to that it is intended to contract for the whole venty millions at once. It is supposed that in rider to prevent the operation from pressing ith any under weight upon the money market, in instalments will be small and so distant from each other as to be approad over a period of two same before the whole of the payments are comtated. This rumour has caused some flatness at he business of the English market, but prices are not been affected by it.

The Toulon Journals of the 17th instant state at Cholera had been evidently on the docline here for several days, but they had received ac-

pener on the 17th uttime, as wound seing completely healed.

Lonnon, July 25.—The French ministerial papers of Wednesday night contain a telegraphic dispatch from Bayones, 21st inst, which states that Don Carlos retired on the 17th to Arbuza, where he was joined by the rest of the Carlist army; and that in the action of the 16th the Carlists had a great number of officers killed and wounded. The principal part of the Christine, troops arrived at Pampelum on the 19th, with the prisoners made on the 16th

The silness of the President of the Chember of Peers had prevented the conclusion of the

led of the Facha's troops in a sortis made on the 15th utt.

"The second was mall known by the graph as would have before the fact was notified to the public. The Relgian police had asselved orders to by hands upon these persons, and to delive them over to the French authoraties. No such orders have been issued to the police here, and the Government is resolved that Begium shall not be converted into a harbor where those accused of state crimes in France, or any other sountry, may find refuge.

We copy today another letter of "X. Y. Z." from the Quebec Gazette of Wednesday, in reference to the present Executive Coun eil of this Province. It is now pretty gene rally allowed that as a whole, this body has lost the confidence and support of all classes in the Colony. The functions which it has long exercised, are a perfect mockery of those which were originally assigned to it in the solitical Constitution of the Province. It is ot our intention to trace the causes of the An Personant and a beginning of a body which implies to progrowing by Both and to the control of the control legradation of a body which ought to poss no small influence on the course of

sity. We should not, in fact, have reliabed any sudden change, however judicious in appearance, for we should then have doubt.

The appearance, for we should then have doubt.

The second of the Executive Council; but we most carneally beg that such a Council may be speedily formed, as shall be thoroughly competent to the discharge of those duties which are assigned to it by the Constitution.

There are assigned to it by the Constitution.

We shall take an early opportunity of adverting more at length to this subject.

To the entropy of the such a Carrying Eleves Stons. Two miles and time in passing the other constitution in the state of the Vindical Races.

A Sweepstakes of £5 each. Entrance Five Bollars. Carrying Eleves Stons. Two miles and time in passing the other constitution in the state of the vindical state of the vin

Agency of the control verting more at length to this subject.

To the should on the part of the Ministers bring a bill on the subject of tithes in England at sensoion.

It was asserted on the authority of letters one Germany, that the Northerr government are preparing to acknowledge Dun Carlos as ing of Spain, and that Count Alardia, the agent the latter at Visnus, had almost daily interest rune. It was supposed that the defeat of Donarlos in his attempt to get vocassion of Bilbon, ould operate unfavourably for his interests rund.

Longos, Friday eneming, July 24.—It has son generally reported today that the West In as loss in the point of being negotiated, and so that it is interested to the point of being negotiated, and so that it is interested to the point of being negotiated, and so that it is intended to contract for the whole centry millions at once. It is supposed that in or to provent the appendix of from pression that it is intended to contract for the whole centry millions at once. It is supposed that in one of the point of being negotiated, and so that it is intended to contract for the whole centry millions at once. It is supposed that in one of the point of being negotiated, and so that a so the apraval over a period of two prevents as to be agressed over a period of two prevents as to be agressed over a period of two prevents as to be agressed over a period of two prevents as to be agressed over a period of two prevents as to be agressed over a period of two prevents as to be agressed over a period of two prevents as the payments are compared to the contract of their length to this subject.

To the Entropy of the Encentive Councilian; then it length to the State of the Encentive Councilian; the subject. I may be a subject to a contract of the defeat of the council on but the original powers of the Governor inchessed that it is the subject. I may be a subject to the council of the provided that the council of the provided that it is the subject. I may be a subject to the council of the provided that the council of the

body of the British inhabitants who live by their own industry, and contribute in a very large measure to create the revenues of the country, and ensure its advancement in wealth and prosperity, and comfort. Their lot is cast in the country. If I understand rightly their views,—and I think I do,—they claim a due share in the government of the Province, founded on their numbers, their wealth, and their acquirements and annerman. They, will seen them spirit of English subjects, in fairness to all other rightful claimants) which they are entitled to, both in passing and executing the time. They have no great predeliction for holders of places; and while they consent to pay them fairly, they will expect that they will perform their labours scalously and with ability, considering them not as their governors and masters, but as their servants; they will not permit them any longer unnecessarily to interfere with any other duties than those of their office. These are, I conceive, some of the views of the Constitutional, into generally; they are the good old English notions, which have much contributed to make England prosperous and great. Bogland prosperate and great.

