriology, in a recent  
lecture, said:

"If all carpets and rugs were kept thoroughly cleaned, and all windows and doors thoroughly screened, our mortality from infectious diseases would be reduced 90 per cent; in fact, all Municipalities should enact laws to compel each householder to adopt and use a vacuum cleaner."

The Brantford Daily Courier has made arrangements to secure a large number of 1913 WIRELESS VACUUM CLEANERS. These cleaners are equipped with three bellows which are operated from backward and forward motion of the machine. If you have no Vacuum Cleaner, order one to-day. For free demonstration telephone the Courier Office. Both Phones 139.

## BALL ROOM ON A LONDON ROOF

Two Thousand Dancers Enjoy  
Themselves at Sel-  
fridge's.

Roof-garden dancing in which two thousand dancers indulged, was inaugurated in London on Tuesday night at the charming roof-garden which has been opened on the huge Selfridge building in Oxford street, W.

The scene of the inauguration was most picturesque and alluring. Foliage in profusion tended to give a secluded appearance to the garden, and added to the pleasant coolness of the air up above the dusty streets. In the foliage were innumerable fairy lamps, which completed the attraction of the place and made it an ideal spot for "revelry by night."

There were illuminated pergolas, attractive supper tables, multi-colored draperies and flags, around the dancers, who moved in a whirligig ramification of original costumes, making a midsummer-Riviera scene in London.

The dancers trooped in through the entrances of Selfridge's, and were taken in battalions of thirty to the top floors in the lifts. There were pirates, cowboys, Crusaders, terrors, monks, Turks, Bulgars, and Serbs among the gentlemen. Among the ladies were veiled beauties of the harem, Cleopatras, jolly Dutch girls, French students and post-impresionists.

Ever-changing vistas of circling dancers flitted past in all directions, while three orchestras poured forth melodies of haunting romance.

At midnight Maricos and Florence Walton gave the "tango" as it should be done. They glided gracefully past the supper tables; their dance was infectious, for weaker and less exquisite imitations sprang up mysteriously until hundreds of dancers occupied the floor.

## ARMY OF FROGS HOPPING ACROSS OHIO

Women Terrified at Hordes of  
Migrating "Hoppers" Bound  
for Sandusky Bay.

PORT CLINTON, O., July 25—Port Clinton women have been put in a state bordering on panic by the migration of thousands of frogs, which are marching or hopping overland from the marches of Lake Erie and the Portage river to Sandusky Bay. Houses are kept locked all the time, and the women are afraid to venture out.

The frogs crowd the streets and sidewalks, swarm upon doorsteps and try to hop into houses. In the evening they lit up their voices in chorus. The migration is expected to continue until the cold weather.
