# MARKETS % and FINANCE

Thursday, Jan. 7.—Trade was fairly brisk in some lines on Central market this morning, though the supply was poor, with the exception of the butchers' row, which was well stocked. A big supply of beef met with a ready remand, and prices remained steady. Live hogs were a little firmer and lambs easier. On the grain market oats advanced to 42 cents, and chopped corn dropped five cents. No other noticeable changes occurred, the market generally being steady.

Standard prices at 8 a. m. were:

JUNCTION HORSE MARKET.

There was a better feeling at Monday's market at the Union Horse Exchange at West Toronto. A large number of dealers and buyers were present, and nearly all offerings were sold. Prices realized were not up to expectations of some of the sellers. Farmers are holding for higher prices; this in turn has the effect of lessening the trade from what it would otherwise be. But, notwithstanding this fact, Mr. J. Herbert Smith, manager of the Union Exchange, reports trade as being much brighter, with a fair demand for all classes of horses. Prices at Monday's and Wednesday's sales were quoted as a long of the selection of the Minister of Labor has been drawn to the fact that he got a salary of only, \$500 at 40, 100 at 41, 200 at 41, 200 at 41, 200 at 41, 200 at 20.1-2. NEW YORK MARKETS

Reported by A. E. Carpenter & Co., 102 King street east.

The early market was irregular and unsettled, with strength in a number of stocks usually leaders in the trading. There was good buying of R. I. stocks on talk of fine earnings and of power in larger degree for the common stock. Colorado Southern issues were higher on talk of agreement of Pennsylvania for a Burlington bond. Gossip was then if Alton increases its dividend the effect on freight stock will be favorable. Buying of cars for foundry was for Duluth interests. Shorts covered in N. Y. C. and elsewhere. Copper metal was lower abroad. High class buying was claimed in Consumers' Gas, attention being called to the statement that the new plant of the company can produce gas at a cost of 10 cents per thousand less than the the company can produce gas at a cost of 10 cents per thousand less than the old ones. A large private borrowing de mand was said to exist for stocks. Selling of U. P. and Steel looked good. I bond market is in excellent condition

# the Towerman-never heeds

duty's urgent call. The Express dashes by -and many lives hang by a slender thread.

For the signal says—the track is clear—no warning sign of the freight ahead no notice of the lurking near of death's dread doom—while the towerman sleeps.

A monstrous jolt--a deafening crash---fearful shrieks---heartrending groans---as grinding---tearing---ripping smashing—this giant "thunder-bolt on wheels shears into the slower moving bulk ahead.

To err is human.

This chance of railway travel you all take on roads that depend on safe guards run by man.

The only sleep proof man proof danger proof positive - automatic and sure safety device is the Price System for Automatic Stopping and Controlling of Trains.

## TEN SHOCKS PER HOUR. Godfrey De Bouillon Knights

Messina in a Tremor Mostly All the

Time. Burying Bodies in Trerches Among Quick Lime.

are still continuing here, at the rate of about ten per hour. Fire this on the rollingent, conducted the ceremonies, Lake Frie Perceptory, of Burfalo, was represented by Em. Sir Knight Welsh and others. Messina, Jan. 7.—Earthquake shocks

broken out, completing the destruction of the city hall and the records stored therein.

The authorities have determined to isolate Messina as the only means of preventing an outbreak of serious illness. The relief parties—complain that the starving refugées refuse the most nutritious food, and want only macarroni. The work of tae soiders in Messina to-day consists principally in gathering up dead bodies and burying them in trenches between layers of quicklime. Out of respect to religious feeling it was determined no. to burn the dead.

The work of relief is now well under way in Messina, but the smaller towns in the interior are being neglected. Ships arriving on the scene will henceforward be sent to the coast towns and parties will go inland with supplies.

The English have established a splendid relief camp in the hills behind San Giovanni.

The work of searching for survivors is still going on, and vesterday seven living.

After the degree had been conferred an adjournment was made to the banquet hall, where the tables were laden with land, where the tables were laden with a disjournment was made to the banquet hall, where the tables were laden with land, where the tables were laden with land where the tables were laden with and journment was made to the banquet hall, where the tables were laden with and journment was made to the banquet hall, where the tables were laden with and journment was made to the banquet hall, where the tables were laden with and journment was made to the banquet hall, where the tables were laben with land, where the tables were laden with and journment was made to the banquet hall, where the tables were laben was list of coast low and sourch land, where the tables were laden with all, where the tables were laben was list of canda. The work of searching for survivors is

The work of searching for survivors is still going on, and yesterday seven living persons were taken from the ruins.

The majority of those now found alive are children and elderly people.

It is evident that they did not expend their energies in vain eforts to free themselves. The policy of clearing Messima was inaugurated yesterday, with the refusal of the authorities to furnish people with food unless they agreed to embark for transportation elsewhere. This should be done to discourage peasants coming down from the mountains to take advantage of the free distribution of rations.

HELP FROM U. S.

HELP FROM U. S.

Rome, Jan. 7.—A special train left here this morning for Vitavecchi, with the American relief party, headed by Ambassador Griscom on board.

They will sail for Messina on board the steamer Bayern, chartered to convey them to the South.

The Ambassador is going only as far as the Strait of Messina, where he will start the Eayern on its work of relief. He will meet Admiral Sperry, who is coming from Port Said on board the flagship Connecticut in the strait, and yeturn with the Connecticut to Naples. The American battleships following the Connecticut north will be placed at the disposal of the Italian authorities.
