

SOLD OUT of

Stewart Sheaf Loaders

We are receiving orders every day for Loaders and we cannot supply them. When we announced last year that we were arranging to build only 500 Loaders for 1912, it was difficult to make people understand that this number could not be increased on short notice. It takes 3 and 4 months to get our material after we order it. We have ordered material for 1000 machines for next year and anticipate that in August and September, 1913, there will again be many disappointed farmers and threshermen who will be unable to get Stewart Loaders because there will not be enough to go round.

The man who ordered early this year has a Loader!
The man who orders early for next year will get one!

Unfavorable Weather and Hired Help menace the Grain Grower at threshing time. The weather cannot be controlled, but the hired help problem can be solved at threshing time by using a STEWART SHEAF LOADER. On an average it saves 6 men and 2 teams on every threshing outfit. G. W. Stewart, Sedley, Sask., writes that last year it saved him \$33 a day in wages alone, not counting horse feed and board for men. We want your orders early for next year. Write for our book of testimonials. If you have any doubt about the Loader doing satisfactory work make a point of seeing it working this season. There are 550 in operation. It will pay you to spend \$25 to \$50 in convincing yourself that it is all right, to save \$500 to \$1000 next year.

Order early and save disappointment next year
