MARSHALL BROTHERS.

Mr. Fred. Fitzpatrick

CONTESTS THE CIVIC ELECTION.

Mr. Fred. Fitzpatrick, grocer, of the West End, makes his official bow to the civic electors of St. John's in another column of to-day's Telegram. He therein sets forth some of his views and ideas and solicits the influence and support of the citizens towards his successful return as a Municipal Councillor. Mr. Fitzpatrick is a man of independent means which position he has attained by energy and brains, combined with an honesty which has won him a first class reputation in all his dealings with the business community of St. John's. Besides being a property holder of no inconsiderable extent, he is also a shareholder in many of our manufacturing and other industries, notably in several of our steel rolling firms, the Standard Manufacturing Co., the Imperial Tobacco Co., and others, so that in seeking a position at the Council Board he is not actuated by any selfish desire for personal profit but to conserve the taxpayers' interests, to guard against extravagance and to bring about such reforms as would meet with public approval.

Meeting of City Council

The regular weekly meeting of the City Council took place last night. All the Councillors were present. Mr. W. G. Dryer sent in a complaint that the new excavating on the sidewalk had undermined the fence. The Road Inspector will be asked to attend to the matter. Dr. Macpherson sent in a letter in reference to the water having been turned on at Mr. Karpov's house, Gower Street, and the damage caused thereby. Water Inspector Donnelly reported that the water was turned on.

Harvey and Co. asked for use of hydrant on their premises to sprinkle same and fill water cart. They offered to sprinkle the cove in return for the privilege. The Council refused to let the hydrants go out of their own control. The Council will do what they can to accommodate the applicants but will have to do everything possible to conserve the water supply in view of the possibility of a long continuance of dry weather.

Mr. W. G. Dryer sent in a complaint that the public right of way from Duckworth Street, near where the Clothing Factory bought ground, had been closed up. The Council will make an enquiry into the complaint.

R. A. Squires asked that the drains on Bannerman Street be cleaned up. The Sanitary Department will make enquiries.

It was ordered that Central Street be cleaned up.

The Horwood Lumber Co. ask that a sewer running through their lumber yard be closed up.

Messrs. Sampson and House say they drain their houses on Robinson's Hill by a septic tank.

J. J. St. John complained about refuse matter being dumped at the rear of his land. The Council will be willing to co-operate with him in preventing a continuance of the practice provided the owners of the land there will build a wall as expected. It is open to Mr. St. John to take action under the Nuisance Act.

The Superintendent of the A. A. Telegraph Co. asked leave to erect poles in certain streets. The Solicitor will be asked to draw up regulations on this subject, including the height of the poles.

A. W. Martin wants compensation for land taken on Hamilton Street. He will be made an offer.

H. Relace and J. Walsh applied for positions in the employ of Council steam roller and Sanitary Department. Deferred for consideration.

E. Butler wants water supply at

Dunford Street. Engineer will deal with the application.

Steer Bros., who are about to erect a building at the Municipal Basin, Murray's estate, asked for a supply of water, also a paved roadway 12 feet wide across the sidewalk for entrance to the building. The Council will send a plan of alterations to sidewalk and will inform them that the alterations will have to be made at their own expense.

Mr. Harris, of the C.C.C., asked for water service to the Armoury, Harvey Road. The request was granted.

J. W. Leary, Dunford Street, wrote to say that he had not yet water in his house nor had he done any plumbing.

Messrs. Angel & Co. want to build a steel one storey building near Radford's, Water Street West. They will be asked to send in plan.

Messrs. B. Gannon, Pennywell Road, and J. Woodruff, Power Street, had house plans approved on condition that they build stone or concrete walls beneath them.

Mr. McKelvey will be allowed to use the store in rear of the Army and Navy Depot for a laundry on certain conditions.

Some residents of Hamilton Street, who were annoyed by the Water Inspector, were written to by Mr. Rennie's Mill Road will be repaired.

Closets will be erected in the Parks and policemen will be stationed there the coming season.

Residents of Water Street, Queen Street, Prescott Street, Bond Street and Duckworth Street, who have not yet connected with the sewer will be given one month's notice to do so.

After the accounts and estimates of the week were passed the meeting closed at 1.30.

Sprained Wrist and Ankle

After Being Laid Up With Great Pain for Ten Days, Relief Was Gained Instantly by Applying

NERVILINE

One of the most soul-distressing accidents that can befall one is a bad ankle or wrist pain. "If I had only known of 'Nerviline' earlier, I could have saved myself an enormous amount of pain, and many agonizing nights of sleeplessness." Thus writes P. P. Quinn, a young farmer living near Brockville. "I tumbled from a

hay loft to the barn floor and sprained my right ankle and left wrist. They swelled rapidly and caused excruciating pains.

