NOTES.

NOTES. Little Nipissing was the feature of yesterday's mining markets. The stock was in active demand and touched 38 on orders from Cobalt. There was continued selling of Temis-kaming, which sold freely around 144, and receded to 143. Beaver was also a shade weaker, but trading was not heavy. The general tone of the whole market was easier, but with the con-tinued dullness prices held up very well. Trethewey was firmer, and advanced a point, closing at 146. A record price was pail yesterday for, a seat on the Standard Stock Exchange, whon Mr. Orlando Heron bid \$2,025 for the privilege. The highest price pre-viously paid was \$1,850 and a year ago the price was \$475. PRICE OF SILVER. Bar silver in London, 23 3-16d oz. Bar silver in New York, 50 3-8c oz. Mexican dollars, 44c. Reported for the Times by A. E. Car-penter, broker, 162 King street east: New York, April 1.—Noom-The mar-ket during the morning developed Lon-don purchases of 10,000 shares and in-creased general interest associated with expected return of Mr. Harriman, his remarks at Chicago causing some fresh buying, as in Alton, which he says is the best road in Illinois, and has been improved 250 per cent, at two-thirds the cost of other lines. Rumor of the shift-ing of a block of 50,000 Denver common to Harriman interests of Chicago & Northwest caused a sharp advance. The Northwest en is the only important line in its territory without an "extension to the Pacific coast. Union Pacific tracks would have to be used to reach Denver and Rio Grande. The street is reaching for a solution of the street, of Denver aside from earnings, which will accrue from 'the Western Pacific connection.