I am, Sir. a Member of the Constitution

Quebec, Sept. 2, 1835.

We beg to assure " A Lower Canadian." that the operations of the Commissioners of the Richelieu River, about which he seeks nformation, are to us, as well as to a great nany more, involved in profound mystery.

Sts,-You will oblige me, as well so many others, by answering, if you can, the following

£50. Mile Heats. Weights for age.

Mr. J. Clarke's c. g. Trump..... Mr. T. B. English's c. h. Ploughboy.... The first heat, Ploughboy kept a-head till he last quarter when he was crossed by opponent being about a length before

tart, and both horses kept alongside of each ther till the last quarter, when Ploughboy went a-head, and came in handson A SWEEPSTAKES.

Fifteen Sovereigns each. Mile and a half Heats. Owners riding. Half forfeit. Captain Doyle's Shamrook, late Tyke, 6 years old,—chery body, light blue

aptain Markham's c. m. Canada Lans. 5 years old,—black, with St. George's This race being so badly contested, it is nworthy of notice. After the regular races were over, five

bridle, which were won by one belonging to Mr. PROVANDIE. The day's sport, on the whole, was good, although rendered irksome by the time that

Canadian ponies started for a saddle and

In order to suit the ground and use expense in occavation.

It will be necessary in marking out the route along the t haddere, either to avoid the Is not exposed to be flooded, for to calculate the expense of embankment in places where it may be more avantageous to raise the trailway above the level of the flood.

In order partly to control the floods of this river, a dam might be thrown across it where it leaves Lake Megantio, with a chice, by which the state of the control the state of the control that the control the control that the control that the control the control that the control the control that the control th

that it is not broken by streams of considerable size.

With respect to the lower part of this river, it will have to be determined by survey, whether it will have to be determined by survey, whether it will be preferable to keep the route on the high ground, which would render it necessary to have a high viaduct for crossing the Chaudière, or by continuing near the surface of the river, incur the expense of greater execution on the steep bank, to be compensated by a lower viaduct.

On the eastern bank of the River du Loup, there are several streams of considerable size, forming deep ravines, to cross which would send of the money long sent forming deep ravines, to cross which would send of the money long sent forming deep ravines, to cross which would send of the money long sent forming deep ravines, to cross which would send of the money long of the mother and the New York Br distress would be the consequence.

dowed:—
"An institution like the United States Bank, as towering above all other institutions in the magnitude of its means, and so concentrated in the spring of its notions, has a lawys the power to excite the morements of business to a dangerous sativity, or to depress them to a ruinous in action. If one of the most powerful local constitutions abould suddenly go upon a policy of rapid curtailment, other institutions would insmediately become its deltors, and would be lable to be called on for spacie. Yet there are few, if any, of the local line futures, so powerful but that all the claims they could create, might in time of spacie plantifulness, to paid up without any severe change in the oreinary course of oth. time of specie plentifulcess, he paid up without any severe change in the ordinary course of of er institutions. But when the United State LEVERTOOL, JULY 25, 1835.

Lake Megantic, with a sluice, by which the second counterpart of the fine of the fine counter of the fine counterpart of the state of

them. Five shots were discharged; one man a shot through the body, and another had the of his knee shot off. One house was set on for the purpose of burning out some negroes posed to be up the chinney. The firement stand to the another had been declared to be the shot but many.

The Intelligencer ways:—The shouts of rage is the cry of sufferings as some one sunk until the blows with almost indiscriminate fury—presented a scene equally singular and presented that no blacks riving. It must be observed that no blacks to be seen in the crowd at this place, was a centest of honest and respectable cities anxious to preserve the public peace, and preserve the city from conflagration against a not of midnight brawlers ready with citie and to seek and fire the house of defenceless dunoffending people. d unoffending people.

The mob mostly consisted of the very lowest

together with apprentices and boys own. If ever the spirit of anarchy an i misrule stalk.

We have perused an extraordinary product of Mr. J. George, of Quebec, on the other Trade between Canada and Britain the author had given the Public the data which to show the plausibility of his assured round numbers, the document would suredly carry considerable weight with it.

The Indians of Caughnawaga, and those the Lake of Two Mountains, are to disty their skill and agility in running, and in game of La Gross, on the Race Course, Wednesday next. It is expected that apports will be well contested, and highly resting, from the competition being been Indians of different tribes. Mr. Gran, properietor of the Course, has liberally per string from the Course, has liberally properietor of the Course, has liberally produced the string for the surface of the course, and highly resting, from the competition being been Indians of different tribes. proprietor of the Course, has liberally scribed fifty dollars for prizes to the wine, and as much more is expected to be

hed by voluntary subscription. Although Flying Childers came in first h heats for the Beaten Plate on Friday, onent-Daniel O'Connell-was de-

red the winner, in consequence of a cross ing been proved against the former.

** Formioners" treated the public to a ond letter on Saturday, even more puerile ing to the calledne. He heard them specially and another the blow with a stick was given the control of the control o
