makes more bread to the barrel than any other flour on the marketbread that takes up water readily, "stands up" well in the oven, looks well, tastes well and is light and nutritious.

Being a carefully prepared blend of Manitoba Spring wheat and Ontario Fall wheat, Beaver Flour is also an ideal pastry flour, making the most delicious cakes, pies and biscuits.

Keeping two flours-one for bread and one for pastry - involves unnecessary expense and bother. Beaver Flour is best for both.

Pinex is the most valuable concen-rated compound of Norway white dine extract, and is rich in guiaicol and all the natural pine elements which are so heating to the mem-oranes. Other preparations will not work in this formula.

This plan of making cough syrup with Pinex and Sugar Syrup (or strained honey) has proven so popu-ar throughout the United States and Canada, that it is often imitated. But he old, successful formula has never been equalled.
