ASSIGNEE'S NOTICE.

TAKE NOTICE that Frank Hachey of the Parish of Rogersville in the County of Northumberland and Province of New Brunswick, Merchant, pursuant to the provisions of Chapter 141 of the Consolidated Statutes of New Brunswick entitled "An Act Respecting Assignments and Preferences by Insolvent Persons" did on the SECOND day of November instant make a general Assignment for the benefit of his creditors to the undersigned, John O'Brien, of Nelson, in the said County of Northumberland, High Sheriff of the said County; and also that a meeting of the Creditors of the said Frank Hachey will be held at the office of E. P. WILLISTON, Esq., in the Town of Newcastle on FRIDAY the FIFTEENTH day of November A. D. 1907, at three o'clock in the afternoon, for the appointment of Inspectors and giving of directions with reference to the disposal of the estate and the transaction of such other business as shall legally come before the meeting.

And NOTICE is further given that all creditors are required to file their claims, duly proven, with the said assignee within three months from the date of this notice, unless further time be allowed by a Judge of the Supreme or County Court and that all claims not filed within the time limited or such further time, if any, as may be allowed by any such Judge, shall be wholly barred of any right to share in the proceeds of said estate and that said Assignee shall be at liberty to distribute the proceeds of the estate as if any claims not filed as aforesaid did not exist, but without prejudice to the liability of the debtor therefor.

Dated at Nelson aforesaid this SIXTH day of November A. D. 1907

JOHN O'BRIEN,
High Sheriff of the County of Northumberland,
Assignee.
No. 6-3m.

Permanent Results

"I had been suffering for over two months with an obstinate cough, as had also my little girl. We tried several remedies common to any drug store without obtaining any apparent relief, in fact we were growing worse. I got a bottle of Coltsfoot's Expectorant from my druggist and inside of two days the cough was stopped, and the results so permanent and rapid that we decided to keep it in our home continually."

SYNOPSIS OF CANADIAN NORTH-WEST.

Homestead Regulations.

Any even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situated. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

- (1). At least six months' residence upon and cultivation of the land in each year for three years.
- (2). A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.
- (3). If the father (or mother if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or) mother.
- (4). The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.
- (5). A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

REVOLUTION IN SHIPPING LAWS.

After January 1st, 1909, Coasting Trade Will be Restricted to British Ships.

OTTAWA, Tuesday.—A most important change of policy as regards our coasting trade is published in the Canada Gazette to-day. It involves the abolition of the coasting privilege heretofore granted to a number of foreign countries in Canadian waters. It is true that it is only a notice of abrogation, because it will not take effect until January 1, 1909; but it will nevertheless have a most important bearing upon the future of the Canadian merchant marine.

The Governor in Council has been pleased to order that the orders-in-Council admitting ships of the following countries to the coasting trade of the Dominion of Canada on the same terms and conditions as are applicable to Canadian vessels, viz:—

As to Italy.—Order in Council 13th August, 1873; As to Germany.—Order in Council 14th May, 1874; As to the Netherlands.—Order in Council 28th October, 1874; As to Sweden and Norway.—Order in Council 5th November 1874; As to Austro-Hungary.—Order in Council, 1st June, 1876; As to Denmark.—Order in Council 25th January, 1877; As to Belgium.—Order in Council, 30th September, 1879; and as to the Argentine Republic.—Order in Council, 18th May 1881; shall be and the same are hereby repealed, on, from and after 1st January, 1909; and that the exemption existing under the Orders in Council hereby repealed, shall cease to apply to the ships and vessels of Italy, Germany, the Netherlands, Sweden and Norway, Austro-Hungary, Denmark, Belgium, and the Argentine Republic, on, from and after the 1st January, 1909, and that the ships and vessels of each of the said countries, on, from and after the said date shall be subject to the terms of Section 955 of Chapter 113 of the Revised Statutes of Canada, 1906, which provides that no goods or passengers shall be carried by water, from one port of Canada to another, except in British ships.

