Whence Manitoba Derives its Name.

Manitoba Lale, which has given name to the I rovince formed out of the Red River region is called atter a small island, whence, in the stillness of the night, issue strangely sweet, mysterious sounds. The Ojibway Indians who dwell in that neigh borhood believe the island to be the home of Manitoba the Speaking God, and will not land on or approach it for any consideration, hinking they would desecrate or profane it, and that they would meet with some terrible fate for their impiety. The sound is caused, it has been ascertained by the beating of the wayes on the large pebbies along the shore.
