

Here and There

A party of 50 Australian boys will be the guests of the Exhibition at Toronto from August 30th to September 3rd. They are public school boys from all parts of Australia and their visit to Toronto will be made on their way home from the British Empire Exhibition.

British Columbia is now the third manufacturing province of Canada, with 2,673 manufacturing establishments, over 41,000 employees, invested capital amounting to nearly \$225,000,000 and a value of products of approximately \$260,000,000, according to Government statistics.

New Brunswick in 1923 produced more coal than at any other time in her history. The output for the year exceeded that of 1922 by more than 12,000 tons and amounted to 261,091 long tons. It is estimated that this industry creates a value of over \$1,100,000 annually, most of which goes out in supplies and wages for the benefit of the province.

What will probably be the last big round-up of horses in the West will take place shortly in the range country south-east of Calgary, Alberta, for the purpose of clearing the range of stray horses. The horses will be gathered in one central corral, where owners may claim their animals. It is anticipated that about 10,000 animals will be secured. The Department of Agriculture is supervising the arrangements.

Unlimited praise from prominent citizens and the press of Alberta is given the Canadian Pacific Railway in connection with the Company's recently announced branch line construction program, affecting the southern portion of the province. C. E. Mitchell, member of the Provincial Legislature for Bow Valley, describes the announcement as the most important made in many years.

"Perhaps the most noteworthy fact we discovered was the vastly improved psychology of the people of the west to that which existed a year ago," commented E. W. Beatty, President of the Canadian Pacific Railway, on his return from a recent inspection of the Company's property. "They are full of hope and confidence and realize, as the east should realize, the tremendous benefit to the whole of Canada of a second consecutive large harvest."

The number of big industrial undertakings projected for immediate construction on the coast of British Columbia provides a striking indication of how that province is going ahead. A \$400,000 logging railway up the Skeena River Valley, a \$1,000,000 mill plant at Chemainus, a \$200,000 amusement centre at Victoria and a \$500,000 sawmill at Port Coghlan, with about \$10,000,000 in power plants in the Seave Lake District are some of the more important and a host of smaller projects are also under way.

Practically all Canada's production of newspaper for export in March was absorbed by the United States. Of March shipments amounting to 127,583 tons valued at \$9,756,530, the United States received 126,848 tons, valued at \$9,617,823. The only other Canadian exports of newspaper of importance were 699 tons to South Africa and 1,037 tons to New Zealand. It is expected that April shipments will show an even greater proportion of consignments to the United States.

The concentration camp for emigrants to Canada and the United States maintained by the Canadian Pacific Railway and other steamship companies, is located at Southampton, England. It has an average daily attendance of 600 and, on some days, the number is about 1,000. Comfortable quarters and meals at moderate cost are provided and features of the camp are the special dining-room for Jewish passengers, the private shower baths, with towels and bathing gowns supplied and the individual rooms which are also available.

TEACHERS MEET AT MONCTON

Dr. W. J. S. Myles Demanded a Higher Standard for Teachers

At the session of the New Brunswick Provincial Teachers' Institute in Moncton on Wednesday, Dr. Carter in an address said there were too many examinations in the lower grades, but he thought there should be tests at the end of Grade 8 and Grade 11. He advocated free text books.

Dr. H. V. B. Bridges, Fredericton, in a paper spoke of the idea of making the standard for teachers higher and offered the suggestion of extending the period of Normal training.

Hon. Augustus O. Thomas, Commissioner of Education for Maine, spoke at the meeting this evening on the subject "Modern Tendencies in Education." Dr. Carter presided. Deputy Mayor Camille Gelliveau extended a cordial welcome to the visitors. He eulogized the Moncton Board of School Trustees who are using 43 per cent of the city's revenue for local educational purposes.

A letter was read from the Moncton Teachers' Association favoring holding of the Provincial Institute at Easter instead of June. Carried.

On motion, the Institute placed on record an appreciation of Dr. G. A. Inch's long service as secretary and as a teacher in the province and expressed the hope that health and comfort may be his for many years to come in the retirement he has sought. Dr. Inch made a suitable reply.

Principal W. J. Myles, St. John High School, demanded a higher standard for teachers else the community's course would be low. The way to do it was to raise the entrance standard and thus put the extra expense of preparation upon the student at home. There was very little evidence of the average entrance candidate having any real mastery of a subject. He thought that the standard of scholarship 25 years ago was higher than it is today.

Miss Violet Knapp read an instructive paper on Food Values. Moncton in supplying milk to pupils is doing most valuable work.

Talented Daughters of Dr. and Mrs. Cox

Miss Katherine Cox daughter of Dr. and Mrs. Philip Cox of Fredericton, in a sense duplicated an achievement of her mother, formerly Miss Jennie M. Mowatt of St. John, when the latter graduated from the St. John High School at that time Miss Mowatt won the Governor-General's medal for general proficiency in her work for that year. Her younger daughter has this year won the Governor-General's bronze medal for the highest marks in English and was also tied with the leader in mathematics.

