She lived and labored 'mid the lowliest

That grew through common duties; now I know Since she has gone from me and all her

cares, I entertained an angel unwares -American Magazine. Appeal on Behalf of Halifax Ladies'

College. BY REV. ROBERT LAING.

The occasion has again arisen for making an appeal to the Presbyterians of the Maritime Provinces on behalf of their LADIES' COLLEGE. It is the proud dis-tinction of the Presbyterian Church in the Maritime Provinces that she occupies a position of the first rank as a Missionary agency, that she has given liberally out of her abundance and out of her poverty for the support of secular and theological education. But where does she stand in the matter of furnishing the means of an adequate education for her young women? Where does the Presby-terian Church in Canada stand in this membership, out of her missionary so-

to her women. Count them out of bermembership, out of her missionary so-cieties, out of her working societies of all kinds, and what poor. skeletons of organizations would remain! The work of the church is largely done by women, and on that ground alone, the church is bound to make ample provision for their proper education.

But it may be said that the object proposed is to provide a high class education of which only the rich or the well-to-do can avail themselves. Why then appeal to all for help in such an enterprise? Why not let those who have reasonable hopes of being benefited by them, establish and support such institutions? I ask, in reply, why not apply the same rule to universities, and colleges, and theological halls where men are educated? These institutions have been equipped and endowed by the contributions of rich and poor, and thus the rich man's son and the poor man's son can take advantage of them. Do the same thing for a high the poor man's son can take advantage of them. Do the same thing for a high class education for young women and the same results will follow. I venture to say in the light of recent experience in the matter of the education of women and on the ground of common justice, should not enjoy equal educational admen have been liberally endowed even in these Maritime Provinces, and why should not the same thing be done for throat. Th

tirely inadequate. Last September, on the opening of the classes, it was found necessary to remove the Conservatory of music to a house near the college which the Board were fortunate in being able to secure. This arrangement, although the very-best that could be made in the circumstances, is expensive, inconvenient and inadequate, and could not be continued for any length of time. We must have a bome for our Conservatory within our own grounds. Our Dining Hall is too small. There are 225 students at present attending the college and Conservatory of Music. Of this number 75 are resident students. Even of these together with eight or ten resident tends of people claim that no remedy known will relieve colds, catarth, bronchist and at thousands of people claim that no remedy known will relieve colds, catarth, bronchist country, etc., as promptly as the good old Johnson's Liniment. If it cures them you do support the content of the content of the college and Conservatory of Music. Of this number 75 are resident students. Even of these together with eight or ten resident tends of people claim that no remedy known will relieve colds, catarth, bronchist and at thousands of people claim that no remedy known will relieve colds, catarth, bronchist and it has cured me. I believe it the best country etc., as promptly as the good old Johnson's Liniment. If it cures them your new ill grow, it is evident that we must have a Dining Hall far beyond present dimensions. In the next place we need a larger Assembly Hall and additional dormitories. In a way let is use. Send them your name.

HOSPITAL REMEDIES.

What are there? The growth discenses and treated with distemper and a peculiar dor dor totally unlike ulcerated sore throat is noticeable. If the disease is of the black of the black or totally unlike ulcerated sore throat is noticeable. If the disease is of the black or totally unlike ulcerated sore throat is noticeable. An old hospital nurse in To the Editor: But our appeal on behalf of the Halifax Ladies' College must be made on a more definite basis. For this purpose it will be necessary to give a brief statement of the affairs of the college. Within two years a beautiful and most convenient site has been purchased, buildings have been erected, and the whole furnish. have been erected, and the whole furnished at a cost of a little over \$40,000. Fears were entertained at the time that our buildings were projected on too extensive a scale. It is most gratifying to know that results have not justified know that results have not justified these fears. Already our buildings are too small, and our accommodation entirely inadequate. Last September, on the opening of the classes, it was found

myst have a Dining Hall far beyond present dimensions. In the next place we need a larger Assembly Hall and additional dormitories. In a word, let it suffice to say that the college is at present full to its autmost capacity, besides having a rented house outside. It will thus be seen how urgent the demand for a class of genuine, reliable make the seen how urgent the demand is for increased accommodation.

But for that purpose, it is needless as been created. They are the favority provided Dining and Assembly Halls on provided Dining and Assembly Halls on soft rooms for Conservatory of Music, and additional dormitories for about 40 students, and to furnish the same will cost from \$17,000 to \$18,000. How then is it proposed to raise this amount? (1) By ordinary stock subscriptions, as hither to. (2) By subscriptions other than stock.

The Synod of the Maritime Provinces at its meeting in Charlottetown passed.

Use Seavey's East Iudia Liniment. 12

As a result of the re-arrangem

stitution, our young women need it, and it is on these grounds mainly that this appeal is based.

The college is at present both financially and educationally a marked success. But to insure progress, to maintain its constant of the success. But to insure progress, to maintain its need to success. But to insure progress, to maintain its need to success.

Bad blood causes dyspepsia and dys, epsia reacts by causing bad blood. So both go on, growing worse, until the whole system is poisoned. The surest means of relief for the victim is a thorough and persistent course of Ayer's

The fishway invented and patented by Inspector Rogers, of Nova Scotia, is being adopted throughout France, Finland and Russia, as well as in numerous localities in the United States.

Miss Bessie H. Bedloe, of Burlingto Vt., had a disease of the scalp which caused her hair to become very harsh and dry and to fall so freely she scarcely dared comb it. Ayer's Hair Vigor gave her a healthy scalp, and made the hair beautifully thick and glossy.
