

WEEKLY CALENDAR - AUGUST. Table with columns for Day, Week, and High/Low water levels.

WATER, SUMMER ARRANGEMENTS. The water for the neighboring provinces, &c., will, until further notice, be made up and forwarded as follows:-

Farm and Garden.

The Key to Profitable Farming. In my recollection, I often find this question put: "How shall the peasant make farming profitable?" It is not easy enough to see how a man owning a large section of virgin soil, can transfer something of its fertility to his plow, and make money of it. He has capital to work it, and a good market for what he can make money of, but it is not so easy to see how he can make money of it.

Miscellaneous. Garibaldi. It is not difficult to account for the intense and growing interest with which the world regards Garibaldi's career. Soldiers have Providence more evidently provided a special name for a special work. As a sea captain, a warrior, and a politician, his gifts, mental and moral, are alike remarkable. In the minutest detail and in the broadest generalization, his skill and success are equally striking.
