"Ponton."

RELATIVES AT FRONT Bishop of Kingston to Have Brother and Nephew There. The Bishop of Kingston has just received word in a letter from England that his brother Major R. P. Bidwell, second in command of the 101 Grenadiers (late first Bombay Infantry), of Bangalore, India, is on his way to the front, and has perhaps arrived there by now. He is only just convalescent from a severe attack of typhoid fever, or would probably have gone earlier.

MR. H. CORDES WAS REMEMBERED Mr. Harry Cordes, who has been a member of St. Thomas Anglican Church choir, was remembered last evening by his choral associates at a gathering at the rectory. The rector, Rev. Canon Beamish, read an address to Mr. Cordes and Mr. Westley on behalf of the men of the choir presented him with a gold wrist watch. The recipient, who is leaving shortly with the Fifteenth regiment volunteers for the Second Contingent, made a graceful reply. The watch is engraved with the words "Harry Cordes from the choir of St. Thomas church." A gift of a Bible on behalf of the ladies of the choir was also made to Mr. Cordes.

MR. H. CORDES TO VOLUNTEER Having heard that Pte. Pauley of the 15th Regt. had volunteered and had been accepted for active service, the members of the Belleville Council of Royal Templars of Temperance, of whom Pte. Pauley is an active member, decided to present him with a small memento in honor of the occasion. Accordingly on Tuesday evening, a number of members of the B.T. met at the home of Bro. Pauley, and Mr. S. Way as Select Councilor of the order, on behalf of the members, complimented Pte. Pauley on the step which he had taken and wished him good luck and God speed, and then asked Mrs. Anderson, Past Select Councilor, to present Pte. Pauley with an extremely neat and serviceable wrist watch. Mrs. Anderson in making the presentation, said that she hoped Bro. Pauley would be spared to wear the watch until it was worn out (hear, hear) Bro. Pauley to whom the gift came as a great surprise, in thanking the members said that he was proud to do his duty. Mr. and Mrs. Pauley who were also present, were congratulated on giving such a sturdy son to help in the fight for England and Liberty.

Bicycle Stolen Mr. J. D. Diamond, West Bridge street, reported last night that a bicycle had been taken from in front of his grocery.

JINGOIZING BUSINESS Confidence in the Made-in-Canada campaign might well afford now and then to break forth into jingoizing. An old song went the round of the London music halls in 1878 when England and Russia were on the verge of war over the Turkish question. There was a large war party in England composed of both Tories and Liberals and a war poet made a song of which one verse has become famous: "We don't want to fight, but by Jingo if we do, We've got the ships, we've got the men, we've got the money too". There is an industrial war party in Canada just now, and it consists of Canadian citizens not from both political parties, but without reference to parties whatever. This Made-in-Canada party is national. Recognizing that in an industrial crisis this country has everything necessary to grapple with conditions, it may be pardoned for inflicting this commercial parody on the old song: "We know how to fight, and by Jingo when we do, We've got the power, we've got the men, the raw material too."

GEN. KARL VON BUELOW. years he has been recognized as one of Germany's foremost military tacticians, and he has been instrumental in building up the quartermaster's department of the German army. His long and varied experience makes him of great value to the Kaiser in the present war. Gen. von Buelow was born in Potsdam in 1846 and is therefore sixty-eight years of age. As a youth he entered the German military service and gradually advanced through the various grades. His first appointed position came when he was quartermaster-general of the general staff of the guards. This was in 1890. Twelve years later he was made quartermaster-general of the general staff of the army and in 1903 became commanding general of the Third Army Corps. In 1904 he was a general of infantry and later given command of an army.

FOUGHT WITH BARE FISTS. "When the Fourth Milescot regiment was ordered by the Germans while at dinner with their arms stacked," a correspondent with the British army cables, "the British soldiers, unable to reach their weapons, rushed upon the foe and attacked them with their bare fists." The Gordons arrived in time to aid them and beat off the Germans."

ASTHMA CAN BE CURED. Its suffering is as needless as it is terrible to endure. After its many years of relief of the most stubborn cures no sufferer can doubt the perfect effectiveness of Dr. J. D. PREPARED TO FIGHT. West Indian Islands Arm For Deadly Strife. A cargo of war talis has arrived from the West Ind... Every nation there sleeps with his gun under his pillow. Little specks of islands that no one ever heard of north of the Tropic of Cancer are throwing up towering earthworks and barbed-iron defenses, yesterday's nobodies, are to-day's generals; roustabouts are soldiers; every town has a guard, every island distrusts every other island. Ten thousand rusty flintlock muskets rule the land and from the sea come tales of strange men of war threading in and out among the islands, always seeking and never finding one another.

At Barbados, every negro and Chinaman on the island has joined the army. They have what they call a "life guard," to protect the place. What they are afraid of I don't know, but I heard that they have been told the Kaiser was planning to send his fleet over to capture the place. "That was enough for these natives. They threw up a line of breast-works and they are a cannon every time a ship is sighted. They have burnt up a lot of powder that way. I understand whenever the old cannon cuts loose the army comes like a hot-potato from the shore. They line up behind the breast-works with their machine-loaders and their derringers and you've got to show them that you don't mean any monkey business." At Dominica, near St. Thomas, the natives have built a little fort just to fight the German navy when it does come over. There are not enough white men in Dominica to hold a meeting and not many more colored. In the centre of their fort they have planted a tall flag pole. Every morning at daylight a man pulls himself up to the top of that flag pole with a pulley, lashes himself fast and sticks there, looking out to sea. He is looking for the German navy. Two hours later he comes down and another man takes his place. This has been kept up every day for weeks, from dawn till darkness.

VOJ BUELOW A VETERAN. Commander of One of Kaiser's Armies is 68 Years of Age. Noted among the commanders of the Kaiser's military forces is Gen. Karl von Buelow. In the dash into France von Buelow commanded one of the armies that composed the centre of the German line. The other was commanded by Gen. von Kluck. Gen. von Buelow is a veteran in the German military establishment and won his high place only by long years of faithful service. For many years he has been recognized as one of Germany's foremost military tacticians, and he has been instrumental in building up the quartermaster's department of the German army. His long and varied experience makes him of great value to the Kaiser in the present war. Gen. von Buelow was born in Potsdam in 1846 and is therefore sixty-eight years of age. IMPURITIES IN THE BLOOD come from defects in the action of the liver. They are revealed by pimples and unsightly blotches on the skin. They must be treated inwardly, and for this purpose there is no more effective compound to be used than Parmelee's Vegetable Pills. They act directly on the liver and by setting up healthy processes have a beneficial effect upon the blood, so that impurities are thence to maintain, for these pills must always stand at the head of the list.
