

## Crowds Throng to Exhibits Car and Lectures

**T**HE Forest Protection Exhibit Car of the Canadian Forestry Association is devoting considerable time to northwestern Quebec and will later cover Ontario, and other portions of Quebec and the Maritime Provinces.

The car, which recently attracted over 80,000 persons in British Columbia on a forty-five day trip, left Ottawa on July 5th on the Waltham sub-division of the C.P.R., stopping a day at Shawville, Campbell's Bay, Waltham, and Fort Coulonge.

It also was located two days on the main street of Hull, P.Q., where the attendance exceeded six thousand persons.

Other railway branches will be covered in succession. A special feature this year is the sending of Mr. Napoleon Lemay, former M.L.A., an excellent public speaker, into some of the more remote communities back from the railways where he will be accompanied by a motion picture operator, with electrical equipment and educational films. While in Quebec with the Car, Mr. Lemay gives daily addresses to audiences averaging from 500 to 1,000 people.

## The Most Greenhouse for the Least Money

**B**Y the least money, we mean, the least that is consistent with lastingness and the making of a happy, healthy home for your plants.

It's just a clean cut, thoroughly practical greenhouse, in which the ornamental touches and extra refinements, so to speak, have been eliminated.

Still it is decidedly good looking, and will grow just as many and just as fine quality of flowers, as any house that costs more.

It is a house we have been building for years. But the times have made so many folks want to strip things for the running, as it were, that they quickly buy this Practical Purpose house, when they would not buy our regular one with its curved eaves and other features.

Glad to send you fullest of particulars, or one of us will come and talk it over with you.
