

**Rural Telephones for Family Protection.**

It's not an unusual thing for tramps or burglars to get into country houses and, while the men are away, frighten the women.

Often they don't stop at merely frightening, but sometimes steal and occasionally commit murder.

Unless immediate assistance can be summoned, the women are practically at the mercy of these ruffians.

With a telephone in the house neighbors can, at a moment's notice, be called in.

Or, in case of a sudden illness, during the night, to go for a doctor might mean the loss of a dear one's life.

With a telephone at hand, the doctor can, without loss of time, be summoned and, in the meantime, advise what to do.

It's every farmer's duty to himself and family to have a telephone. He can never tell at what moment it may be the means of saving a life.

But what he does want is a durable and reliable telephone—one that has a reputation behind it.

Write us for more particulars about this kind of a telephone, the cost of installing, etc. You can build and operate your own telephone line.
