Synopsis of Canadian Northwest Land Regulations.

ANY person who is the sole holder of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

IN certain conditions a homesteader of six months may pre-empt a quarter-section alongside his homestead. In certain districts, price \$1.00 per acre. Duties—Must reside six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra. A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$1.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$500.00.

COL. RENNIE IN COMMAND

Of Trek From the Niagara Camp Last Night.

The Inspection of Artillery Was Begun Yesterday.

Camp Hospital Practically Empty—Sanitary Arrangements Good.

Niagara-on-the-Lake, June 19.—Yesterday was a cool and bright day, and everyone was busy in the camp. It was an especially important day for the Army Medical Corps, who were inspected by Lieut.-Col. Jones, D.G., M.S., of Ottawa, and later ordered out at short notice, just as in active service, and sent to follow up an imaginary army who were fighting an imaginary enemy somewhere in the direction of St. Catharines. The order was received during the afternoon, and by 4 o'clock the men from the four companies—the 10th, 11th and 13th of Toronto, and the 12th, of Hamilton—were out on parade, 175 strong, in full marching order. Lieut.-Col. Jones accompanied the corps, which was under the command of Colonel Rennie, of Hamilton.

It was the intention of the commanding officer to follow the imaginary army for a distance of about twenty miles, and to arrive back to the main camp by about noon. It was the first occasion for the firing of the new rapid-firing field guns, with which the Fourth and Seventh Batteries have recently been armed. The authorities are reticent about explaining the gun too freely. It is a formidable weapon, throwing shells at an effective range of 7,000 yards at the rate of twenty per minute. During the middle part of next week it is hoped to give the men some target practice firing at a floating target a couple of miles out in the lake.

Both artillery and cavalry horses behaved well while the firing lasted. Last year at the sound of the opening volley, a regiment of cavalry in an adjoining meadow were promptly unhorsed. Yesterday they were warned in time and suffered no indignity.

Major Carruthers, A.A.G., for signaling, inspected the signaller; Col. Williams inspected the cavalry brigade, and Captain Hallcock, of the Canadian Ordnance Corps, Headquarters Staff, inspected the men's equipment. The remarkable cleanliness and the general perfection of the sanitary arrangements of the camp are worthy of special praise. Every piece of refuse is deposited in an incinerator and completely destroyed, leaving no possibility of infection. In consequence the hospitals are practically empty.

Great preparations are being made at headquarters for the garden party to be given this afternoon by General and Mrs. Cotton to the officers, while the military ball is scheduled to take place at the Queen's Royal on Tuesday night.

On Thursday next, the Field Day will be held, with a tattoo at night and on Friday a march past of the entire brigade will be held. The men from the ranks play off baseball matches each evening after the work is done. Teams from the 24th Regt., the 12th Field Battery, the 10th Army Medical Corps, and the 4th Field Battery, providing the entertainment yesterday.

Ensign G. R. Turk gets good audiences nightly at his mission meetings in the Y.M.C.A. tent.

BOBBY'S VICTORIA DAY.

Bobby was terribly disappointed. Who wouldn't be, after he had saved all his pennies for firecrackers for the 24th, to have the new neighbor next door ask him not to make any noise, as his little girl was very sick?

"Girls always are a nuisance," Bobby said crossly to his mother. "And they aren't any fun. I just won't keep still. Why can't I go to the park?"

His mother said, "Why, Bobby, girls aren't so bad. You know mother was a little girl once. I would gladly take you to the park if I could go."

Instantly Bobby was sorry he had been cross. His mother was an invalid, and could only go to the park when his father wheeled her there in the big chair.

"Why don't you take some of your pennies and get the sick girl some flowers?" And, she said, "if you play quietly in the back yard you can ask some of your boy and girl friends to come in and play. We will get ice cream and cake instead of firecrackers, and I will tell you fairy stories."

All the children were delighted when he told them, for they all loved Bobby's sweet-faced mother and her fairy stories.

After the children had gone home the little neighbor girl's father came over and thanked Bobby for the flowers and for helping keep the other boys and girls quiet. He said, "I know how hard it is for little boys to keep quiet on the 24th. Now, the doctor said my little girl will be well soon, and then I will take Bobby out driving, with her in my big automobile."

"You see, it pays to be kind," Bobby's mother said. And he agreed.

"Age brings wisdom," remarked the Wise Guy. "Yes, but the trouble is it doesn't leave us much time to use it," added the Simple Mug.

West Mount Survey

Choice Home-Sites

TO OUR MANY INQUIRERS:—We now offer this most picturesque and attractive subdivision of future building lots, unequalled by any yet placed or to be placed on the market.

Its splendid situation, grand view of the mountain side, and new city park, high and dry elevation, properly graded avenues, shade trees all planted, cement sidewalks in course of construction on the south side of Hillcrest avenue, the west side of Chedoke avenue, and the south side of Aberdeen avenue, and to be paid for by us; every lot restricted, township taxes—all tends to make this beautiful property the "Westmount" of Hamilton.

As a Safe and Profitable Investment

It will compare with any suburban lots in Hamilton during the past fifty years. Building lots two blocks east of Westmount are selling at four times the price that we now offer lots for on this survey. ONE PRICE TO ALL, whether you buy one or ten lots, and \$25 SECURES A LOT. Balance can be paid in easy payments, spread over a term of years, if desired.

Come up to our branch office, corner Aberdeen and Flatt avenues, any afternoon or evening, where our representative will be pleased to meet you and show you the lots. H. & D. car to office door.

