DE LAVAL
CREAM
SEPARATOR

Here's why the De Laval is the cheapest machine to
 buy:
 It will pay you in cream saved from \$3 to \$5 a cow
 every year over an inferior or half-worn-out cream sepa-
 rator.

It will pay you in cream saved from \$10 to \$15 a
 cow every year over gravity skimming.
 It will give you a heavier and better cream, the kind
 the creameryman wants, the kind that gives you more
 skim-milk for your stock.

It will last two to ten times as long as other cream
 separators. Figure it out for yourself and you will see
 why the De Laval is the most economical.

And added to it all is the immeasurable satisfaction
 of owning a machine that "works like a charm" 365
 days in the year.

We know that when we sell you a De Laval we sell
 you a machine you'll be proud to own. We sell them on
 liberal terms. Come in and talk it over.

Asks \$40,000 for Woodsman's Heart

**Greenville, Me., Wife Sues Wealthy New
York Woman, Alleging She Won Her
Guide's Affections -- Clouds Have Been
Gathering for Some Years, it is Said.**

Dover, Me., Feb. 21.—Mrs. Gertrude
L. Turcott, of Greenville, wife of Peter
Turcott, a guide, has brought suit for
\$40,000 against Mrs. Cornelia J. Nel-
son, of 609 West 113th street, New
York, alleging alienation of her hus-
band's affections. The writ is return-
able at the March term of Supreme
Judicial Court for Piscataquis county,
to be held in this town.

The attorneys connected with the
case are Phillips B. Gardner, of Ban-
gor, and ex-attorney General William
R. Pattangall, of Augusta, for the
plaintiff. Associated with them will
be Boston and New York lawyers.

Mrs. Nelson, the defendant, is the
wife of Thomas Nelson, of 609 West
113th street, New York city, having a
summer home at 1228 Constant ave-
nue, Peekskill, N. Y., where Mr. Nel-
son has been mayor. The Nelsons have
a palatial summer residence on Moose-
head Lake, where they spend from four
to five months of the year. In

connection with their camp they main-
tain a \$25,000 gasoline yacht.

Peter Turcott, a handsome woods-
man and guide, has been the private
guide of Mrs. Nelson for the past few
summers and has passed his winters
also at New York city in the employ
of Mrs. Nelson. During the summer it
has been the custom of the Nelsons to
fish and hunt independently of each
other, employing two guides.

It is alleged that clouds have been
gathering in the household of the Tur-
cotts for several years. Mrs. Turcott's
estrangement to her husband has been in
Greenville during winters have been
without avail. Her domestic troubles,
she is said to have taken to Mr. Nel-
son without result.

During the last winter that her hus-
band remained at home Mrs. Turcott
alleges that he kept a large portrait
of Mrs. Nelson on the bureau in his
sleeping room. The Turcotts own a
handsome little home in Greenville and
are the parents of several chil-
dren.

Telephone Service in N.Y. Relaxation of Discipline, World-Wide Responsible

[New York Sun.]

The Public Service Commission's
findings in its report to the State As-
sembly on telephone conditions in
New York have a number of items of
interest. There is no denial of de-
terioration in the service. But when it
comes to explaining the cause of the
trouble and telling how it can be re-
medied that is a more complex matter.
The trust summing up of the situa-
tion is found in this paragraph:

An analysis of the causes of the break-
down of a service formerly regarded by
the public as remarkably efficient and
which was the pride of the company soon
disclosed that no single remedy could be
applied and that no combination of re-
medies could be made immediately effec-
tive. In order to restore the service to
its former condition there must be ap-
plied the utmost efforts of the company
aided and stimulated by the commission
for a considerable period of time.

The same thing might be said of
railroads and other enterprises in
which the public is vitally interested.
For their weakness, as in the case of
a rundown human constitution, there
is no specific remedy, and only a
quack will affirm that there is.

