

## UNDER TWO FLAGS-

THE ABOVE ILLUSTRATION shows the Hamilton, Ont., works of the International Harvester Company, now under course of construction, in which McCormick machines for the season of 1904 will be manufactured for the Canadian trade. When these great facilities for manufacturing McCormick machines are completed, we will be in a much better position to supply the immense Canadian demand for the McCormick, which will hereafter be manufactured under two flags, on Canadian soil, by Canadian workmen, as well as on United States soil, by United States workmen.

**MCCORMICK DIVISION**

## "Cornwall" Steel Range

### OUR LEADING STEEL KITCHEN RANGE

Burns coal, coke or wood—both grates always supplied. Made only from best grades of sheet steel, which are cut and punched by automatic machinery. All parts fit together perfectly. Oven is roomy, and is a perfect baker. Has triple triangular grates, which are extra heavy and will last longer than the two-bar grates put in common ranges. Has a rich nickel dress, which makes a beautiful contrast with the highly-polished black japanned body. Other steel ranges can be bought for less money, but they are worth less.

## "Sunshine" Furnace

### OUR LEADING WARM-AIR HEATER.

Burns coal, coke or wood, and gives perfect satisfaction with either. Wood can be burned in the spring and fall, and coal in the severe winter weather. Large double feed-doors will admit rough chunks. Every square inch, from bottom of fire-pot to top of dome, is a direct radiating surface. Dome and radiator are made of best grade of sheet steel. Gas damper works automatically; is dust and air tight. Dampers control fire perfectly, and hot-air pipes distribute the heat uniformly.
