THE DOMINION ELECTION

The selection of a candidate at the Northumberland County Liberal Convention to be held in Chatham June 15th instant, should draw a full quota of delegates from every polling division in the constituency. The main question before the people of the North Shore at the next Dominion Election, which may be very near, will undoubtedly be the Reciprocity negotiations with the United States. Reciprocity was often sought by the leaders of the Conservative party who, when in power, appeared fully as anxious for it as the Liberals now. However, at that time the United States were unwilling to negotiate. Now that the southern government has changed its attitude and freer trade seems a very near probability, the opposition at Ottawa, who would undoubtedly have welcomed the United States proposal had they been in power this year, are dead set against it.

The Conservative change of front looks too much like factional opposition rather than patriotic consideration for the country's welfare, to suit the thinking portion of the electorate. They have, it would seem, made a great tactical blunder in deciding to fight a measure providing for the abolition or reduction of duties between us and the neighboring nation. The price of living is too high, and the people will welcome anything that promises to reduce it. The people will stand for more freedom of trade than the Government offers, but not more protective duties according to the Conservative ideals. We want not merely freer trade with the Republic but absolutely free trade with Britain and the rest of the British Empire. The day of high tariffs is going and cannot go too soon.

There is no Conservative in sight who is likely to be able to wrest this country from Mr. W. S. Loggie, should the latter again be the Liberal Standard bearer. In his support of the Reciprocity pact, and in his tireless energy in behalf of his constituents Mr. Loggie has won the favor of many voters and seems likely to keep it for an indefinite period.

AN IMPORTANT VERDICT

In St. John on the 24th ult., the jury to inquire into the death of Wm. McArthur, a member of the chain gang, who died in the General Public Hospital in April, returned a verdict, says the Daily Telegraph, to the effect that the prisoner came to his death as a result of oedema of the lungs brought on by undue exposure while handcuffed to a post in an open shed. They added that in their opinion the guards had exceeded their duties in so chaining the man, and recommended that in the future these officials be given definite instructions as to their duties. They also found that while McArthur was in the jail he did not receive proper treatment or food. They recommended that the sanitary conditions of that institution should be improved, and condemned the practice of marching the prisoners, handcuffed, through the streets to work.

That a prisoner was done to death by such means in a Canadian city is no credit to our new Dominion. The above is, doubtless, no isolated case, for such things happen in other places than St. John and much more frequently than is generally supposed. The relatives of William McArthur have, it appears to us, good ground against the city of St. John upon which to base a claim for heavy damages.

GOVERNMENT REGULATION OF PRICES

According to a Washington dispatch of last week, Elbers H. Geary, chief Executive officer of the United States Steel Corporation,

declared on the witness stand before the Stanley Steel Trust investigation committee, that enforced publicity and governmental control of corporations must come, **EVEN AS TO PRICES.** When the head of a Trust admits such a tendency of the signs of the times, the feeling in favor of the public ownership and operation of all lines of business that are now monopolies must be rapidly increasing in the United States, as well as in Australasia, Canada, Britain and the continent of Europe.

A PROGRESSIVE COMMUNITY

The laws of the Isle of Man have long been advanced. Every woman, widow, or spinster, in the Isle of Man, whether she be owner, occupier, or lodger, enjoys the Parliament franchise. Every widow enjoys half her husband's personal estate, and has a life interest in his real estate, and she cannot be deprived of this by will. The sale of cigarette and intoxicant to children was forbidden in Man for years before such a prohibition was enforced in England itself. England has legislated mildly against money lenders. The highest interest that can be charged for a loan in the Isle of Man is 6 per cent, and that has been the law for over two hundred years. And there are many more instances in which Manx law-makers have adopted progressive measures with entire success.—Ex.

THE TRUST DECISIONS

The real significance of the judgments of the supreme court of the United States in regard to the Standard Oil trust and the Tobacco trust, is the condition of things they expose. The country is trust-ridden in regard to the necessities of life; oil, tobacco, lumber, steel, copper, beef, fish, agricultural implements, a score of other things, and while the court orders the trusts already tried to dissolve, it is questionable if any great relief will result.

