NEW GREEN PEAS,

In Cooking Nets.

You can have New Peas now or at any time of the year, if you buy Farrow's Patent Net Peas, and cook as directed.

No dangerous cans, and the flavor is delicious, like Peas fresh from the garden.

Ask for Farrow's Net Peas.

The Evening Chit-Chat

By RUTH CAMERON

"In this place I have seen hundreds of women and girls who ought to be attractive, but who are content to be plain. Just because they are not actually pretty, they are content to be no-nentities. They miss all that makes life worth living, the attention of the opposite sex."

These words were uttered—or rather written—by a famous French beauty.

Some day that woman is going to grow old. Some day, presumably, she is going to lose her youthful charms. Some day she is going to cease to be able to compete with younger women for "the attention of the opposite sex."

I wonder, since she thinks that is all that makes life worth living, if all happiness will cease for her then. If she does not develop a somewhat different view of life, from that which she seems to hold now, I suppose it will.

Sex is a tremendous factor in woman's life, even greater perhaps than in man's. The admiration and love of men are two of the greatest happiness stimulants that can come to a woman. But they are not, as this woman, and many others would have us believe, the whole of her life.

I am constantly reading in the newspapers and magazines—and, yes, I confess it, sometimes writing myself—advice to girls to do, or not to do, this or that because "men like" this, or "men don't like" that.

An average group of girls seldom talk long without discussing some of the masculine likes and dislikes.

"We mustn't use perfume, because 'men don't like perfume.'"

"We mustn't be too athletic, because 'men don't like' girls who are too strong and self-reliant."

"We must appear to be domestic, because 'men are apt to fall in love with a domestic woman.'"

"We mustn't insist on having the vote, because 'men wouldn't care for women who know enough to vote.'"

I wonder if gatherings of men spend their time discussing feminine likes and dislikes.

I know that men are not constantly receiving advice in the papers to do this or that to please the opposite sex.

It seems to me, that we are putting altogether too much emphasis on this phase of our existence. I beg to differ with Madame, the beauty, in her statement that "the attention of the opposite sex" is all that makes life worth living to a woman.

There are a great many things besides considerations of sex that make happiness for a woman. There is congenial work, there is friendship, there is social service, there is travel, there are a thousand intellectual pleasures such as books, lectures, theatres, study and so forth.

Don't believe anyone who tells you that "men like" and "the attention of the opposite sex" are the beginning and end of woman's existence. These are good things my friends. I would be the last to deny that. But they aren't the whole of existence—even of a woman's existence.

Ruth Cameron

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

"If your dealer offers something 'just as good,' it is probably better FOR HIM—it pays better. But you are thinking of the cure not the profit, so there's nothing 'just as good' for you. Say so."

Dr. Pierce's Common Sense Medical Adviser, in Plain English; or, Medicine Simplified, 1008 pages, over 700 illustrations, newly revised up-to-date Edition, paper-bound, sent for 31 one-cent stamps, to cover cost of mailing only. Cloth-bound, 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

Fads and Fashions.

The scallops are here. Satins continue to lead. Olive green is a favorite color at present.

Puffed sleeves at the elbow are considered good.

Green is having a great vogue for evening toilettes.

Even the severe tailored suits are trimmed this season.

Fashion is favoring embroideries to an unusual degree.

Burgundy reds are assured a place in coming fashion.

In sleeves, puff effects at the elbow are considered good.

Glaze and chameleon chiffon taffetas are expected novelties.

Aigrettes are placed flat on the brim of large black velvet hats.

Smart little cloth gowns have short jackets of velvet to match.

Long handles continue fashionable for the parasol of the promenade.

The spring gives promise of small flat jabots and satin floral garnitures.

Paris takes a delight in the revival of the old-time changeable taffetas.

Ecu crash toweling is one of the latest notions used as trimming for blouses.

The fichu will be an important factor in trimming waists of lingerie dresses.

Natural pongee and white lines are again featured in fashionable pongees.

There is an obvious tendency towards a rounded waist line in the newest models.

Laces are being used to a much larger extent than last year for trimming parasols.

Contrasting fabrics in underskirt and sleeves offer new possibilities in gowning.

New touches and flower effects are being added to the store of neckwear possibilities.

Colors for the most advanced fashions are blues, browns, reds, gray, and greens.

Gowns of black satin combined with navy blue serge have found instantaneous favor.

There is a smartness in everything; even the old standby serge suit is now frequently elaborate.

Skirts, both of suits and evening dresses, are slightly full, yet with the effect of straightness.

The skirts to the demi-tailored models are frequently trimmed at the left side, or they are made in tunic effects.

Black-and-white furs are a fad of the late season; foremost in elegance and expense are Hudson seal and real ermine.

WELL, WELL!

THIS IS A HOME DYE FOR ANYONE CAN USE

Twenty Froggies Went to School

Twenty froggies went to school. Down beside a rusty pool. Twenty little coats of green. Twenty vests so white and clean. 'We must be on time,' said they. First we study, then we play; That's the way we mind our rule, When we go to school.'

Master Bullfrog, grave and stern. Called the classes in their turn, Taught them bravely how to strike, Likewise how to leap and dive; 'From his seat upon the log, 'taught them how to say 'Kerchoo,' And from sticks that bad boys throw How to dodge the blow.

Twenty froggies grew up fast; Bullfrogs they became at last. Not one dunce among the lot, Not one lesson they forgot; Polished in a high degree, As each bullfrog ought to be; Now they sit on other logs Teaching little frogs.

The Nova Scotia "Lumber King" says: "I consider MINARD'S LINIMENT the BEST Liniment in use. I got my foot badly jammed lately; I bathed it well with MINARD'S LINIMENT and it was as well as ever next day."

Yours very truly,
T. G. McMLLEN.

Darrow Indicted.

Los Angeles, Cal., Jan. 29.—Two indictments, each containing counts of bribery and corruption, were returned by the County Grand Jury against Clarence S. Darrow of Chicago, formerly chief counsel for the McNamara brothers. The bills allege that he furnished the money out of the McNamara defense fund, and bribed Robert Bain, a juror sworn to try Jas. B. McNamara, the confessed dynamiter and murderer, and Geo. H. Lockwood, a venieman.

Macaroons should never be thrown away when not used, as they may be crushed and used to flavor custards, puddings and ice cream.

Insure Against Serious Colds

Of the many forms of insurance probably that which protects you against the serious results of colds is the most valuable at this time of year when so many are becoming the victims of la grippe and pneumonia.

By the prompt use of Dr. Chase's Syrup of Linseed and Turpentine you can keep the cough loose, prevent further development of the cold and cure it up in two or three days, whereas the usual lifetime of a cold is three or four weeks, to say nothing of the serious results so frequently the outcome.

Mothers insure their children against croup by the use of this great family medicine, for if given frequently in small doses it prevents the dreadful choking spasms and soon effects a thorough cure.

Whooping cough, bronchitis, asthma, croup and severe chest colds are quickly brought under control by the use of Dr. Chase's Syrup of Linseed and Turpentine, 25 cents a bottle, at all dealers, or Edmondson, Bates & Co., Limited, Toronto.
