WOULD LIKE BUTTON.
Dear Cousin Dorothy:—I was quite pleased to see my first letter in print, but I thought I would write again, and see if Cousin Dorothy would please send me a button. I sent a two cent stamp for a button the first time I wrote but did not get one. I am going to send another two cent stamp, and I hope I will get a button this time. I would like to become a member of the Western Wigwam. I will close for this time hoping to receive the button.

LAST YEARS CONCERT.
Dear Cousin Dorothy:—I am going to tell you how we go to school. We have a little pony; we drive him in a cart and four of us go. We have a mile to go to school and there are twenty-two scholars go. We had a Christmas tree last year with recitations and musical drills, but we don't know if we will have one this year. We have church every two weeks but we don't have Sunday School yet. We have forty-one horses, one cow, one calf, nine pigs, one dog and sixty-seven chickens. I am going to send a two cent stamp for a button.
I have four sisters and two brothers. With best wishes to the Western Wigwam.

LOVES THE BABY.
Dear Cousin Dorothy:—This is my first letter to the Western Wigwam. I have a sister fourteen, and a brother seven years. I go to school, and we have twenty-seven in our school now. Our teacher's name is Mrs. S.— There was a baby at our house to-day. Will you send me a button please, Cousin Dorothy?

CHAPTER XLVI— (Continued).

The Bourgeois still reclined very still on his easy chair. He was not asleep. In the daytime he never slept. His thoughts, like the dame's, reverted to Pierre. He meditated the repurchase of his ancestral home in Normandy and the restoration of its ancient honors for his son.

Personal and political enmity might prevent the reversal of his own unjust condemnation, but Pierre had won renown in the recent campaigns. He was favored with the friendship of many of the noblest personages in France, who would support his suit for the restoration of his family honors, while the all-potent influence of money, the open sesame of every door in the palace of Versailles, would not be spared to advance his just claims.

The crown of the Bourgeois's ambition would be to see Pierre restored to his ancestral chateau as the Count de Philibert, and Amelie as its noble chatelaine, dispensing happiness among the faithful old servitors and vassals of his family, who in all these long years of his exile never forgot their brave old seigneur who had been banished to New France.

His reflections took a practical turn and he enumerated in his mind the friends he could count upon in France to support, and the enemies who were sure to oppose the attainment of this great object of his ambition. But the purchase of the chateau and lands of Philibert was in his power. Its present possessor, a needy courtier, was deeply in debt, and would be glad, the Bourgeois had ascertained, to sell the estates for such a price as he could easily offer him.

To sue for simple justice in the restoration of his inheritance would be useless. It would involve a life-long litigation. The Bourgeois preferred buying it back at whatever price, so that he could make a gift of it at once to his son, and he had already instructed his

The treatment of **Asthma, Scrofula, Enlarged Glands, Consumption, Nervous Diseases**, by large Hypodermic Injections of Serum is a success.

This treatment goes directly at the cause of the trouble, renews the blood in two months, average duration of treatment, which unlike any other has the advantage of being painless.

Dr. J. C. R. Charest has made a special study of this treatment in Paris and has equipped himself to apply it in his practice. He can now be consulted daily at his office.

LOCAL TREATMENT FOR WOMEN'S DISORDERS

The health we enjoy depends very largely upon how the blood circulates in our bodies; in other words, if we have perfect circulation we will have perfect health. There is a constant wearing out of the tissues in every part of the body. The blood flowing through the veins carries off this waste or dead matter, while the blood coming from the heart through the arteries brings the fresh new living tissue, the essence of the food we have digested, to replace what has been carried off. This constant wearing out and expelling of the dead matter and the replacing of it with new matter, atom by atom, goes on day and night, until in about 7 years a complete change has been effected. Thus every man and woman has an entirely different body in every particle of it from what he or she had 7 years before.

It sometimes happens, however, from a variety of causes, that the blood becomes congested in certain portions of the body. This means that the blood vessels in these parts become weakened, and the circulation in that section of the body becomes sluggish and stagnant. The consequence is that the dead matter in that part of the body is only partially carried away, and that but little of the new, vital matter is introduced there to build up and strengthen the tissues and nerves.

This condition invariably exists in all cases of female disorders. The dead matter retained in the circulation, which should have been expelled, causes irritation and inflammation of the delicate membrane, and oppresses the nerve centres. This condition is the cause of the grievous physical and mental suffering which accompanies female troubles.

To obtain relief it is evident that the first thing to be done is to get rid of the dead matter which is being held in the circulation. If this dead matter is allowed to remain there a species of blood poisoning will result and nature will endeavor to get rid of it by forming ulcers, tumors, etc.

The above explanation will also show why **ORANGE LILY** is so successful in curing this condition. It is a local treatment, and is applied direct to the affected organs. Its curative elements are absorbed into the congested tissue, and from the very start the dead matter begins to be discharged. A feeling of immense relief, both mental and physical, accompanies it, and the improvement is constant and positive. This feature of the expelling of the dead matter is always present to a greater or less extent, and in some cases it is so marked as to be amazing. The case described in the following letter is not exceptional:

Dr. Cooney—I am thankful to Mrs. F. E. Currah, your Canadian representative for my health restored by your wonderful remedy. I have suffered for 17 years, but not so bad until 3 years ago. Then I had a doctor, who told me I had a tumor, and could live no more than a year. If I went through an operation I would not live through it. A year later I sent for him again, and he gave me up to die. My husband then sent for another doctor, who performed an operation, and it did me much good. I doctored with him 3 or 4 months, but became so bad again that I thought I could live no longer, and I began to long to die. One day my husband came home and threw a slip of paper to me with Mrs. Currah's address and told me a lady had advised him to write to her for a treatment that would cure me. I said it was too late, that I would die anyway. I could not lift a teacup without hurting me. Then the first doctor told me I was worse than ever. However, my husband sent for **ORANGE LILY**, and the third treatment brought away one tumor. Others followed, until 7 tumors had been expelled, 3 large ones and 4 small ones. I know if it had not been for **ORANGE LILY** I would have died, for I could not live much longer. I would have thought it cheap at one hundred dollars for a month's treatment, instead of one dollar. It is worth its weight in gold.—MRS. GEO. LEWIS, Huntsville, Ont.

The above letter is published with Mrs. Lewis' permission. All letters received are treated as being sacredly confidential, but occasionally some patient feels so grateful for being cured that she is willing to make the matter known for the benefit and encouragement of her suffering sisters.

ORANGE LILY is a positive, scientific remedy for all disorders of the female functions. As explained above these troubles are of local origin, and require local treatment. It is just as sensible to take medicine internally for female troubles as it would be to take medicine internally for a bruise, a boil or an ulcerated tooth. In all these cases some dead matter is being retained, and the cure is effected by employing local methods for expelling the dead matter. **ORANGE LILY** has antiseptic, soothing and healing properties, and also tones up and invigorates blood vessels and nerves. I am so anxious that every suffering woman may satisfy herself, without cost to her, that **ORANGE LILY** will cure her, that I hereby make the following