That is a sorry condition of affairs. But there is more behind. There is substantially a money trust—made up of certain leading banks in New York—and the grip of this one is greater than all the rest. The savings of the people, whether in the banks or in the reserves of the insurance companies, are in the hands of the money trust. The railways are more or less a trust.

We believe some great political and financial revolution is impending in the United States.—Toronto World.

FACING AT THIRTY

When Woman Should be in the Prime of Charm and Beauty.

At thirty to thirty-five a woman should be in the prime of charm and beauty, and yet many women begin to fade before then. Wrinkles appear and the complexion grows sallow. Dark rings surround the eyes, and headaches follow, with backaches and low spirits. The cause of this is simply need of blood nourishment. Good pure blood is the life of a woman's beauty and health. It is good blood that brings the glow of health to the cheek, brightness to the eye, and elasticity to the step, and the general happiness of good health. When woman feels jaded and worn out her blood supply needs attention, and the one unrivalled and sure remedy is Dr. Williams' Pink Pills, which supply the rich, red blood that repairs the waste, dispels disease and restores the brightness and charm of womanly health.

Mrs. H. G. Hart, Winnipeg, Man., is one of the thousands of sufferers who owes her present health to Dr. Williams' Pink Pills. She says: "I had suffered for a long time, not knowing what the trouble was. I had doctored with several doctors, but only seemed to be growing worse. The last doctor I had told me the trouble was anaemia, that my blood was turned to water and that my condition was serious. But his treatment, like the rest, did me no good. I got so bad that if I excited myself, or went upstairs, I was completely out of breath and felt as if I was going to suffocate. My heart would palpitate violently, and at times I would suffer with terrible pains from it. I had a yellow complexion, my lips had lost their color, and I had no appetite and could not eat. I grew so weak I could hardly drag myself along, add my feet seemed to have weights on them. I was so completely run down that I thought I was going into consumption. At this time a friend urged me to take Dr. Williams' Pink Pills. After taking a few boxes I found my health improving, and after taking the Pills for a couple of months I was entirely well, and have since enjoyed the best of health, and I feel that I can never say enough in praise of Dr. Williams' Pink Pills."

These Pills are sold by all dealers in medicine or sent by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville Ont.

MRS. GEORGE BOGLE

The death occurred on May 26, at the home of her daughter, Mrs. P. Dawson, Upper Nelson, of Bridget, widow of George Bogle, of Barnaby River. The deceased had been an invalid for the past two years, and had reached the advanced age of eighty-one years. Mrs. Bogle resided in Barnaby River for sixty years and two years ago, owing to ill health, went to reside with her daughter. She was highly respected by a large circle of friends and acquaintances. She was a daughter of the late John Milles of Chatham, and is survived by one brother, Wm. residing in Isle of Wight and a sister, Ellen, of Bangor, Me. Also surviving are one daughter, Mrs. Patrick Dawson, of Upper Nelson, and six sons, John, George and Peter at Barnaby River, William, Berlin, N. H., Joseph and Samuel of Rumford Falls, Maine. The funeral was held on the 28th at 9 o'clock. The remains were taken to Barnaby River and interred beside those of her husband who died some years ago. Rev. E. J. Bannon conducted the services at the church. The pallbearers were Messrs. Thomas G. Clarke, Michael Dawson, Thomas Dawson, William John Dawson, Michael Walsh and Patrick Maloney.

The woman of today who has good health, good temper, good sense, bright eyes and a lovely complexion, the result of correct living and good digestion, wins the admiration of the world. If your digestion is faulty Chamberlain's Stomach and Liver Tablets will correct it. For sale by all dealers.

AUSTRALIA VS. JAPANESE

Melbourne, Australia, May 31.—William Norris Hughes, Acting Premier of the Commonwealth, in a remarkable article which he has contributed to The Sydney Telegraph declares that Australia will never agree, except at the sword's point, to admit Japanese immigrants, even should such refusal mean separation from the mother country.

The Tenderfoot Farmer

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations. It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds himself regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak," the action of the organs of digestion and nutrition are impeded and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."