So, it is hard to see exactly
what the remedy must come by way of slow
steady building up, by processes of
nourishment and repair.

It is true the commission holds that
the company might have sacrificed a
larger part of its dividends to supply
the extra cost of doing business in
this difficult period. This may be
so. But it is hard to see exactly
where the line should be drawn when
so many enterprises are taking large
returns. It is not maintained that
the profits of the telephone company
are exorbitant. It is simply held
that the owners should be willing to
cut those profits for the public good.

The commission states that improve-
ment has been made in the service.
Some time will be required before the
former efficiency can be restored. The
company must do its part and the
public must exercise a degree of pa-
tience.

The difficulty of securing operators
is too obvious to need emphasis. The
service has also suffered from a cer-
tain relaxation of discipline that per-
vades all enterprise since the war's
close. Moreover, as the report re-
calls, the Government forbade plant
development of telephone companies
during the war and the results must
be endured now. All this would not

excuse any company from making its
best efforts toward improvement. But
the public, on the other hand, must
not ask impossibilities.

PLANES TO SEEK SCHOOLS OF FISH

Washington, Feb. 21.—The Bureau
of Fisheries plans to encourage fish-
ing by airplane. The planes will be
used to aid tuna and sardine fisher-
men in finding schools of fish. The
use of aircraft to locate submarines
during wartime gave the bureau the
idea.

FIX UP WAR CLAIMS BRITISH SOLDIERS

New York, Feb. 21.—Among the pas-
sengers on the steamer Carillo, of
the United Fruit Line, arriving here
yesterday from Colombia and other
Zone ports and Jamaica, was Captain
John A. Ravenscroft, of the British
War Office, on his way to Trinidad
and the British colonies to settle
war claims of British soldiers who
were recruited in those colonies and
lost their lives while being transport-
ed from London to Egypt.

Capt. Ravenscroft has been in Ja-
maica settling similar claims.

TO EXPORT FLANNEL TO UNITED STATES

London, Feb. 21.—The Chronicle
learns that a syndicate has purchased
from the India office and the War
office, of London, thirteen and fifteen
million yards of flannel for £1,500,000.
It is stated the flannel will be export-
ed to the United States. A rumor
was current in Bradford some time
ago that a syndicate of West Riding
manufacturers were negotiating such a
transaction.

VANCOUVER DRY DOCK.

Ottawa, Feb. 21.—The government
has approved the application of Mes-
srs. Coughlin & Sons, Ltd., of Van-
couver, for the construction of a dry
dock in Vancouver harbor. One of
the conditions of acceptance is that
work shall commence within thirty
days from the date of the subsidy
agreement.

ACQUITTED OF CHARGE.

Gloucester, N. S., Feb. 21.—Joseph
MacDonald, charged with manslaughter,
following an investigation by offi-
cials of the crown, of the death of
Daniel McDonald, who succumbed at the
General Hospital following an assault,
has been acquitted by the Supreme
Court.

PERSONAL.

Mrs. Ligon Ard, wife of Commander
Ard, of New York City, arrived here
last week to visit her aunt, Miss
Martin, King street. Mrs. Ard was
formerly Miss Gladys Hodson, and
she is being warmly welcomed by
many old friends.

F. C. Hunter, of St. Stephen, is a
guest at the Barker House.

Mrs. Joseph L. Cain and Miss Mar-
garet Feeney, who had been spend-
ing a few days in St. John, returned
home Friday night.

Miss Wilfred Smith, of Westmount,
Que., is the guest of her sister, Mrs.
C. Fred Chestnut. Miss Mary Chest-
nut, who was visiting her aunt in
Montreal, returned with Mrs. Smith.

The many friends of Dr. Frank
Phinney will regret to learn of the
very serious illness of his only child,
with malignant typhoid fever at his home in
Cincinnati.

Major (Rev.) E. B. Hooper, of St.
John, was in the city, a guest at the
Barker House over the weekend.