Recipes

Rhubarb Marmalade. Boil for twenty minutes four pounds of rhubarb, cut into small pieces, leaving the skin on. Add the juice of five lemons and the rind, which has been sliced off thinly, boiled in a little water for about twenty minutes, or until soft, then chopped fine. To this add six pounds of granulated sugar, one pound of blanched almonds, chopped or cut, and one wineglass of Jamaica ginger. Boil all together until thick. The almonds may be omitted, if desired, and still leave a delicious marmalade.

Sour Milk Cake. One cup sugar, one-half cup butter creamed together, add two well beaten eggs, one cup of sour milk, one-half a teaspoonful of soda, dissolved in a tablespoonful of hot water, quarter of a nutmeg grated, two rounded cups of flour. This makes a cheap and good loaf cake.

Oat Bread. Pour one pint of boiling water over three-quarters of a cup of rolled oats, add a cupful or less of left-over cooked oatmeal and a small tablespoonful of lard, and cool to lukewarmness. Have ready one heaping quart of flour mixed with one teaspoonful of salt and one-half cake of yeast dissolved in one-quarter cup of water. Put into the soaked oats half a cup of molasses. Pour this over the flour, stir all together and let rise overnight. It will be soft and sticky, but add as little flour as possible to make into two small loaves. Bake from 30 to 40 minutes.

Stuffed Steak. Take about two pounds of fresh, tender round steak, sprinkle with a teaspoonful of salt and tablespoonful of pepper; spread with a chopped onion and a half cup each of seasoned tomatoes and bread crumbs, mixed; roll and tie in a shape with a cord. Place in roaster and bake for 40 minutes, basting often. When done, cut the cord and serve.

Fruit Bouillon. Add to one quart of cold water one dozen washed prunes, one-half cup of seedless raisins and one-fourth cup of cleaned rice. Cook slowly. When about half done, add one tablespoonful of sugar, one large diced apple and juice of one small lemon. When done, thicken with one teaspoonful of corn starch, dissolved in cold water. Serve at once with hot buttered wafers.

Cereal Coffee. One cup oatmeal, one cup bran, half-cup cornmeal, half-cup of pearl barley, half-cup of brown sugar. Mix all together and brown slowly in oven. For serving use one tablespoonful to each person and boil 20 minutes. The leftovers of oatmeal, prunes, chicken and rice used as follows:

Chicken Puffs. Two cups of finely chopped cold chicken, four egg yolks well beaten, one-half teaspoonful of salt, a saltspoonful of paprika and one of celery salt. Mix well, beat the whites of the eggs very stiff, fold in lightly and drop by the teaspoonful in a kettle of boiling fat. Fry a light brown. Drain on paper and serve at once.

Rhubarb Jelly. Cut cleaned stalks in short pieces, put into preserving kettles, allowing a cup of water to two pounds of rhubarb. Boil till it is a soft pulp, put into jelly bag and drip without pressing. Return juice to kettle, allowing one pound of sugar to one pint of juice, stir till the sugar dissolves, and boil rapidly until it jellies when tried on a cold saucer; skim when necessary. While hot turn into tumbler; when firm and cold cover with paper or paraffin.

Summer Drinks. (By Cornelia C. Bedford.) Ginger Beer—Dissolve two pounds of granulated sugar in two quarts of boiling water; add two ounces of ginger root, chopped fine, one ounce of cream of tartar, two lemons thinly sliced and let stand until almost cold. Then add four quarts of cold water, one yeast cake and the beaten whites of two eggs. Stand in a moderately warm place for twenty-four hours, then strain, bottle

and tie down. Ready for use in about three days.

Welsh Nectar—Peel the yellow rind from three lemons, add two quarts of boiling water and two pounds of granulated sugar. When cold, add the strained juice of the lemons, one pound of seed-cake raisins chopped fine and six quarts of water. Let stand five days, stirring twice a day, then strain and bottle.

Pineapple Lemonade—Peel, eye and grate a large ripe pineapple; add the strained juice of four lemons and one pound of sugar and one pint of water boiled together for three minutes. When cold add one quart of water, strain and ice.

Mead—Ten gallons of water, two gallons of honey, one-half a pound of ginger root, two lemons thinly sliced. Boil for two hours, skimming well; let stand overnight, add one half of a yeast cake and barrel. Ready for bottling in three weeks.

Mead quickly made—Two pounds of sugar, one pint of strained honey, one-quarter of a pound of tartaric acid, two quarts of boiling water. When cold, add if flavor is liked, one-half ounce of essence of sassafras. In using put three tablespoonfuls of the mixture in half a glassful of ice water, add one-quarter of a teaspoonful of baking soda and drink at once.

Strawberry Acid—Dissolve two and a half ounces of tartaric acid in one quart of cold water, then pour over six pounds of hulled fruit. Let stand for two days then strain, taking care not to bruise the fruit. To each pint of liquid add one pound of granulated sugar and stir until dissolved; the entire process is cold. Put in bottles, set in the cork, but do not tighten for two weeks. Fruit acid may be prepared in this way.

Material is a new lustrous corded material which bears the ministrations of the laundress remarkably well, and is being generally used for street costumes.

The illustration shows a charming combination of the plain material with a printed piece in soft colors. A yoke of tucked net and buttons covered with the figured fabric form the only trimming in this material. The design is exceedingly smart in its simplicity. The wide lay-down collar and the turn-back cuffs are merely stitched.

It will be noticed that more material is being used—a greater freedom and bouffancy in the skirts, which will be welcomed by all.

"Yah!" "What's the matter, boy?" "I hate to turn this darned old grindstone!" "You ain't turning this darned old grindstone, son; you're just cranking it up!"—Louisville Courier-Journal.
