## Safety First

Life Insurance means safety for the home. If the head of the house dies, adequate insurance provides the means to "carry on" until the members of the household are self-supporting.

Life Insurance means safety for the children. Many ambitious boys and girls are deprived of their rightful chance in life owing to the premature death of the father or mother or both parents. Life Insurance would have given them their golden opportunity.

Life Insurance means safety for the widow. Life Insurance would render self-support and support of children unnecessary.

Adopt the policy of "Safety First" for the sake of the children, the wife and the old home.
