

(FEBRUARY 1946)

OFFICE OF THE PRIME MINISTER

MEMORANDUM

✓ NW 11 - Continued Food Board
✓ NW 11 - NW 1. 2. B

for the Prime Minister:

C188692

Mr. Ibbot is going to submit some suggestions for meeting the emergency food situation - which parallel fairly closely President Truman's programme.

If these suggestions are approved they should be put out as general government policy - preferably in a statement from you.

I think it would be helpful if you could suggest that the Wartime Prices and Trade Board is the obvious agency to take responsibility for carrying out the agreed policy in this field

W.L.K.