THAW TRIAL APPROACHING END.

The Censor of Public Morals Testifies For Defence.

NEW YORK, Wednesday.—The end of the second Thaw trial is fast approaching. This was indicated late today when Chas. Wagner, first of attorneys to be called by the defence took the stand for preliminary examination. Anthony Comstock, vice-president of the Society for Prevention of Vice had been heard earlier in the day, and Mrs. Thaw, mother of the defendant, had completed her testimony. The kindergarten teacher who had charge of Harry Thaw as a lad also testified and the day was marked by a long stride toward the conclusion of the case.

Comstock's testimony, while new, has been discounted by the facts of Thaw's appeal to him to assist in closing up houses where Stanford White was alleged to have maintained elaborately furnished apartments and where young girls were said to have been mistreated. A dozen letters Thaw wrote Comstock regarding the matter and giving detailed description of the 24th Street house were admitted in evidence and read to the jury.

OLD, OLD QUESTION REVIVED BY OTTAWA CLERGYMAN

OTTAWA, Jan. 23.—Rev. Dr. Hender son of the Dominion Methodist church, in a sermon recently reverted to the question of dancing, theatre-going and kindred amusements. He said that he had no patience with ministers who fulminated from pulpits against these things as being inherently evil, whereas in themselves they might be quite innocent. He strongly urged, however, that the objections of the Church should be made on the higher grounds of their tendency to divert too much from the really important concerns of life and immortal destiny. Speaking of the waste of time and the vanities of devotees at society's shrine he declared that the pagan Indian who clung to his old crude heathen customs was on a par with the ultra society set, which led a butterfly existence and ignored the real duties of life. Earl Grey and Lord Middleton attended.

QUICKLY!

TO IMPEACH D. C. LIEUT. GOVERNOR.

Motion to That Effect Disturbs The Serenity of The Legislature.

VICTORIA, B. C., Wednesday.—Following Monday's meeting of council of the government as an amendment to the throne address which is not yet disposed of, the House was treated yesterday to a still livelier scene on a resolution for the impeachment of Lieutenant-Governor Dunsmuir. After all the British and Canadian authorities on constitutional procedure were exhausted the speaker reserved his decision.

Two objections were offered, one that the resolution was offensively worded, it being contrary to the rule of the house to speak disrespectfully of the Lieutenant-Governor, and the other was that as the British North America Act empowers him to reserve his assent to a bill, the Lieutenant-Governor had acted constitutionally and that if he had not, the legislature could not review his conduct, as he is amenable alone to Ottawa.

REGULAR BARGAIN.

"You refuse me?" said the ardent youth.
"Indeed," replied the beautiful girl, "then I shall go off to war. Suppose I return minus an arm, minus an ear and minus a chin. Suppose I return a mere remnant of a man? What would you say?"
The beautiful girl brightened up.
"I should accept you on the spot. I always had an irresistible fascination for remnants."

SOVEREIGN BANK OFFICERS DISMISSED

Liquidation Expected to Take Two Years From Date.

TORONTO, Wednesday.—General Manager Jemmett of the Sovereign Bank has sent to each member of the staff an official notification of dismissal, to take effect three months hence. The notice affects every one in the service, with the exception of the General Manager himself and possibly one or two close to him. The number thus cut off is 391, comprising thirty-six in the Toronto office, fifteen in the head office, forty in Montreal and three hundred in the seventy-five branches of the bank.

It is believed that the services of Mr. Jemmett will be required by the bank for the next two years in the capacity of liquidator. At a meeting of the directors of the Sovereign Bank this afternoon, called to consider the ratification of the agreement with the other banks, it was found that the document was incomplete, whereupon the meeting adjourned. No date for the meeting of the shareholders was fixed.