It was not convenient to go to the city, and the liniment in the house was useless. When I got Nerviline relief came quickly. It took down the swelling, relieved the pain, and gave me wonderful comfort.

"I can recommend Nerviline for strains, bruises, swellings, muscular pains and sore back. I have proved it a sure cure in such cases."

Think what it might some day mean to you to have right in your home, ready for an accident or emergency, a bottle or two of Nerviline. Get it to-day, 25c., or five for \$1.00, all dealers or The Cattaraugus Co., Kingston, Ont.

The shore train at 6 p.m. yesterday took out 30 passengers.

Highland Footers Meet.

The Nfld. Highlanders Football Club held their annual meeting last night, a large number being present. The reports submitted were of a very satisfactory nature and demonstrated the fact that the club is in a sound financial condition. The election of officers resulted as follows: Captain, Sgt. Benson; Vice-Capt., Pte. A. Smith; Secretary, E. Coffin; League Delegate, J. J. McKay. The Highlanders this season will practice early and often and will no doubt give a good account of themselves on St. George's Field.

Knocked Overboard.

Yesterday afternoon a small schooner, after landing some lumber was tacking across the harbor, one of the crew who stood on deck, as the sail jibed, was hit with the boom in the side of the head and knocked overboard. His comrades quickly saw him, the vessel was brought up to the wind and the man was fished out. He was stunned from the blow he received and a doctor was called on board to attend him.

Solomon, the Wise

Announces For Lo! The winter is passed, the rain is over and gone; the flowers appear on the earth, the time of the singing of birds is come, and the voice of the turtle is heard on our land—(Cant. II, 11, 12).

Solomon is still holding the knob in his hand and announces in far ringing tones the glad message: The winter is passed, spring is here. This means that you should go to B. Friedman and get your Spring Clothing, Dry Goods and Furniture for Cash and Credit.

The Arrival of the Candidate.

Footsore and Weary—He Takes Rest at Tucker's—Shannahan Asks Him a Few Questions. The old No. 7 Victoria stove threw out a good square heat and Tucker sent wreaths of good blue smoke from his catamaran, while Mrs. Tucker made the table crack as she worked overtime kneading a pan of dough, when a feeble polite knock was heard at the door. Tucker went to answer the summons and soon he heard the candidate for Municipal honors pleading for support. He looked as if he needed it all right, for he was like a man who had been on the march for a week in the pen. After listening for a few seconds to their prate at the door, Mrs. Tucker shouted out, "Ask the candidate to come in for a moment, and as I did some queer old thoughts ran through my brain. I had seen this man for the last forty years at least, and he was the same old man drinking spruce beer at the head of the pond on the day of the Races; met him on the Southside going out to see the first sealer arriving; went next to him at a funeral; stood by his elbow at a fire, and now he presents his face to me with the air of some ancient historic warrior that saw ninetwenty men for his own hand, or some lucky captain of a "swoller" that happened to fool into the seals and come in first. I looked at the picture and said, for the moment, "This picture must have been taken on a nice warm day in July, when the breeze blew softly and the birds sang at intervals, for the candidate was not out of place. He looked intelligent, much more so in the picture than in the flesh. His collar was just so and his bow was good and straight. Will some please arise and tell me why candidates for elections always get their pictures taken, wearing a good sensible looking black bow? Is it because if some candidate would like the Lincoln and hope by doing so to rise in the world just like him? Any way they all wear bows, and it would show pluck enough to get off the beaten track and don a good old-fashioned heart tie of diamond cut diamond pattern."

"Why this picture business?" I asked. "Don't you think it's a waste of good money, and wouldn't it do you more good if you devoted the cash to some charitable object?"

The candidate looked straight at me with a look of surprise. "Well, you see," said he, "some one has started the practice of putting out your face in the early days, and we have to follow suit. If you don't put them out the printers will have no use for you, and you have to please some one in election times."

"Can you tell me," said I, "why the candidates for the Council don't hire a hall and make speeches like we do at our meetings?"

"It's just this way," said he, "you run an awful risk those times holding public meetings, for some of us are not so ingenious in work in the last election, especially when the Liberal candidates held meetings, and perhaps the ingenious work may be best left to the day of the election, or for some one else to do. The public know, have a great knack of remembering those kind of things and some of them bring it to their graves."

"What's the reason ye don't say a word about the dust on your cards?" said I. "Do ye intend letting it fly skyward as the wind whistles in?"

"If I'm elected," said he, "this is one of the first things that will claim my attention."

