

## Cost and Service

The two factors considered before a purchase is made.

## Steel Truss Barns

measure up to every requirement. They are as sturdy as a skyscraper. They have no cross-beams to hinder unloading or mowing away. They are fire and lightning-proof. They have metal clad, roller doors, lift roof-lights, sliding side windows and "Acorn" ventilators. The cost will compare favorably with a wood frame barn.

Send for a copy of new book, "The Steel Truss Barn."

## Gossip.

### Tamworths at the Herold Farms.

From our own personal knowledge we know that a number of our readers who are engaged in breeding Tamworth swine have for some time been anxious to obtain some entirely new blood from outside. These breeders, no doubt, will be pleased to learn that the Herold Farms, Beamsville, Ont., have recently purchased as their head stock boar a choice, nine-months pig from the Upland Farms, of Ipswich, Mass. As a show proposition he would have looked well in any of the classes at Toronto, London or Ottawa this year, and his sire, General Haig, imported in 1915 by Ipswich Farms, was first and champion at the Royal Show, England, the same year. He is being used now on all of the younger sows got by the head sire at the Herold Farms, "Victor Hugo," which has in former years been a prominent winner at many of the larger shows throughout Ontario. Everything offered at present is by this sire, but a limited number of young sows already bred to Upland General, the newly imported boar, will be booked for an early delivery, although the supply is not likely to last long. Address all correspondence to Herold Farms, Beamsville, Ont.

### Home From the Shows.

A few days ago it was our good fortune to spend a day at Spring Valley Farm and to see the Kyle herd of Shorthorns at home after a several months' tour of both the Eastern and Western fair circuits.

Those of our readers who are most interested in the breed have, no doubt, followed the winnings of this herd throughout the season when they started in at Calgary late in June and held their own all the way down, Edmonton, Saskatoon, Regina, Brandon, ending up at Toronto and London, one of the largest winners of the season. Very few Eastern herds ever went West and met with greater success, and very few herds ever made the three-thousand-mile trip and came back in such good fit. Sea Gem's Pride, the undefeated two-year-old from Calgary to Toronto, ended up the circuit by capturing the grand championship honors at London. Lady of the Valley 7th, almost as noted a winner in females, dropped a model roan bull calf when only a couple of days off the train, and, taken all through, the Kyle herd never was and never looked better than when seen grazing in the fields at the home farm last week. In reviewing the catalogues of the various fairs it is also interesting to note that Kyle entries were nearly always bred by Kyles. The majority of them were either sired by the Cruickshank Fragrant bull Newton Ringleader (imp.), the senior sire, or Nonpareil Ramsden, the next in service, a bull got by the noted sire Nonpareil Archer (imp.). Both of these bulls are still in the herd, and a large percentage of this season's calves now coming on are also got by these sires, and have every promise, at present, of developing into equally good show material. There are several daughters of Newton Ringleader already in the herd of breeding age, and on these Sea Gem's Pride, the two-year-old bull mentioned above, will be used exclusively. Messrs. Kyle can reasonably expect something choice from this breeding.

Regarding the more mature breeding females in the herd, it is scarcely necessary to go into details. The herd is one of the oldest in Ontario, and something from nearly every good, imported strain has yearly found its way into the stables until all the more fashionable females are now well represented.

The present offering in both bulls and females includes a number that have been prominent winners all through the circuit, and these are by no means superior to many of the other stable mates that were not off the pasture this year. We believe that most of our readers, who are at present in need of some new blood could easily make a suitable selection from this herd. Look up the advertisement elsewhere in this issue and keep it in mind for future reference. We might also add that from their flock of fifty Southdown ewes they still have a few rams and ewe lambs that are well worthy of a place among the best flocks of the breed.

**STOP YOUR "METALLIC" FIRE LOSS**

**BUILDINGS ARE SAFE**

**WHY** build with inflammable wood when you can get fire-proof, weather-proof and lightning proof "Metallic" building materials. They are far cheaper in the end. "Empire" Corrugated Iron Siding is easily and quickly laid and makes a strong, rigid wall. Its light weight makes heavy construction unnecessary.

"Eastlake" Galvanized Shingles, coupled with "Halitus" Ventilators and "Acheson" Roof Lights make a perfect roof. "Metallic" building materials defy the elements. "Eastlake" roofs laid over thirty years ago are good to-day.

"Metallic built" means fireproof, stormproof, neat and durable construction.

Before buying any building materials write us for Booklet and complete information. We can save you money.