U. S. SAILORS UNDISCIPLINED.

NEWPORT, Jan. 22.—As a result of a fist fight between two naval opponents on board the United States navy ship Cumberland, at this port, H. A. Hortnet, aged 25, of Philadelphia, died Saturday at naval hospital O. O. Manning, 20, of Middleton, is under a sentry's charge, awaiting an investigation into Hortnet's death. The fight it is said was due to the bullying methods of Hortnet, who ordered Manning, a much smaller fellow, to do something, and when he did not move fast enough pushed him. Manning resented this and they fought it out later with gloves and rounds. The fight was a hard one but in the seventh round Manning caught Hortnet on the jaw, sending him down for the count. He did not revive and died today without ever gaining consciousness.

BRUTAL MURDER IN MAINE.

Old Man Found In Bushes Chubb'd To Death.—Motive Unknown.

ST. STEPHEN, N. B., Wednesday.—A brutal murder has been committed near Woodland, the new paper town, ten miles up the river on the Maine side. An old man named Andrew Higgins lived alone in a log hut on the Baileyville Road. He hadn't been seen for some days and this morning neighbors started to investigate. Just outside the door of his hut they found two pools of blood and following a bloody trail they found his body in a clump of bushes two hundred feet from his door.

The body was face upwards with the head terribly beaten and crushed apparently with a club. The authorities at Woodland were notified, and a coroner is to hold an investigation tomorrow. As yet there is no clue to the murderers and it is hard to ascribe a cause though it may have been robbery for the old man is reported to have recently received a small sum of money. He has one son in Everett, Mass., a daughter at Little Ridge, and they have been notified of the tragedy.

AFTER AN EXPORT DUTY ON OUR PULP WOOD

Ottawa, Friday.—Hon. J. D. Rol land of Montreal, President of the Canadian Manufacturers' Association, was in Ottawa recently interviewing Sir Wilfrid Laurier and other Ministers to urge that the Government legislation be introduced this session providing an export duty on pulpwood, and making more adequate provisions for conserving the forests of Canada, on which largely depends the preservation of the splendid water powers of Ontario, Quebec and New Brunswick. The Canadian Manufacturers' Association intend to continue urging this question upon the attention of Federal and Provincial Governments until adequate measures are taken to attain the end in view.

Sir Wilfrid expressed his sympathy with the views voiced by Hon. Mr. Rolland. It is probable that a Royal Commission will be appointed this session to take up the whole question of forest preservation, and the concomitant question of prohibiting the export of pulpwood. Parliament would then be next session fully seized of all the facts and needs of the case, and any legislation would be based on the authoritative report of the commission. It is unlikely that any legislation will be passed this session imposing an export duty on pulpwood.

JAPAN TO IMPORT A NUMBER OF AIRSHIPS

PARIS, Friday.—The rumor that Japan has acquired a number of Frenchbuilt airships already, and has ordered half a dozen more for use in connection with the army and navy, had been so persistent in Paris last week that I called today at the Japanese Embassy to enquire what was in the report. It was there said that the only person competent to answer the question was the Embassy's military attaché, now absent from Paris. In this connection I later called upon M. Juliot, chief engineer of the great aeronautic establishment of Messrs. Lebaudy at Molsion, and asked if he had received any order from the Japanese. M. Juliot smilingly replied that he would rather not be quoted on the subject. He spoke freely, however, as to the role airships will play in any future international conflict.

"Any amateur can see," said M. Juliot, "what an important part a steerable balloon can take in military manoeuvres on either land or sea. It would be more successful in scouting and reconnoitering operations than any other system yet devised."

Moreover, with the present development of knowledge in the handling of such craft well in advance of technical improvement, they can even now be used as fearful engines of attack. For example, it would be perfectly possible now for a steerable balloon to carry a thousand pounds of explosives and drop them with great accuracy at any given point. Bridges for troops could thus be demoralized at little cost and little danger."

"Papa," said Hal, "I wish you would give me 25 cents a week instead of 10."

"Why do you want more money?" asked his father.

"I don't want more money; but a quarter is bigger than a dime and when you lose it you can find it easier."

Said she—"If we appear together so much people will talk about us."

Said he—"Well, suppose we disappear together."