"These words of yours seem very familiar to me, and I think I heard them at every election since McLea's. If I were you I'd change the wording of that sentence and get something more original. These are some of the things that will have my first attention if elected." Oh yes, I heard that phrase many and many a time, as it was as Buckley's goat. But what about the tenant's tax? Now, be a man and say right out straight whether you think it's just or not. Don't say you are going to abolish it to get my vote, for if you say you are, I won't believe you."

"Lock up," said he "you know as well as I do that the Council wants money and that they have to get it somehow, and if I told you that we were going to take off the tax, I'd be telling you lies."

"What's that?" exclaimed Mrs. Tucker. "Have you the impudence to come into my house and tell us that? 'Tis the likes of you that have us where we are to-day—in the hole. Get now—get and get quick and take your mug with you."

"Needless to say he got up and got, for when you make a break like that and start Mrs. Tucker's temper you're up a gum-tree."

TIM SHANNAHAN. HARBOR MISSION BOAT.—To-morrow morning the C. M. B. Harbor Mission Boat will berth work on the harbor. At 7 a.m. there will be celebration of Holy Communion at the cathedral to which the crew of the boat and members of the Bible Class are invited. Before the boat takes up her work a short service will be conducted on the wharf of Messrs. Ayre & Sons, which will be kindly run in the use of their premises for the season.

PROFESSOR ANDERSON.

Our old friend Professor Anderson, the "Wizard of the North" is meeting with great success abroad. A few days ago he performed his celebrated "Poo Poo Illusion" at St. George's Hall, London. Messrs. Maskelyne and Devant were so pleased with it that they induced the Professor to sell and teach it to them. We hope to see the Professor and his family coming this way before long.

Arrival of the Neptune

At 8.30 last evening the s.s. Neptune, Capt. Alpheus Barbour, arrived in port hailing for 8,700 seals, which include 3,200 young hoods, 2,000 old hoods and 3,500 old harps and bedlamers, the weight of about 18,000 young seals. The Neptune with the other ships of the wooden fleet were in the neighborhood of the main patch of seals during the early part of the spring, but the modern type of ships had them pretty well disposed of when these vessels reached the scene, and the Neptune steamed away north in search of the old fat. She steamed down as far as White Bear islands on the Labrador Coast and saw thousands of old seals, among which she gave a good account of herself, as demonstrated by her catch. When off the White Bear islands on Sunday last it was noticed that the crank shaft was out of order, and an investigation showed that it was cracked. Capt. Barbour then decided to bear up for home, and has been coming along slowly ever since, going into Catalina out of the gale on Thursday night. Her fore and aft canvas helped her to get across Trinity and Conception Bays yesterday. The smoke of three steamers were seen when the ship bore up for home, and the last ship seen by the Neptune was the Bloodhound. One of the master's watches says he saw the Aurora to the eastward on the 16th inst. A fire occurred in the Grey of the Neptune's bunkers off the One Islands on the 17th inst., and the ship ran into St. Anthony where it was extinguished. The steamers still out are the Adventure, Aurora, Diana, Bloodhound and Rattler, and it is possible these have done pretty well with the old seals.

Boy Had Fits For 6 Years

Druggist advised DR. A.W. CHASE'S NERVE FOOD—Cure complete and lasting.

Mrs. J. D. Palmer, 38 Park St., Amsterdam, N. Y., writes: "When six years of age my boy began to have fits. They came on in the night. He would make strange noises, stiffen out, froth at mouth, face would twitch and sometimes turned purple. After the fit he could not talk."

"The family physician said all he could do was to keep them down somewhat. The second physician pronounced trouble Jeffersonian epilepsy, but could not cure him. He suffered for six years before beginning the use of Dr. A. W. Chase's Nerve Food had three fits in about five days. Our druggist recommended Dr. A. W. Chase's Nerve Food. He has taken seven boxes and has not had the symptom of a fit since. His color has greatly improved; he is not nervous and irritable like he used to be, and we consider his cure complete."

Such results are only obtained by the use of the genuine Dr. A. W. Chase's Nerve Food—not from imitations or substitutes. 50 cents a box, all dealers or Edmanon, Bates & Co., Toronto.

Silk scarfs, weighted with fringe, are very pretty and are draped on hats with smart results.

They Stay Bright

ORDINARY paints very soon discolor and fade. ML Pure Paints withstand sun and weather and stay bright, because ML Pure Paints, besides pure lead, pure zinc and pure oil, contain a special ingredient that makes them last about twice as long... and better protect any surface they cover, indoors or out. Other makers haven't found out yet just how to use that ingredient in the right quantity and the right way. If you buy paint for real service... real economy... real money's worth then buy
