LONDON, May 15. King George and Queen Mary are going to Berlin for the wedding of Princess Victoria Louise and Prince Ernest Augustus of Cumberland, which takes place May 24th. It is said their Majesties at the Emperor's request, will remain in Germany until June 25th.

TOKIO, May 15.

The Japanese foreign office is optimistic as to the outcome of the controversy with California. In reply to an enquiry it was stated this morning by a high official, that negotiations were progressing satisfactorily, and a friendly permanent solution was probable.

LONDON, May 15.

Henry Curtis Bennett, the Bow Street magistrate, trying the suffragette prisoners, is the latest public man for whose protection against outrage detectives have been assigned by Scotland Yard authorities. He is accompanied every day to and from the court by two officers in plain clothes, as a result of threats made.

HALIFAX, May 15.

H.M.S. Cumberland arrived in port about noon to-day, from Bermuda, with Naval Cadet Prince Albert on board. He will likely be the guest here of Lieut-Governor MacGregor. Up to to-day the city has not made any preparation for a reception, so H.R.H. does not visit Halifax in any official manner. At Sydney, however, a reception is planned.

OMAHA, May 15.

A tornado in the southern part of Seward county last night, took toll of 17 lives and injured 40 persons. Property valued at \$250,000, was destroyed. Three towns, Seward, Tomaro and McColge, suffered from the elements, the greatest destruction being at Seward, where 11 were killed and 30 injured. Greater destruction was averted by the fact that the tornado crossed only a comparatively small part of the town.

LONDON, May 15.

The Duke and Duchess of Westminster have signed a formal deed of separation. She is to receive £100,000 a year from him, and has taken a house in the suburbs. Their intimates say that the Duke tried hard to persuade his wife to divorce him, but she refused. Her mother, Mrs. Cornwallis West, strongly supported her in this determination. Moreover, she was notified that the King's Proctor would probably intervene on the ground of collusion.

SEWARD, Neb., May 15.

A tornado, which took a toll of ten lives, injured over thirty persons, and destroyed a third of the town, occurred at 8 last evening. Twenty-two houses, including several of the finest residences, were destroyed, and many more partially wrecked, but the business portion of the place did not greatly suffer. The tornado struck the western or residential portion of Seward and swept everything in its path. Those killed were mostly caught in the wreckage of their homes.

LONDON, May 15.

At a meeting of the Canadian immigration committee attention was called to the Privy Council order which had been put into operation by the Dominion Government, providing that no immigrant could land unless he came direct from his native country. There being no direct steamship service between India and Canada, the effect of the order is to prohibit further immigration from British East India. Sir Mancherjee Merwanjee Bhowmjee, who presided, said that by removing this prohibition, Canada would be contributing more to the unity of the Empire than by the gift of half a dozen dreadnoughts. A resolution urging the repeal of the order was unanimously carried.

LONDON, May 15.

The keys of Scutari were formally handed over to Naval commanders, representing the Powers, at noon, today, in a square opposite the military barracks, where Esad Pasha so recently surrendered to Crown Prince Danilo. The ceremonies were brief and simple. Vice-Admiral Cecil Burney was escorted into the city by a Montenegrin guard of honor. A touching feature was the presence around the imposing, well-fed naval brigades of several thousand semi-starved, gaunt men, women and children, inhabitants of Scutari, who lost all their possessions during the siege, and who are still destitute. Admiral Burney and Capt. Spizzi, of the Italian navy, delegated a force of officers and men to distribute food and clothing, transported from various European cities for the benefit of the sufferers. Immediately after the presentation of the keys, the last Montenegrin regiment withdrew from the city and retired to the camp of the Crown Prince.

MINARD'S LINIMENT CURES DIPH. THERIA.

Against Confederation.

Editor Evening Telegram.

Sir,—From what I have read in the newspapers about the dear Old Colony I incline to the theory that the Confederate jugglers are perplexed since Laurier got trepanned. Laurier said to a well-known politician of Newfoundland, "Thou art the man." I understand that neither pains nor expense had been spared by the Laurier Government; I may add, trickery to ensare Newfoundland into the Dominion of Canada. Luckily, however, his government got defeated.

The Laurier Government undertook to reverse certain policies without mandate from the people of Canada. But the Canadian, full of good sense and just observation were wide awake to his engineering and compelled him to submit his actions to the voice of the country and upon doing so he was completely defeated. Do you get me intelligent voters?

I have been closely and intimately acquainted with some very intelligent Nova Scotians who are conversant enough with the condition of the Provinces since they entered into Confederation. I have asked them what advantages have they derived from it. They from it down in every social circle; they say it did not materially advance the interests of the Provinces, in fact some villages are stunted, no cultivation, but while they stood aloof clear of taxation they were living in prosperity in their happy homes.

I feel as I travel the ground from 1869 the first invasion upon our country to the present day, I regard those conspicuous settlers of that time worthy of imitation by the people of to-day. I am proud of the glory and achievements of my native country.

Perhaps it would not be a bad idea for you to get more in touch with this country. As I glide over the pages of history I find that Sir Robert had more Yankee notions than Sir Edward.

Yours very truly,
JOHN B. CODY,
Cambridge, U. S. A., May 8, 1913.

I cured a horse of a bad swelling by MINARD'S LINIMENT.

THOS. W. PAYNE, Bathurst, N.B.

Hr. Grace Notes.

A small cargo of coal arrived to Mr. A. Rutherford yesterday. This is the first shipment this season. Messrs. McRae & Sons also have a small cargo here now.

The salt brought by the s.s. Bloodhound to Messrs. Murray & Crawford is being discharged. Men are also working on the steamer cleaning her in preparation to her going to the Straits with the crews of Baine, Johnstone & Co.

Citizens were much disappointed this morning when the official announcement was made that His Excellency, through illness, was unable to pay us the intended visit. The day is delightful—royal weather some of the children say—and we all hope that if the party comes to-morrow, we will have equally fine weather.

A fine young horse owned by Mr. Thomas Davis, of Bear's Cove, was killed on Monday last by falling over the bank at Bear's Cove. It appears that Mr. Davis son was carrying rubbish over the bank and in backing out the animal went too far and fell over. The distance was not great, and although no signs of injury could be noticed the animal expired in a few minutes.

Work at the dock is still rushing and the four cradles are continually occupied by as many schooners being fitted for the summer's work.

At last night's meeting of the King Edward Branch of C. C. B. S., Mr. Arthur Rogers was selected to fill the office of President, left vacant by the resignation of Mr. James Parmiter, on the eve of his leaving for Buffalo. The Vice-President Mr. Robert Tetford, having also left the town for Sydney, Mr. Harold Sheppard was elected to fill that office for the balance of the year. We congratulate the Branch on the selection of these two officers.

CORRESPONDENT, Harbor Grace, May 14, 1913.

GOING WEST.—On the Digby are some 30 young Englishmen, all mechanics, bound out to the Northwest of Canada. They should do well there in a country just beginning development, and where skilled labor is at a premium.
