

CANOPY HAMMOCKS

PATENTED MARCH 25, 1888.

Consists of a strong Hammock, made of thin elastic slats, so strung on galvanised iron cable as to make them flexible and yielding like a spring bed. The frame work is strong, though light and portable, and is surmounted by a beautiful striped awning, impervious to the glare of the sun and waterproof against ordinary summer rains. Ladies can recline on the hammock without the slightest risk of disarranging the dress. The slats do not close up like the ordinary netted hammock, so that it combines the convenience of a lounge or sofa with the coolness and comfort of a very easy and perfectly sheltered hammock. Gentlemen find it exactly what they want. It is strong enough to sustain five or six hundred pounds' weight, and proves a great attraction on either lawn or verandah. For children it is the best; they can climb into and out of it with the greatest ease and safety, and half a dozen may swing in it at the same time. This Canopy Hammock is well suited for taking to seaside and other summer resorts. It is packed in small compass, and only weighs 100 lbs. It can be easily set up anywhere, and is proof against wind and rain. Send for catalogue and prices. New canopies supplied on order any time very cheaply.
