A CRIMINAL SNORE.

A Child Frightened to Death, by the Noise of a Sleeping Boarder.

New York, June 9 .- The snoring habit has broken up families and several friendships, but this is the first time on record, it is believed, snoring has been held responsible for death, and, unfortunately, not the death of the snorer, but of an innocent victim. Fright, due to hearing a man snore, caused the death of a 3-year-old child, Anna E. Churchill, in Brooklyn, on

Edward Mason, a painter, who boards at the Churchills'. After he had been drinking heavily he previous night, Mason went to the Churchill house, lay down in the kitchen, and fell asleep. Mason's snore is said to be such that most of the people in his block know it. At any rate, it awakened little Anna Churchill, and threw her into convulsions.

The family turned Mason out of loors, and he was arrested and sent to jail for ten days. A doctor was called in to attend the child, but she passed from one convulsion to another, and died the following afternoon. The case will be investigated by the coroner, who will endeavor to ascertain whether Mason's responsibility for

error until too late. The damage is which shows that trade was carried on by way of the islands of the Caroline by way of the islands of the Caroline group between China and Central Amigrated and colonized extensively.