94TH ANNIVERSARY

Last Sunday, the local Methodist Church celebrated the 94th anniversary of its inception in Newcastle. Special services were held in the morning, afternoon and evening.

Rev. Robt. G. Fulton of St. John, President of the N.B. and P.E.I. Conference being the speaker at all the services. In 1830 under the ministry of Rev. Michael Pickles a missionary, the first Methodist Church was built in Newcastle. The building is still standing, and is being used as a wood working factory by Mr. Norman Anderson. The present church was built in 1866 and remodelled and a tower added in 1894. Further repairs and basement were made in 1920. The number of families connected with the church is about 60 with a membership of 118. The present pastor is Rev. A. W. Brown, who left last week for England on a vacation to visit his parents.

The Real Paymaster

By Robson Black, Manager Forestry Association.

By Robson Black, Manager Canadian Forestry Association

Forests are jobs. Trees mean "made" Logs are the raw material, not of lumber or paper, but of pay cheques.

It is an incidental matter that it is a very important matter that the forest gives us 120,000 work men supporting a half million of Canadian dependents and distributing 500 million dollars to maintain Canadian prosperity. Conservation would never bother itself in trees if trees were not the substance of human employment.

The forest Protectionist would not sweat a drop for a square mile of Spruce if he did not know that some vast industry, a thriving town and a thousand contented homes are tied to Spruce trunks by an inseparable bond.

We Canadians set 6,000 forest fires a year and nine-tenths of them through human recklessness but those beacon lights of prodigality mean nothing if they do not tell us that they have put the torch to the livelihood of thousands of men; we have signed an unrenounceable note for our children and our grand-children to pay. Let it be laid down as an ugly and undisturbable fact that in the present situation with forest demand jammed hard against dwindling forest fire must be paid for. Every mile of Spruce or Pine or Fir given to the annual bonfire will have to be bought back by the next generation in higher cost of lumber and paper.

I forfeited industries; in dwindling public revenues and a sacrifice of population.

Principle of Church Union Bill Approved

Ottawa, June 27—The principle of the church union bill was approved in the House of Commons at 1 A.M. Friday, when the Brown amendment to clause two, providing that the bill would come into force on June 10, 1925, carried in committee vote, 110 to 55.

Clause two was defeated. It is the Duff amendment asking that the courts be asked to rule on the jurisdiction of the Presbyterian Assembly to present the bill and of Parliament to enact it.

Nearly two days' discussion in committee had resulted when the House rose tonight, in the adoption of the first three clauses.

The vote came at the end of a sultry debate which saw members of the various parties divided against each other. Government and Conservative leaders indicated that every member of the House was committed to no opinion but his own. The Prime Minister and his senior member of the cabinet, Hon. George Graham, too opposite sides. In the vote however, Messrs Meighen and Folke supported the Brown amendment, as did the whole Progressive bloc. Premier King voted against it, having in mind his amendment to clause 28, which suggests the reference of the question of jurisdiction of the Supreme Court.

The Cheerful Woman

Is One Who Has the Rich, Red Blood of Good Health.

The fact that one woman is bright-eyed, rosy-cheeked, strong and cheerful while another is pale, weak and depressed is due more often than otherwise to the condition of the blood. The way to remedy this depressed state is to build up the blood, and for this purpose there is no other tonic can equal Dr. Williams' Pink Pills. A case in point is that of Mrs. Melvia Abra, Graveley street, Vancouver B.C., who says:—"About two years ago I was a very sick woman. I seemed to be wasting away and getting thinner all the time I grew so weak that the doctor sent me to the hospital, but the treatment there did not help me and I returned home. Then I tried a number of tonics with no better results. At this stage my mother came to me, and as she is a firm believer in Dr. Williams' Pink Pills, she started me on this medicine. I can only say that they did wonders for me. I began to get new health and strength after I had taken a few boxes, and day by day this improvement continued until I was again well and able to do all my housework, and I have not had a sick day since. I cannot recommend your pills too highly and urge those who are looking for health and happiness to give them a trial."

If your dealer does not keep these pills you can get them by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

26-3-pd E. P. SIMMONDS

Augustus D. Curtis of Chicago, Ill. and Geoffrey R. Bushby of London, England, whom he rescued from death after the latter had fallen exhausted following his flight from within the Japanese prison camp at Bataan.

The "Big show" happened while the S.S. Empress of Canada lay at the wharf, and many of the round-the-world passengers were viewing the picturesque sight of the Hawaiian volcanic region. Mr. Bushby had left the party to obtain a close-up of the House of Representatives when the eruption of May 21 occurred.
